Conference of Parties to the International Convention against Doping in Sport

3CP

Third Session
Paris, UNESCO Headquarters, Room II
14-16 November 2011

Distribution: Limited

ICDS/3CP/Inf.1
30 October 2011
Original: English

Item 7.1 of the Provisional Agenda

Reports of States Parties on Measures Taken by Them for the Purpose of Complying with the International Convention against Doping in Sport

Summary

Background: It is a requirement under Article 31 of the International Convention against Doping in Sport (hereinafter referred to as “the Convention”) that all States Parties “shall forward every two years to the Conference of Parties through the Secretariat, in one of the official languages of UNESCO, all relevant information concerning measures taken by them for the purpose of complying with the provisions of this Convention.” The Secretariat has developed the *Anti-Doping Logic* system, which consists of an on-line questionnaire and analysis software, to collect data from all States Parties on the measures they have taken to implement the Convention. This document presents the results generated by the *Anti-Doping Logic* system based on the information provided by States Parties for the 2010-2011 biennium.
