

This project aimed to change school childrens' attitudes vis-à-vis the environment and instil a sense of responsibility for protecting the environment by involving them in beautifying the school landscape and increasing their awareness of the ecological value of their surroundings.

Who's involved?

Project leader: Ari Ramilimanitra

Lead organisation: Mpanazava eto Madagasikara

Other organisations: SAMPATI; FJKM Ambohitrandriamanjaka; EPP; ONE, PNUD, WWF, CCEE, Tany Meva, projet BMC

Timeframe: February - October 2007

Objectives:

- Increase school childrens' awareness towards their environment and involve them in improving it,
- Change school childrens' attitudes vis-à-vis the environment
- Beautify the landscape,
- Plan a visit to the zoo and botanical garden of Tsimbazaza.

Activities:

- Plan and organise games and drawing competitions based on the environment;
- Initiate a film session to sensitize the participants on the environmental issues they face.

Distribute educational documents and discuss and debate the issues;

- Run a 'Beautiful gardens' competition on the school grounds and a clean-up of the class-rooms and school;
- Organise an educational visit to the zoo and Tsimbazaza botanical gardens;
