

IKM MONITORING REPORT

July–September 2014, UNESCO Bangkok

The July–September period saw a broad range of UNESCO initiatives covered in both traditional and new media, with the two highlights being the Asia-Pacific Regional Education Conference (APREC) in early August and the Asia-Pacific Awards for Cultural Heritage Conservation in September. The Heritage Awards in particular received coverage in several regional media outlets from India to Iran, including several articles in local languages. Website views increased from the previous quarter despite the lull typically expected during this period. Social media also thrived during this time, with Facebook likes increasing by more than 3,000.
