EIGE's study on administrative data sources on GBV

OBJECTIVE

- Map **key administrative data sources on GBV and statistical products** in the EU28 MS
- Analyse **relevance and quality**

KEY CONCEPTS

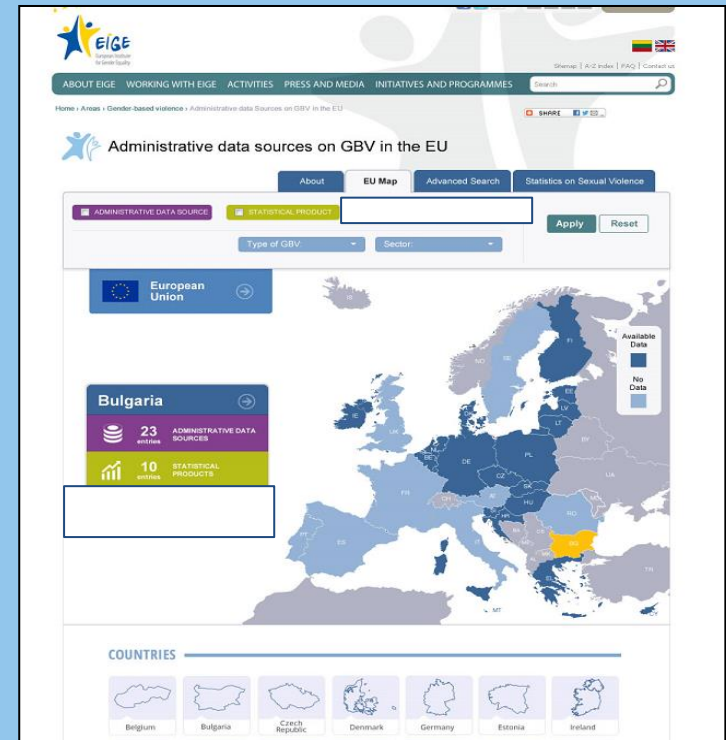

Online mapping tool and databases

EU Map

Country page

Administrative data source

Statistical product

The screenshot shows the EIGE online mapping tool interface. At the top, there is a navigation bar with links for 'ABOUT EIGE', 'WORKING WITH EIGE', 'ACTIVITIES', 'PRESS AND MEDIA', and 'INITIATIVES AND PROGRAMMES'. Below this is a search bar and a language selector (showing 'Shqipëri', 'A-Z Index', 'EN', 'FR', 'IT', 'NL', 'PT', 'RO', 'SK', 'SL', 'SV', 'UK', 'UKR'). The main heading is 'Administrative data sources on GBV in the EU'. Below the heading are tabs for 'About', 'EU Map', 'Advanced Search', and 'Statistics on Sexual Violence'. The 'EU Map' tab is active, showing a map of Europe with a legend for 'Available Data' (No Data, Data). A sidebar on the left shows 'European Union' and a detailed view for 'Bulgaria' with 23 administrative data sources and 10 statistical products. At the bottom, there is a 'COUNTRIES' section with icons for Belgium, Bulgaria, Czech Republic, Denmark, Germany, Estonia, and Ireland.

Literature and
Legislation

Violence against Women (D)

- Protective measures and criminalisation are in place in most MS
- Legislation lacks a gender-based violence perspective
- Support and services are still weak in parts

Way forward: Ensure commitment and resources

- Causes and consequences still need to be better understood
- Progress with EU comparable data, but challenges remain

Way forward: Drive data collection forward

- Little attention given to norms, attitudes and stereotypes

Way forward: Expend perspectives on gender-based violence

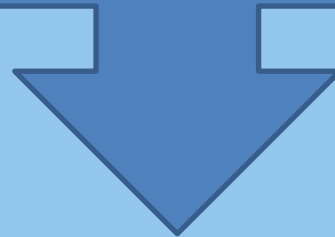

Study on the estimation of the number of girls at risk of FGM in selected EU MS

- Review **methodologies**
- **Pilot study** in 3 MS
- Methodological **recommendations**

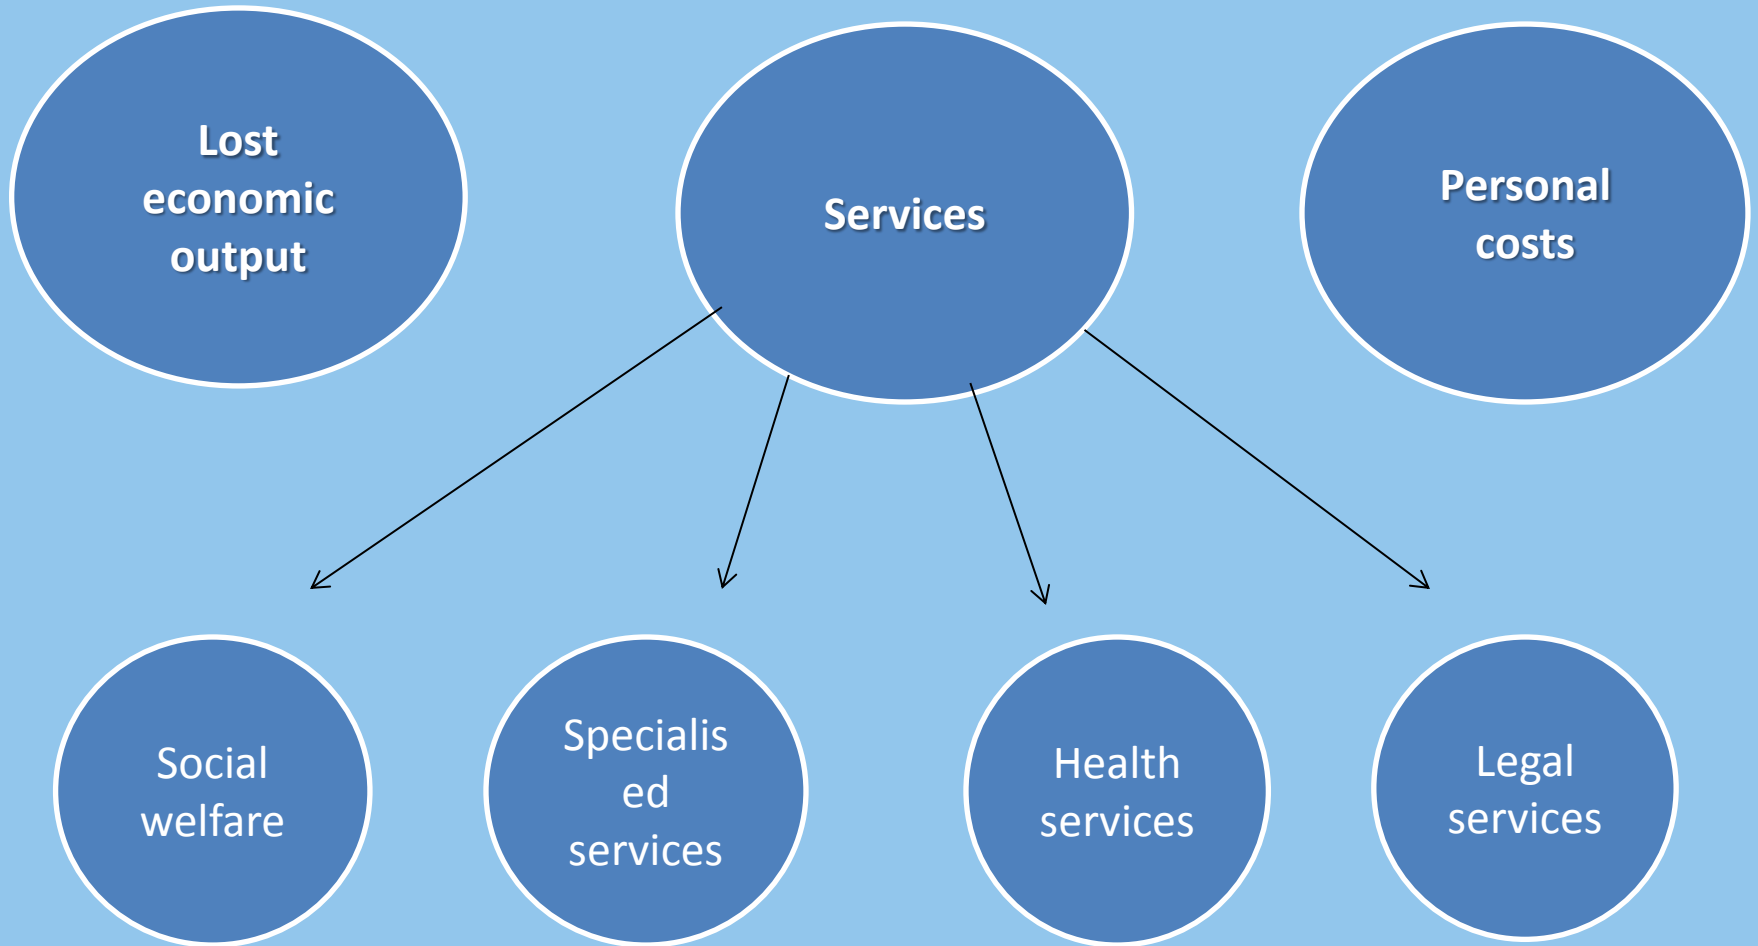

Study on estimating the costs of gender-based violence

- Costs on individuals and society
- Economy detriment - lost working time due to injuries
- Drains resources from services - publicly or collectively

Impact on economy and society is high

Types of costs

EIGE's database on gender statistics

- ***Centralised source of statistics information***
 - A single database providing access to gender statistics
 - Index-relevant statistics
 - Interface: tree-based + keyword search
- ***Metadata with gender equality concepts/methods***

EIGE's database on gender statistics

- Browsing trees -

- ↓ Thematic areas
- ↓ Policy areas
- ↓ EU strategies
- ↓ Gender Equality Index

- ↓ Women and men in decision making
- ↓ Gender-based violence (?)

Gender analysis of Victims' Directive

- from a gender perspective. The study is focused on the specificities of the Directive's implementation regarding gender-based violence
- every article of the Directive is analysed separately using two methods
- recommendations to the MS on the possible Directive interpretation from a gender perspective in order to transpose the Directive in a way which benefits victims of gender-based violence

To know the extension of gender-based violence in the EU is a challenge
