Directory of UNESCO Fellows

Repertorio de Becarios de la UNESCO

# Foreword

Development, if it is to be successful and sustainable, must be people-centred. Since its inception, UNESCO, as the organization of intellectual cooperation of the United Nations System, contributes to such endogenous development by helping develop the talents and skills of students and researchers whose ingenuity and capacity for innovation have allowed advances and breakthroughs in all the fields of competence of the Organization.

Consequently, and thanks to the Fellowships Programme, some 50,336 fellows from around the world have been able to study in different countries. Their experience contributed to the significant forging of strong intellectual and scientific links among peoples, and to the expansion of international cooperation and understanding. The programme facilitates genuine sharing and circulation of knowledge and expertise in which, each party, be it teacher or student, gives to and learns from one another.

The Directory of UNESCO Fellows shows fellowships awarded in the 2006-2007 period within the framework of both Regular and Extra-budgetary Programmes. It reflects UNESCO's continuing commitment to the development of human intellectual capacities and international cooperation. It shows the generous support of which this programme benefited during the last biennial exercise. Adhering to UNESCO's Constitution, this Programme contributes to ensure full and equal access to education for all and promotes human intellect. It encourages cooperation among nations through learning and mutual understanding.

Assistant Director-General for  
External Relations and Cooperation

## Avant-propos

*Pour que le développement perdure et réussisse, il se doit d'être centré sur l'individu. Depuis sa création, l'UNESCO qui se définit comme l'organisation de coopération intellectuelle du système des Nations Unies participe à un tel développement en aidant les chercheurs et étudiants à exploiter au mieux leurs talents et aptitudes lorsqu'ils ont su démontrer que leur ingéniosité et capacité d'innovation ont permis des percées et avancées dans les domaines de compétences de l'UNESCO.*

*Ainsi grâce à son programme de bourses quelque 50 336 boursiers à travers le monde ont pu réaliser des études à l'étranger. Leurs expériences ont contribué à tisser de façon significative des liens intellectuels et scientifiques entre les peuples et à étendre la coopération internationale et l'entente. Ce programme facilite le partage et la circulation des connaissances et expertises, où chacun donne et apprend à l'autre, fut-il enseignant ou élève.*

*Ce répertoire des boursiers de l'UNESCO indique les bourses attribuées au titre des programmes régulier et extrabudgétaire pendant la période 2006-2007. Il reflète l'engagement continu de l'UNESCO pour favoriser le développement du potentiel intellectuel humain et la coopération internationale. Il démontre l'aide généreuse dont a bénéficié ce programme au cours de l'exercice biennal précédent. S'appuyant sur l'Acte Constitutif de l'UNESCO, ce Programme contribue à assurer à tous le plein et égal accès à l'éducation et favorise le développement du potentiel intellectuel humain. Il encourage la coopération entre nations à travers la connaissance et la compréhension mutuelle.*

# Prefacio

*El Desarrollo, para que sea sostenible y exitoso, debe enfocarse en las personas. Desde su creación, la UNESCO que es como la organización intelectual del sistema de Naciones Unidas, participa de este desarrollo impulsando y fortaleciendo los talentos y habilidades de los estudiantes e investigadores, cuya originalidad y capacidad para la innovación les han permitido alcanzar logros significativos en las áreas de competencia de la Organización.*

*Así, gracias a su Programa de Becas, la UNESCO ha otorgado 50,336 becas a estudiantes provenientes de todas partes del mundo para estudiar en diferentes países, forjando así sólidos lazos intelectuales y científicos entre los pueblos, promoviendo el entendimiento y la cooperación internacional. El Programa facilita la circulación y el intercambio genuino de conocimientos y experiencias, permitiendo así que tanto el profesor como el estudiante, otorguen y aprendan.*

*En el repertorio de los becados de la UNESCO, figura la lista de becas atribuidas por la Sección del Programa de Becas durante el bienio 2006-2007, tanto en el marco del Programa Regular como por los programas extra-presupuestarios. El repertorio refleja la continuidad de la UNESCO en su compromiso para impulsar y fortalecer las capacidades humanas y la cooperación internacional. El repertorio da muestra del apoyo generoso que ha recibido este Programa durante el bienio precedente. Apoyándose en el Acta Constitutiva de la UNESCO, este Programa contribuye al desarrollo del potencial intelectual humano, asegurando a todos un acceso pleno e igualitario a la educación. El Programa fomenta la cooperación entre las naciones a través del conocimiento y la comprensión mutua.*

This Directory, prepared by the Fellowships Programme Section, similar to the previous ones, lists fellowships awarded by the Section in 2006 and 2007 in all the five regions: Africa, Arab States, Asia and the Pacific, Europe and North America, and Latin America and the Caribbean.

For each fellowship, information is provided on the name and the position of the fellow at the time of the award, field of study, programme according to the sources of financing, countries of study or visit.

The diagrams in the following pages indicate the total number of fellowships awarded to men and women by region, by Programme Sector and by source of financing. The Annexes provide lists of abbreviations used in the Directory for denoting countries of study, programmes and sources of financing, etc.
