This publication contains a collection of examples of ICT in Teacher Education projects from the Asia-Pacific region.

News & Events

[Forum to bring together Deans of Education from across the Asia-Pacific region](#)

From 18 to 20 February 2008, UNESCO, in cooperation with Edith Cowen University (ECU) and Microsoft, will convene the Asia-Pacific Deans of Education Forum in Perth, Australia.

["One laptop per child" - Intel continues cooperation with Philippine Department of Education](#)

Intel will continue to join hands with the Department of Education in implementing its e-learning project where each teacher and student has its own computer.

[ICT offers new opportunities for girls](#)

In many developing countries, girls are still not enjoying equal educational, economic and social rights. Information and Communication Technology can help to open up new doors of opportunities for young girls and women.

[International cooperation vital to bridging digital divide](#)

Cooperation among the international community is a key to overcoming the "digital divide" that separates poor communities from affluent ones through their lack of access to Information and Communication Technology.

[UN partners with European Commission to boost ICT investment](#)

A new agreement between the United Nations' telecommunications agency and the European Commission aims to attract greater investment in ICT infrastructure in the Caribbean, Africa, Asia and the Pacific regions.

Programmes

[World Wide Web Consortium's Web Accessibility Initiative](#)

This initiative has played a leading role in promoting the importance of accessibility and developing guidelines for producing accessible Web resources.

Resources

[Appropriate and accessible ICT tools for women's education and empowerment](#)

The article describes a research project on the relationships between ICT tools and education within the lives of grassroots women in developing countries.

[Connexions: online tool for creating content for the web](#)

This web-based document creation and management system is a place to view and share educational material made of small knowledge chunks called modules that can be organized as courses, books and reports.

[Skaal - course management and learning support platform](#)

The Skaal - course management and learning support software is designed to provide unrestricted access to course information, educational materials, and learner contributions.

[A professional development framework for e-learning](#)

The Learning and Skills Network (LSN) has developed a professional development framework of competencies in the application of e-learning techniques, tools and associated guidance.

[Learning design toolkit for educators](#)

This article presents a learning design toolkit which guides practitioners through the process of creating pedagogically informed learning activities which make effective use of appropriate tools and resources.

[Presentation: ICT and sustainable development](#)

In response to the question: "Why is ICT useful for sustainable development?" this presentation explains how ICT can be used for the enhancement of education, health, livelihood, voice, and choice.

[Teacher Tools: On-line resources for teachers](#)

A comprehensive directory of teaching resources, from printable calendars and classroom seating plans, to free on-line educational games.

Technology planning: Building support and communication

This eBook provides strategies for gaining consensus and communicating effectively in technology planning.
