(   ) No plan
(   ) Yes, my plan is (actions and timeframe):

5. Others, please specify and make the action plan

Country-level Project Activity Planning Template

Instruction: Based on the needs identified by individual institutions, participants from one country meet as a group to identify activities that are common and plan for joint national workshops, institutional collaboration or even international cooperation. The output of this template is to help UNESCO plan activities that are either country-based *(participants coming from several institutions within the country)* or sub-regional based *(participants coming from a cluster of countries)* for the next two years (until June 2011).

I. Background Information

Name of country:
Country coordinator:
(   ) If no country coordinator, please list all the participating TEIs:

(   ) If country coordinator identified, please provide the following information
Name: Title:
Email: Phone number:

II. Next Gen Project Activities your Country Plans to Co-organize
