

UNESCO Future Lecture Series: Foresight Frontiers (Part Two)

SHORT BIOS

Philine Warnke is a senior foresight researcher at the Austrian Institute of Technology AIT in Vienna. Before joining AIT in 2012 she was leading the foresight team at the Fraunhofer Institute for Systems and Innovation Research in Karlsruhe, Germany. Prior to that, she was a senior researcher at the European Commission's Institute for Prospective Technological Studies JRC-IPTS in Seville, Spain.

Philine has carried out numerous Foresight projects on national, European, international and sectoral level. Her research focuses on foresight methodology, socio-technical trajectories and innovation dynamics. Philine's academic background is in mechanical engineering on the one hand and social science research on co-evolution of technology and society (STS) on the other.

Anita Kelleher's qualifications and professional memberships

- Ph.D. Social and Political Science
- Advanced Master of Business Leadership
- Master of Futures Studies
- Diploma Strategic Marketing
- Member, Association of Professional Futurists
- Member, World Futures Studies Federation

Anita Kelleher is a professional futurist with a passion for helping organisations and communities realise their potential. With over 30 years organisational experience, including 10 years specialising in strategic foresight and futures research, Anita has earned a reputation for providing practical guidance to strategy and policy teams with integrity. She also serves, in a voluntary capacity, as the Chair of the Australian Node of the Millennium Project and is an adviser to the CSIRO Futures program.
