# Berlin

## UNESCO City of Design

As the first German city to be appointed to the network, Berlin has demonstrated remarkable social, economic and cultural achievements in the field of design, and as a crossroad of diverse backgrounds and histories, Berlin's design tradition and contemporary creation have influenced both national and international movements.

With a good grasp of the economic impact of its design industry, the city of Berlin has made great strides in coordinating policy, training and networking support for its stakeholders.

### Fast Facts

---

- 1,500 cultural events taking place in the city on a daily basis.
