GENDER360SUMMIT

Welcome to the Breaking the Silos GBV Summit.

This Summit will examine GBV services across populations, discuss how to achieve the specific Sustainable Development Goal targets on GBV in Asia and the Pacific, address intersections and gaps between types of violence, and highlight the role of donors in breaking down silos. Addressing gender inequality and human rights violations as root causes of GBV establishes a common framework for examining policies, response systems, and prevention programming germane to a wide set of violence and rights abuses. With this Summit, we aim to break down silos between different types of GBV programming.
