INTRODUCTION

The Executive Board Booklet is a reference guide for Board Members describing the composition and functions of the Board and its subsidiary bodies, tracing developments over the years.

The information contained in this Booklet was found useful not only by the Members of the Board but also by the various authorities in Member States, Permanent Delegates, National Commissions and members of the Secretariat. It has therefore been published since 1979, this being the eighteenth updated edition.

A.
EXECUTIVE BOARD

I. COMPOSITION

Number of Members

1. As provided for in Article V.A.1 of the Constitution, the Executive Board originally consisted of 18 members; this number was subsequently modified by the General Conference as follows:

resolution	7	C/41.121	(1952)	20 members
	8	C/II.1.2	(1954)	22 members
	9	C/37	(1956)	24 members
	12	C/14	(1962)	30 members
	15	C/11.1	(1968)	34 members
	17	C/13.1	(1972)	40 members
	19	C/17.1	(1976)	45 members
	21	C/18.1	(1980) ¹	51 members
	28	C/20.2	(1995)	58 members

and the above-mentioned Article V.A.1 was amended accordingly.

2. In addition, in accordance with the provisions of the second sentence of Article V.A.1, ‘The President of the General Conference shall sit *ex officio* in an advisory capacity on the Executive Board’.

Status of Members, methods of election and term of office

3. At the beginning, and up to 1952, the members of the Executive Board were elected for a term of office of three years and were immediately re-eligible for a second term. At its 7th session (1952), having adopted the principle of holding sessions every two years, the General Conference decided (7 C/Resolution 41.122)

1. In accordance with paragraph 3, section II, of 21 C/Resolution 18.1, the General Conference postponed until its 22nd session, held in Paris in 1983, the election of members of the Executive Board to the additional seats created by virtue of the amendment to the Constitution resulting from that resolution (paragraph 1, section I).

to extend the duration of members' term of office to four years, with immediate re-eligibility for a second term, and amended Article V(3) of the Constitution accordingly.

4. In addition to the modifications described above, five important amendments have been made to the constitutional provisions concerning the Executive Board: the first in 1954, the second in 1968, the third in 1972, the fourth in 1976, and the fifth in 1991
5. As indicated in the provisions of Article V (paragraphs 1, 2 and 12) of the original text of the Constitution, when it was first established the Executive Board comprised members who sat in their personal capacity and were elected by the General Conference from the delegates designated by Member States on account of their qualities and their competence in the fields of UNESCO's activities. While not representing their respective governments, they exercised collectively the powers delegated to them by the General Conference on behalf of the Conference as a whole. They thus sat on the Board in a dual capacity, a system that remained in force until 1954.
6. The purpose of the 1954 *amendment* was to confer, *additionally*, on each member of the Board the status of representative of the government of the state of which he was a national (8 C/Resolution II-1.1).
7. It should however be noted that this amendment in no way altered the specific character of the Executive Board, whose members were not states but persons designated by name.
8. The 1968 amendment introduced a new method of election of members of the Executive Board by the General Conference and modified the duration of their term of office (15 C/Resolution 11.1) from four to six years.
 - 8.1 In order to correct an imbalance in the distribution of seats on the Board, which increased with each session of the General Conference, the General Conference, on the proposal of the Board, adopted a system of electoral groups, which was established for the sole purpose of electing the members of the Board. Member States were thus divided into five groups, in accordance with criteria that are not solely geographical. This new system gives each group a certain number of seats,¹ which is readjusted by the General Conference whenever it decides to modify the total number of seats on the Executive Board.
 - 8.2 In addition, in order to speed up the rotation of seats among nationals of the different Member States, the General Conference decided at the same time that the term of office of the members of the Board would from then onwards be of six years and would not be renewable, whereas previously, since 1952, members had been elected for a four-year term and were re-eligible for a second term.

1. See the procedure for the election of members of the Executive Board in the *Manual of the General Conference*.

9. The effect of the 1972 *amendment* was to reduce the term of office from six to four years (without immediate re-eligibility) (17 C/Resolution 13.2), as the General Conference considered that this reduction ‘would speed up considerably the rotation cycle and offer the opportunity to a greater number of Member States to participate in the activities of the Executive Board’.
10. The 1976 *amendment* resulted in a change to Article V.A.4 of the Constitution, relating to the procedure for replacing members of the Board during their term of office, by the addition of a clause on the application of this procedure in exceptional circumstances that, in the opinion of the represented state, made it indispensable for its representative to be replaced even if that representative did not tender his/her resignation (19 C/Resolution 17.2).
11. The 1991 *amendment* modified Article V of the Constitution, with respect to the status of members of the Board, with effect from the 27th session of the General Conference (1993) consists of Member States rather than of persons (26 C/Resolution 19.3).
- 11.1 The Executive Board now consists of states. The General Conference decided that each State Member would appoint one representative who, bearing in mind the importance of continuity, would be appointed for the duration of the term of the elected Member State, unless exceptional circumstances warrant his/her replacement.
- 11.2 Each State Member of the Executive Board may also appoint alternates, who shall act in the absence of its representative in all his/her functions.
12. The term of office is four years. State Members are eligible for re-election. Re-elected Member States shall endeavour to change their representatives on the Executive Board. State Members of the Executive Board are hereinafter referred to as ‘Members’ of the Executive Board.

Chairperson and Vice-Chairpersons

13. ‘At the opening of the session of the Board following each ordinary session of the General Conference, the Board shall elect, from among the representatives of the Member States, a Chairperson. The Board shall also elect six Vice-Chairpersons from among its Members. These are now states and not persons. The Chairperson ... shall be ex officio a member of all organs of the Board’ (Rules 10 and 18 of the Rules of Procedure of the Board).
14. The general powers of the Chairperson are defined in Rule 13 of the Rules of Procedure of the Board. In the absence of the Chairperson during a session, his/her functions are exercised in turn by the Vice-Chairpersons (Rule 5).

Privileges and immunities of the Members of the Board

– in France

15. By the terms of the agreement between UNESCO and the Government of the French Republic which was signed on 2 July 1954 and came into force on 23 November 1955, representatives of Members of the Executive Board and their alternates enjoy, during their stay in France on official duty, such facilities, privileges and immunities as are accorded to diplomats of equal rank belonging to foreign diplomatic missions accredited to the Government of the French Republic. These facilities, privileges and immunities extend to the spouses and children under 21 of representatives and their alternates. Only the Chairperson of the Executive Board is classed as the head of a diplomatic mission (Article 18).

– in other Member States

16. On the territory of those Member States that have undertaken to apply to UNESCO the provisions of the Convention on the Privileges and Immunities of the Specialized Agencies representatives, and their alternates benefit – in accordance with Annex IV of that Convention – from the provisions of Article V and of Article VII, section 25, paragraph 2(i) of the said Convention.

Travel expenses of the Members of the Board

17. In its 194th session, the Executive Board adopted Decision 4 Part II (C) below:

11. Decides to:
 - (a) suspend the budget allocated to the holding of thematic debates by the Executive Board;

- (e) encourage Member States to continue to contribute voluntarily to the cost of interpretation and translation in the context of Rule 21 of the Rules of Procedure of the Executive Board.

Precedence

18. The report of the Ad Hoc Committee of the Executive Board (47 EX/2), approved by the Board at its 47th session (47 EX/Decision 4.1), recommended that the precedence of the members of the Board should be as follows:
1. the Chairperson
 2. the Vice-Chairpersons (in alphabetical order)
 3. the other Members of the Board (in alphabetical order).

Participation by the Director-General

19. In accordance with rule 19 of the Rules of Procedure of the Board, the Director-General or his/her representative shall participate, without the right to vote, in all meetings of the Executive Board, its organs and its Bureau. He may formulate proposals for appropriate action by the Board and make either oral or written statements concerning any question under consideration.

- (i) Article III of the Agreement between the United Nations and UNESCO stipulates that 'subject to such preliminary consultation as may be necessary, the United Nations Educational, Scientific and Cultural Organization shall include in the agenda of the General Conference or Executive Board items proposed to it by the United Nations';

- (v) similar provisions are found in a few of the agreements made with intergovernmental organizations outside the United Nations system.

III. STRUCTURE

Subsidiary bodies

23. Rules 16 and 17 of the Rules of Procedure of the Executive Board govern the establishment of its commissions and committees.

At present there are *five permanent subsidiary bodies*:

- (a) the Programme and External Relations Commission (PX);
- (b) the Finance and Administrative Commission (FA);
- (c) the Special Committee (SP);¹
- (d) the Committee on Conventions and Recommendations (CR);²
- (e) the Committee on Non-Governmental Partners (NGP).³

Commissions

24. All Members of the Board are automatically members of both commissions (70 EX/Decision 3). The commissions meet simultaneously during the sessions of the Board, and representatives may naturally arrange to be represented by alternates, as at meetings of the Board. No summary records of meetings of the commissions are prepared, and, provided that all Members actually present agree, the deliberations of the commissions are valid even if there is no quorum (Rule 27 of the Rules of Procedure).
25. The terms of reference of the commissions are to ‘examine and report to the Executive Board on all questions referred to them by the Executive Board, or if necessary by its Chairperson, and ... exercise such other responsibilities as may be entrusted to them by the Board’ (Rule 16 (4)).
26. At its first plenary meeting the Executive Board decides on the items to be referred to the commissions, and when adopting the timetable for the session it determines the time to be allotted to them.
27. The Board divides items between its commissions in accordance with the responsibilities implicit in the commissions’ respective titles. The Programme and External Relations Commission generally considers an extremely varied range of questions. The Finance and Administrative Commission, by contrast, generally has to deal with questions of a technical nature that reappear fairly regularly on its agenda.

1. See Part B below.

2. See Part C below.

3. See Part D below.

Committees

28. In addition to the Special Committee, the Committee on Conventions and Recommendations and the Committee on Non-Governmental Partners, which are permanent subsidiary bodies with restricted membership, the Board may, under Rule 17 of its Rules of Procedure, establish temporary committees.
29. The Board lays down the specific terms of reference and number of members of its committees for each biennium. However, under Rule 30(5) of the Rules of Procedure, ‘any member of the Board may take part in the work of subsidiary bodies to which it does not belong. In such cases, and in the absence of any contrary decision by the Board it shall not have the right to vote’. The meetings of the NGP and CR Committees are usually held immediately before each session, in accordance with a timetable drawn up periodically by the Board. The SP Committee should meet only as needed and for the time necessary to fulfill the duties required of it by the Executive Board (183 EX/Decision 11).

Working and drafting groups

30. The Board has frequently established temporary working groups and drafting groups to consider specific questions.
31. Small groups, established on the basis of equitable geographical and cultural distribution, have, among other things, prepared the draft comments of the Board on the *C/4* and *C/5* documents; studied the procedures to be followed for examining communications relating to cases and questions concerning the exercise of human rights in UNESCO’s fields of competence; formulated recommendations on the programming and governance of the Organization (Task Force on UNESCO in the Twenty-First Century); and drawn up draft resolutions on complex questions.

Bureau of the Board

32. Rule 14 of the Rules of Procedure states that ‘to assist him in the exercise of his/her functions the Chairperson may convoke, in connection with sessions of the Board and, in case of necessity, between sessions, the Vice-Chairpersons and the Chairperson of the permanent Commissions and Committees who shall constitute, with him, the Bureau of the Board’.
33. The election of the Bureau takes place at the brief session of the Board held after each ordinary session of the General Conference; the relevant provisions of the Rules of Procedure are contained in Rules 10, 16, 54, 55 and 56.

34. At the 103rd session, under item 3.2.1, 'Working methods of the Executive Board', the Board formulated a number of recommendations designed to enable it to perform its many functions with greater efficiency. These recommendations included the following definition of the role *of the Bureau*:

(...)

'The part played by the Bureau of the Board in the preparations for each session should be enhanced. While the Bureau does not, of course, have any decision-making power, it can facilitate the Board's discussions, particularly by indicating in advance specific questions for discussion under each item of the agenda.

- (a) For this purpose, the Bureau could be convened a few days before each session.
- (b) The most important task falling to it is to ensure a more balanced distribution of agenda items among the different sessions and to organize the work of its sessions in such a way as to ensure that examination of the problems relating to the preparation, implementation and evaluation of the Programme and Budget and the Medium-Term Plan takes a central place and is consequently given high priority. The Board must have the necessary time for this examination.
- (c) Questions relating to invitations to conferences and the conclusion of agreements with international organizations or other matters which do not appear to require debate should be studied by the Bureau, which would transmit to the Board suggestions as to the required decision. Any member could at that time request a discussion of any item for which the Bureau had suggested adoption of decisions without discussion.
- (d) At the end of each session the Chairperson should, after consulting the Bureau, submit to the Board a provisional list of the matters which the Board would probably have to discuss at its next session, taking care to ensure, as far as possible, that the same subjects are not dealt with several times under different items of the agenda' (103 EX/Decision 3.2.1).

In pursuance of this decision, the Bureau now meets before the opening of each session.

35. The Director-General or his/her representative participates in all the meetings of the organs of the Board and of its Bureau (see paragraph 19).

IV. FREQUENCY OF SESSIONS

36. In accordance with the provisions of Article V.B.9 of the Constitution, 'The Executive Board shall meet in regular session at least four times during a biennium'. It also holds a brief session after the end of each ordinary session of the General Conference. In order for the Board to perform its monitoring functions, information meetings are also held with the Director-General on the progress of programme implementation and are open to all Member States of the Organization (155 EX/Decision 5.4 and 169 EX/Decision 4.2). Thematic debates, led by internationally renowned figures on themes of particular relevance to UNESCO's programme priorities and major forthcoming items on the Board's agenda are also organized (182 EX/Decision 27).
37. At its 103rd session (103 EX/Decision 3.2.1 – role of the Bureau) the Board emphasized the importance it attached to a more balanced distribution of items among the different sessions and to the organization of the work of its sessions in such a way as to ensure that examination of the problems relating to the preparation, implementation and evaluation of the Programme and Budget and the Medium-Term Plan takes a central place and is consequently given high priority. It added that: 'the Board must have the necessary time for this examination'.
38. Since the 1990-1991 biennium the length of the Board's sessions was significantly reduced, despite the fact that the number of items on its agenda has grown.
39. As stated in paragraphs 32 and 35 above, after the close of each ordinary session of the General Conference the Board holds a brief session, the main purpose of which is to elect the members of its Bureau. It sets up its commissions and committees and defines the composition and terms of reference of the latter.
40. The *spring session in the first year* of the biennium (April-May) usually lasts approximately two to three weeks. At this session the Board, on the basis of the reports submitted to it by the Director-General, adopts the decisions required to implement the resolutions of the General Conference that relate both to the programme and to other matters concerning the functioning of the Organization during the two-year period.
41. At the *autumn session* (September-October) *in the same year*, which lasts approximately two to three weeks, the Board examines the Director-General's preliminary proposals relating to the Draft Programme and Budget (C/5) for the next biennium.
42. At that session it also examines the auditors' reports on the accounts of UNESCO for the previous biennium.

43. The *spring session in the second year*, which lasts about two to three weeks, is by far the fullest since its agenda includes examination of the Draft Programme and Budget (C/5) and, normally every six years, the Draft Medium-Term Strategy (C/4), formerly known as the Draft Medium-Term Plan.
44. These documents are generally examined in plenary meeting, where general policy questions are discussed on the basis of the Director-General's written or oral introductions. However, the Finance and Administrative Commission has to consider the administrative and budgetary aspects of some of the measures proposed in the C/5 document, and the Programme and External Relations Commission may on occasion have to consider certain questions relating to the programme. In any case, the reports of the commissions are transmitted to the plenary meeting of the Board, which, with the assistance of working or drafting groups, prepares its observations and recommendations concerning the C/4 and C/5 documents for the General Conference.
45. At that session the Board prepares the agenda and the plan for the organization of the work of the session of the General Conference and makes all the necessary arrangements for that session. It also formulates recommendations on nominations for the posts of Chairperson of the Commissions and Committees of the General Conference.
46. As regards the *autumn session* in the years in which the General Conference meets, the Board usually meets approximately two weeks before the opening of the Conference and remains at the disposal of the Conference.
47. At that session the Board adopts its final recommendations to the General Conference on the subject of the proposed budget and examines a number of reports which the Director-General has submitted to the General Conference and on which the Conference has invited the Board to express its opinions and to make recommendations. It also formulates recommendations on nominations for the posts of President and Vice-Presidents of the General Conference.
48. In addition, at each session, in accordance with recommendations made by the Board at its 103rd and 145th sessions (103 EX/Decision 3.2.1 and 145 EX/Decision 5.1(I)), the Director-General submits a report on the execution of the programme adopted by the General Conference and on events of concern to the Organization since the preceding session, a specific item being included in the agenda for this purpose.
49. At its 192nd session, the Executive Board decided that "the Special Committee (SP) and the Committee on Non-Governmental Partners (NGP) to meet only once a year, as appropriate". It also decided to hold "shorter Executive Board sessions (the first and the fourth in each biennium) and longer sessions (the second and third in each biennium)" (192 EX/16 (VII)).

50. At its 197th session, the Executive Board requested “the Chair of the Executive Board, in consultation with the Director-General, to make the necessary practical arrangements and organize on a trial basis, during the 2016-2017 biennium, and without amending the Rules of Procedure, meetings of the Executive Board Members, in principle six times per year; such meetings will be open to States Members of the Executive Board, to Member States non-Member of the Executive Board as observers with enhanced participation status, and to the Secretariat.” (197 EX/Decision 28 and 44 (10))

Private meetings

51. The Board has to deal with the following questions in private meetings:
- nominations for the post of Director-General;
 - appointments to the Secretariat: the Director-General informs the Members of the Executive Board with regard to certain appointments, promotions or renewals of contract;
 - any other matters the Board may decide to examine in private meeting. (A particular case in point is the report of the Committee on Conventions and Recommendations concerning communications to UNESCO relating to human rights in the Organization’s fields of competence.)

V. DOCUMENTATION

52. Executive Board documents fall into the following categories:
1. documents in the *main series* are published in the six working languages of the Executive Board (Arabic, Chinese, English, French, Russian and Spanish) and bear a reference code consisting of the number for the session, the abbreviation EX and the serial number of the document. The agenda is numbered 1 in this series (for example, for the 195th session of the Board, 195 EX/1). It should be noted that all the reports of subsidiary bodies (commissions and committees) are issued in the main series; since the 132nd session (1989) these reports, with the exception of the CR Committee, contain only draft decisions (131 EX/Decision 9.5);
 2. the *decisions* of the Board, which are published in the month following the session, under the reference code EX/Decisions (for example, the decisions of the 195th session bear the reference code 195 EX/Decisions). The order of items in this document corresponds to that of the agenda. When a question has been examined in a commission or a committee the reference code of that body's report is given after the title of the corresponding item. The summary records of the meeting at which the decision on the item in question was adopted is indicated below each decision;
 3. a number of *information documents*, which do not call for any action on the part of the Board, are issued under the reference code EX/INF and are published in English and French only. This code is used, for instance, for the timetable of work of the session and the preliminary draft agenda for the following session. It is also used for information documents intended for subsidiary bodies, the appropriate abbreviation being inserted (for example, EX/PX/INF for the Programme and External Relations Commission, EX/FA/INF for the Finance and Administrative Commission, EX/SP/INF for the Special Committee);
 4. *draft decisions* submitted by Members of the Board are issued under the reference code EX/PLEN/DR... when they are submitted in plenary meeting, and EX/PX/DR... or EX/FA/DR... when they are submitted in a commission; in the case of committees, the appropriate abbreviation is inserted;
 5. the *summary records* (issued only for plenary meetings) are prepared in the six working languages of the Board. A summary of speeches made in Arabic, Chinese, Russian or Spanish is published in the original language, followed by a translation into English or French. These summary records are published in provisional form under the reference code EX/SR... and are distributed to Members as they are published, for amendment if necessary. They are then issued in a single document that forms the definitive version of the summary records for the session.

B.

SPECIAL COMMITTEE

I. BACKGROUND AND TERMS OF REFERENCE

1. Several times in the past, particularly from 1956 onwards, the Executive Board on its own initiative or at the request of the General Conference turned its attention to the questions of its responsibilities and its methods of work or those of the two other organs of UNESCO, the General Conference and the Secretariat. On those occasions the Board considered it desirable to instruct a subsidiary body to carry out an initial study on these questions and to draft reports that would provide it with a basis for discussion.
2. The *Ad Hoc Committee* was first set up in 1956 and completed its work the following year, at the time of the 48th session of the Executive Board.
3. At the time of the 57th session, following the meeting of the Bureau on 19 and 20 September 1960, the Chairperson of the Executive Board sent a letter to members on 27 September 1960 suggesting that the Board make a general study of the relations between the main organs of UNESCO: the General Conference, the Executive Board and the Secretariat.
4. The Board, having examined that letter (57 EX/23) and a draft resolution submitted by the Chairperson, adopted 57 EX/Decision 12.2 for transmission to the 58th session relating to the '*Examination by the Executive Board of the constitutional responsibilities of the Organization and the relationships of the General Conference, the Executive Board and the Secretariat (57 EX/23) and decided to establish a working party to consider this question and other related matters taking such practical measures as may be necessary so as to enable the Executive Board to submit definite recommendations for the approval of the General Conference at its 12th session*' (57 EX/SR.13, 18).
5. At its 58th session (December 1960) the Executive Board, on the basis of the above-mentioned decision, decided to set up an *Ad Hoc Working Party* to examine the constitutional responsibilities of the Organization and the relations between the General Conference, the Executive Board and the Secretariat (58 EX/Decision 5).
6. A committee established by the Board in 1960 has been in continuous existence ever since, although under various names (*Ad Hoc Working Party, Special Committee on the Methods of Work of the Organization, Special Committee, etc.*).

7. Until 1966 this Committee was responsible mainly for reviewing the operation and methods of work of the organs of UNESCO and proposing improvements that would enable them to perform their tasks and fulfil their responsibilities more effectively. It also carried out preliminary studies to enable the Board to submit recommendations to the General Conference on related subjects, such as elections to the Executive Board.
8. However it was in 1967 that the *Ad Hoc* Committee, in view of the increasingly heavy and complex work-load of the Board – a work-load that, clearly, was bound to increase in the future – reached the conclusion that it was becoming indispensable for the Board to contemplate certain changes in its methods of work, and that these changes of method should include measures to delegate certain preparatory tasks, though not responsibilities (77 EX/*Ad Hoc* 17 and 77 EX/2, Annex I, paragraphs 68 to 70).
9. The general view of the Committee members was that in order to lighten the work-load of the Board it was not enough to delegate tasks to the permanent commissions, and the main idea to emerge was that, on an experimental basis, a relatively small subsidiary body should be set up, comprising between 12 and 15 members (77 EX/2, paragraphs 44 to 54).
10. On the basis of the Committee's report (77 EX/2) the Board decided at its 77th session (October-November 1967) to form, on an experimental basis, a Special Committee, with the following terms of reference (77 EX/Decision 3.1, III, 6(b), 7 and 8):

 “6 (b)...
 - (i) to study, in depth, the important matters regarding the execution of the programme arising out of the Director-General's periodical reports and other similar relevant reports relating to past activities, in particular, inspection reports emanating from UNESCO or from the United Nations to the extent that they affect UNESCO, evaluation reports, final reports on UNDP projects carried out by UNESCO, reports on decisions taken within the United Nations system affecting the execution of UNESCO's programme but which do not call for early action by the Board, it being understood that the results of the Board's intensified examination of the execution of the programme made possible by this preparatory study should be conveyed to the General Conference within the framework of the Board's comments on the Director-General's reports, which the Chairperson of the Executive Board presents to the General Conference;
 - (ii) to carry out such studies regarding the methods of work of the Organization as have hitherto been carried out by the Special Committee (*Ad Hoc* Committee) and that may arise in the future;
 - (iii) to undertake preparatory work on the arrangements for sessions of the General Conference; and
 - (iv) to report to the Executive Board on its work as set forth above;
7. *Decides* that the new Special Committee thus established will have the same membership as the Special Committee to study the Methods of Work of the Organization (*Ad Hoc* Committee)¹ set up at its 75th session;

1. 13 members.

8. *Decides* further to assign to the Committee, for 1968, the terms of reference defined in paragraph 6(b) (ii) and (iii) of this resolution, on the understanding that the Committee as constituted by the Board in 1969-1970 would, as from 1969, assume all the functions mentioned in paragraph 6 (b)'.
 11. As will be seen these terms of reference included various major innovations in the methods of work of the Board, among them the in-depth study of the Director-General's annual report on the activities of the Organization and the examination of inspection reports emanating from UNESCO or from the United Nations.
 12. The various studies undertaken by the earlier committees certainly produced results, and the action taken or recommended in consequence by the Board has demonstrated the usefulness of their work.
 13. However, it may be considered that the establishment of the Special Committee, an organ for deliberation and study, as it exists today, dates from the 77th session (October-November 1967).
 14. The General Conference, at its 15th session, accepted the proposals put forward by the *Ad Hoc* Committee and approved by the Board at its 77th session (15 C/Resolution 33.3), and the Executive Board, at its 81st session, also taking account of 77 EX/Decision 3.1 III, set up a Special Committee of 16 members (81 EX/Decision 6.1). At its 82nd session (82 EX/Decision 3.1) it approved the terms of reference of that Committee.
 15. Since then, the Special Committee has been constituted, at the same time as the other subsidiary organs of the Board, at the first session of the Board held after the close of the General Conference. Finally, at the 96th session of the Board (November 1974) the Special Committee became a permanent committee of the Board, and its Chairperson became a member of the Bureau of the Board (96 EX/Decision 4 – Amendments to the Rules of Procedure of the Board).
 16. At its 123rd session (November 1985), the Executive Board decided that the Special Committee shall be composed of 18 members, three from each electoral group and shall continue to meet immediately before each regular session of the Executive Board (123 EX/Decision 7.1).
 17. The Board, at its 173rd session (October 2005), having established its Special Committee, decided that the Committee should meet only as needed and for the time necessary to fulfil the duties required of it by the Executive Board (173 EX/Decision 1.1).
 18. The Board at its 178th session (November 2007), having established its Special Committee decided to authorize the Chairperson of the Executive Board, in consultation with the Chairperson of the Special Committee, to identify future items that fall within the Special Committee's terms of reference, for examination at future sessions.

19. The Board at its 183rd session (November 2009), having established its Special Committee, decided in the light of Recommendation R.19(i) of 33 C/Resolution 92 concerning the report by the ad hoc working group on relations between the three organs of UNESCO and which had been appropriately implemented (179 EX/Decision 18 and 35 C/Resolution 100), that the Special Committee should continue to meet only as needed and for the time necessary to fulfil the duties required of it by the Executive Board.

At its 188th session (November 2011), the Executive Board, having established its Special Committee, gave it the following terms of reference (188 EX/Decision 10):

‘The Executive Board,

1. *Recalling* its previous decisions concerning the terms of reference of the Special Committee,
2. *Decides* that:
 - (a) the Special Committee shall comprise 18 members, that is to say three for each electoral group;
 - (b) in the light of recommendation R.19(i) of 33 C/Resolution 92 concerning relations between the three organs of UNESCO, which was approved by the General Conference at its 33rd session and which has been appropriately implemented (179 EX/Decision 18 and 35 C/Resolution 100), the Special Committee (SP) should continue to meet only as needed and for the time necessary to fulfil the duties required of it by the Executive Board;
 - (c) in the light of 174 EX/Decision 20, the Chair of the Executive Board is authorized, in consultation with the Chair of the Special Committee, to identify future items that fall within the Special Committee’s terms of reference, for examination at future sessions;
3. *Also decides* to refer to the Special Committee for consideration and the preparation of reports thereon:
 - (a) questions pertaining to the functioning of the Secretariat, in particular, those pertaining to evaluation, internal control, oversight and accountability systems and mechanisms;
 - (b) relations with the United Nations Joint Inspection Unit (JIU), and reports prepared by the Joint Inspection Unit that are not referred to the commissions of the Executive Board;
 - (c) methods of work of the General Conference and the Executive Board, including those of their commissions and committees;
 - (d) any other questions that the Executive Board may refer to it.”

20. At its 193rd session (November 2013), the Executive Board, having established its Special Committee, gave it the following terms of reference (193 EX/Decision 7):

‘The Executive Board,

1. *Recalling* its previous decisions concerning the terms of reference of the Special Committee,
2. *Decides* that:
 - (a) the Special Committee shall comprise 18 members, that is to say three for each electoral group;
 - (b) in the light of 192 EX/Decision 16 (VII) , the Special Committee will meet once a year as appropriate;

3. *Also decides* to refer to the Special Committee for consideration and the preparation of reports thereon:
 - (a) questions pertaining to the functioning of the Secretariat, in particular, those pertaining to evaluation, internal control, oversight and accountability systems and mechanisms;
 - (b) relations with the United Nations Joint Inspection Unit (JIU), and reports prepared by the Joint Inspection Unit that are not referred to the commissions of the Executive Board;
 - (c) methods of work of the General Conference and the Executive Board, including those of their commissions and committees;
 - (d) any other questions that the executive Board may refer to it.’

21. At its 198th session (November 2015), the Executive Board, having established its Special Committee, gave it the following terms of reference (198 EX/Decision 6 (I)

“The Executive Board,
 1. Recalling its previous decisions concerning the terms of reference of the Special Committee,
 2. Decides that:
 - (a) the Special Committee shall comprise 18 members, that is to say three for each electoral group;
 - (b) in the light of 192 EX/Decision 16 (VII), the Special Committee will meet once a year as appropriate;
 3. Also decides to refer to the Special Committee for consideration and the preparation of reports thereon:
 - (a) questions pertaining to the functioning of the Secretariat, in particular, those pertaining to evaluation, internal control, oversight and accountability systems and mechanisms;
 - (b) relations with the United Nations Joint Inspection Unit (JIU), and reports prepared by the Joint Inspection Unit that are not referred to the commissions of the Executive Board;
 - (c) methods of work of the General Conference and the Executive Board, including those of their commissions and committees;
 - (d) any other questions that the Executive Board may refer to it.”

C.

COMMITTEE ON CONVENTIONS AND RECOMMENDATIONS

I. BACKGROUND AND TERMS OF REFERENCE

1. It was in 1965, at its 70th session, that the Executive Board, 'having noted resolution 16.1, adopted by the General Conference at its 13th session, on the plan prepared by the Director-General concerning the submission of periodic reports by Member States on their implementation of the Convention and Recommendation against Discrimination in Education' decided that 'the reports submitted by governments shall be examined by a special committee of the Executive Board ...' (70 EX/Decision 5.2.1).
2. At its 71st session the Board decided, in order to implement the above-mentioned decision, to set up 'a Special Committee ... to examine the reports of Member States on the implementation of the Convention and Recommendation against Discrimination in Education' (71 EX/Decision 3.2).
3. This Committee was set up anew by the Board at its 75th session, as the 'Special Committee on Discrimination in Education' (75 EX/Decision 6.II).
4. At its 77th session, under item 8.3 of its agenda, entitled 'Procedure for handling communications on individual cases involving human rights in education, science and culture', the Board, having decided on the procedure to be followed, requested 'the Director-General, in accordance with the said procedure, to bring the communications in question to the notice of the Special Committee on Discrimination in Education' and decided 'to extend the terms of reference of the Committee for this purpose' (77 EX/Decision 8.3).
5. The General Conference, at its 15th session (1968), invited the Board: firstly, 'to extend the term of office of its Special Committee on Discrimination' (15 C/Resolution 29.1) and, secondly, 'to make appropriate arrangements for reports by Member States on the implementation of conventions or recommendations to be examined by a subsidiary organ of the Board, such as the Present Special Committee on Discrimination in Education ...' (15 C/Resolution 12.2).
6. The Executive Board, at its 81st session, taking account of the above-mentioned 15 C/Resolution 29.1, again set up its Committee (81 EX/Decision 6.II).

7. At its 82nd session, under item 4.2.4 ‘Implementation of the Recommendation concerning the Status of Teachers’, the Board, being of the opinion that its Committee on Discrimination in Education could be given the task of examining the report of the Joint ILO/UNESCO Committee of Experts on the application of this Recommendation, decided, when entrusting it with this task, to change the name of the Committee to ‘Committee on Conventions and Recommendations in Education’ (82 EX/Decision 4.2.4).
8. The Committee was subsequently re-established without a break, at the same time as the other subsidiary organs of the Board, at the Board’s first session after the end of the General Conference. The various changes made to its terms of reference are dealt with in section II below.
9. It should be mentioned that at its 104th session the Board decided that the Committee would henceforth be designated ‘Committee on Conventions and Recommendations’ (hereinafter referred to as ‘CR’).
10. Finally, at the 122nd session, this Committee became a permanent Committee of the Board (see 122 EX/Decision 3.6 and 123 EX/Decision 4).
11. Details of this Committee (name, number of members and names of Chairpersons) will be found in Annex V.
12. At its 198th session (November 2015), the Executive Board, having established its Committee on Conventions and Recommendations, gave it the following terms of reference (198 EX/Decision 6 (II)):

‘The Executive Board,

1. *Recalling* 98 EX/Decision 9.6 (II), whereby it defined, in paragraph 12, the terms of reference of the Committee on Conventions and Recommendations in Education, namely:
 - (a) to examine periodic reports by Member States on their implementation of the Convention and Recommendation against Discrimination in Education;
 - (b) to examine communications addressed to UNESCO in connection with specific cases alleging a violation of human rights in education, science and culture;
 - (c) to examine the report of the Joint ILO/UNESCO Committee of Experts on the Application of the Recommendation concerning the Status of Teachers,¹
2. *Also recalling* 104 EX/Decision 3.3, whereby it decided that the Committee would thenceforth be designated the “Committee on Conventions and Recommendations” and established the conditions and procedures for consideration of communications received by the Organization concerning cases and questions of violations of human rights within UNESCO’s fields of competence,
3. *Renews* the terms of reference mentioned above, and decides that the Committee will also consider all questions entrusted to the Executive Board concerning the implementation of UNESCO’s standard-setting instruments, in accordance with Article 18.1 of the Rules of Procedure concerning recommendations to Member States and international conventions covered by the terms of Article IV,

1. Now the Joint ILO-UNESCO Committee of Experts on the Application of the Recommendations concerning Teaching Personnel (CEART).

paragraph 4, of the Constitution, ensuring in particular the monitoring of the conventions and recommendations referred to, respectively, in the Annex to 177 EX/Decision 35 (II) as amended by 196 EX/Decision 20 and in 34 C/Resolution 87.”

13. The Committee is thus entrusted with two tasks:
 - (i) to consider all questions relating to the implementation of UNESCO’s standard-setting instruments that are entrusted to the Executive Board by the General Conference, including Member States’ reports on the implementation of Conventions and Recommendations, with the exception of standard-setting instruments that provide for a specific monitoring mechanism;
 - (ii) to examine communications relating to cases and questions concerning the exercise of human rights in UNESCO’s fields of competence.

Implementation of UNESCO’s standard-setting instruments

14. The Committee’s competence in this sphere dates back to the 15th session (1968) of the General Conference, which decided (15 C/Resolution 12.2) to entrust the examination of the implementation of conventions or recommendations to a subsidiary organ of the Executive Board. The Committee’s terms of reference, however, covered only the examination of those reports expressly entrusted to it. For instance, at its 71st session (1965) the Executive Board required the Committee to examine periodic reports relating to the implementation of the Convention and Recommendation on Discrimination in Education; at its 82nd session (1969) the report of the Joint ILO/UNESCO Committee of Experts on the Application of the Recommendation concerning the Status of Teachers; at its 105th session (1978) reports on the implementation of the Convention and Recommendation on the Means of Prohibiting and Preventing the Illicit Export, Import and Transfer of Ownership of Cultural Property. It should be noted, in this connection, that only *periodic* reports were submitted to the Committee for examination, the initial special reports Member States were required to submit at the first ordinary session of the General Conference following the adoption of the Convention or Recommendation in question being examined by the Legal Committee of the General Conference. At its 32nd session, the General Conference, by 32 C/Resolution 77, decided that henceforth it would entrust to the Executive Board, and in particular to the Committee on Conventions and Recommendations, the examination of the reports that it requested from Member States on conventions and recommendations. Accordingly, the distinction between periodic reports and special reports no longer exists. The reports adopted by the Committee following its examination will be submitted to the General Conference with the reports of Member States or (if so decided by the General Conference) the analytical summaries thereof, together with the Executive Board’s comments. With a view to strengthening the first aspect of the Committee’s terms of reference, the Executive Board at its 177th session (2007), adopted a specific multi-stage procedure for the monitoring of the implementation of UNESCO conventions and recommendations for which no specific institutional mechanism is provided (177 EX/Decision 35 (I)). At the very same session, the Board also adopted framework guidelines for the preparation of reports on the implementation of conventions for whose monitoring the CR Committee is responsible (177 EX/Decision 35 (II)). Amended at

the 196th session of the Executive Board (196 EX/Decision 20), this procedure (see Annex I) and framework guidelines apply to the following two conventions and 14 recommendations:

- Convention against Discrimination in Education (Paris, 14 December 1960)
- Convention on Technical and Vocational Education (Paris, 10 November 1989)
- Recommendation against Discrimination in Education (14 December 1960)
- Recommendation concerning the Status of Teachers (5 October 1966)
- Recommendation concerning Education for International Understanding, Cooperation and Peace and Education relating to Human Rights and Fundamental Freedoms (19 November 1974)
- Recommendation on the Status of Scientific Researchers (20 November 1974)
- Revised Recommendation concerning the International Standardization of Educational Statistics (27 November 1978)
- Recommendation concerning the Status of the Artist (27 October 1980)
- Recommendation on the Recognition of Studies and Qualifications in Higher Education (13 November 1993)
- Recommendation concerning the Status of Higher-Education Teaching Personnel (11 November 1997)
- Recommendation concerning the Promotion and Use of Multilingualism and Universal Access to Cyberspace (15 October 2003)
- Recommendation on the Historic Urban Landscape, including a glossary of definitions (10 November 2011)
- Recommendation on Adult Learning and Education (13 November 2015)
- Recommendation concerning Technical and Vocational Education and Training (13 November 2015)
- Recommendation concerning the Preservation of, and Access to Documentary Heritage, including in Digital Form (17 November 2015)
- Recommendation on the Protection and Promotion of Museums and Collections, their Diversity and their Role in Society (17 November 2015)

Communications relating to cases and questions concerning the exercise of human rights in UNESCO's fields of competence

15. The procedure followed by UNESCO in the examination of communications relating to cases and questions concerning the exercise of human rights in its spheres of competence is laid down in 104 EX/Decision 3.3 (see Annex II). This procedure replaces that laid down in 77 EX/Decision 8.3.
16. Under this procedure, any communication received by the Director-General and appearing, at first sight, to be covered by the provisions of 104 EX/Decision 3.3 is treated in the following manner:
 - (a) it is given a serial number, by which it is referred to throughout the procedure;
 - (b) an action form is prepared for each communication;

- (c) as soon as possible after receipt of the communication, the Director of the Office of International Standards and Legal Affairs sends a letter to its author (see Annex III) informing him/her of the procedure laid down in 104 EX/Decision 3.3, drawing his/her attention to the conditions governing admissibility listed in paragraph 14(a) of that decision and asking him to fill in a form (see Annex IV). At the end of this form the author is asked to sign a declaration agreeing to the examination of his/her communication in accordance with 104 EX/Decision 3.3;
- (d) as soon as possible after receipt of an affirmative answer from the author of the communication, a letter is sent by the Director-General to the government concerned, with a copy of the communication, informing it that any reply it may wish to make will be brought to the notice of the Committee and that a representative of the government concerned may attend meetings of the Committee in order to provide additional information or answer questions asked by members of the Committee on either the admissibility or the merits of the communication.
17. After allowing a reasonable time (three months) for the government to reply – further examination of the communication, however, not being conditional upon the receipt of such a reply – the Secretariat transmits to the members of the Committee the texts of the communications that have been dealt with as described above, together with a summary of the facts and information concerning the replies given by the government.
18. In accordance with paragraph 14(c) of 104 EX/Decision 3.3, the Committee meets in private session to examine the communications transmitted to it by the Director-General. Members of the Board who are not members of the Committee shall refrain from attending the Committee's meetings when it is considering communications, in accordance with paragraph 14(c) of 104 EX/Decision 3.3. Members of the Board not members of the Committee who may exceptionally wish to have observer status shall submit their request in writing to the Chairperson of the Committee who will ask the Committee to consider it. In the exceptional case when an observer is thus admitted to one of its meetings, such observer shall not be present for the private discussions leading to a decision on a communication and for the adoption of the decisions
19. The first task of the Committee is to determine whether the conditions governing admissibility set out in paragraph 14(a) are met. If the information furnished by the author of the communication is not such that the Committee can reach a decision on this point, it may ask the representative of the government concerned to supply further details and invite him/her to answer questions asked by members of the Committee on the admissibility or merits of the communication; the Committee may also draw on any relevant information at the disposal of the Director-General. Furthermore, by virtue of Article 30 of the Rules of Procedure, it may request the permission of the Executive Board to invite observers of Member States, non-Member States, intergovernmental or non-governmental international organizations and other qualified persons to address it on matters within their competence.

20. If the Committee considers that it needs further information before it can rule as to the admissibility of a communication it can keep the communication on its agenda with a view to obtaining such information.
21. Having declared a communication admissible, the Committee pursues its examination as far as possible, with a view to finding an amicable way of dealing with the matter so as to advance the promotion of human rights.
22. In this connection, attention should be drawn to the fact that paragraph 7 of 104 EX/Decision 3.3 reads:

‘Considering that, in matters concerning human rights within its fields of competence, UNESCO, basing its efforts on moral considerations and its specific competence, should act in a spirit of international cooperation, conciliation and mutual understanding, and recalling that UNESCO should not play the role of an international judicial body’.
23. It is the Committee’s responsibility to decide whether the affair in question is an individual and specific ‘case’ concerning violation of human rights or a ‘question’ of ‘massive, systematic or flagrant violations of human rights which result either from a policy contrary to human rights applied de jure or de facto by a State or from an accumulation of individual cases forming a consistent pattern’ (104 EX/Decision 3.3, paragraph 10). It should be noted that ‘cases’ are normally examined by the Executive Board in private meetings, whereas ‘questions’ may be examined by the Executive Board and the General Conference in public meeting (104 EX/Decision 3.3, paragraphs 14-18).
24. Having concluded its work, the Committee adopts a confidential report containing ‘appropriate information arising from its examination of the communications which the Committee considers it useful to bring to the notice of the Executive Board. The reports shall also contain recommendations which the Committee may wish to make either generally or regarding the disposition of a communication under consideration’ (104 EX/Decision 3.3, paragraph 15).
25. Document 199 EX/CR/2 contains a more detailed description of the procedures for the consideration of the reports of Member States on the application of the Organization’s standard-setting instruments as well as the procedures for the examination of communications concerning the exercise of human rights in UNESCO’s fields of competence, including the procedural practice and statistical information on the 104 EX/3.3 procedure. All of the information relating to the two aspects of the terms of reference of the Committee is also available at the following address: www.unesco.org/en/la/cr. All documents examined by the CR since 1999 as well as CR reports and related decisions by the Executive Board can therefore be consulted on the Internet under the section entitled “Documents concerning the CR Committee”.

Annex I

**Specific multi-stage procedure for the monitoring
of the implementation of UNESCO conventions and recommendations
for which no specific institutional mechanism is provided
(adopted by the Executive Board at its 177th session
and amended at its 196th session)**

Stage 1: Frequency of submission of reports on the monitoring of the implementation of UNESCO conventions and recommendations for which no specific institutional mechanism is provided

In accordance with the provisions of Article IV, paragraph 4, and Article VIII of the Constitution, reports shall be submitted every four years unless the General Conference, in the case of specific conventions or recommendations, decides otherwise.

In this respect, the Secretariat shall prepare, at the start of each biennium, a timetable for submission of Member States' reports on measures taken to implement the conventions and recommendations for the period under consideration, while drawing attention to the frequency and dates of submission to the UNESCO General Conference of monitoring reports on the implementation of these instruments.

Stage 2: Transmission of conventions and recommendations to Member States

Pursuant to the provisions of the Rules of Procedure concerning recommendations to Member States and international conventions covered by the terms of Article IV, paragraph 4, of the Constitution, while transmitting a certified copy of any convention or recommendation to Member States, the Director-General will formally remind them of their obligation to submit the convention or recommendation in question to their competent national authorities in accordance with Article IV, paragraph 4, of the Constitution, and will also draw their attention to the difference in the legal nature of conventions and recommendations.

The Secretariat will ensure that the standard-setting texts adopted by the General Conference are widely disseminated to Member States and the public.

Stage 3: Establishment of reports for monitoring the effective implementation of conventions and recommendations

(a) Consultations concerning conventions

The Secretariat shall submit to the Executive Board its proposals concerning the modalities of consultation of Member States on any measures they have respectively adopted pursuant to Article IV, paragraphs 4 and 6, and Article VIII of the Constitution. To this effect, it shall prepare draft guidelines for the preparation of reports based on the framework guidelines adopted by the Executive Board, to which the Secretariat will add, in view of the wide variety of UNESCO's standard-setting instruments, specific questions on which additional information is sought in the light either of the conclusions of the previous consultation or of the information available.

The Executive Board shall entrust the examination of these proposals to its Committee on Conventions and Recommendations (CR).

After the guidelines have been approved by the Executive Board, the Director-General will invite the Member States to submit their report on the action taken on the convention, within a period of six months. Each Member State must submit such a report pursuant to Article 17, paragraph 1, of the Rules of Procedure concerning recommendations to Member States and international conventions covered by the terms of Article IV, paragraph 4, of the Constitution.

(b) Collection of information concerning recommendations

The Secretariat will collect from Member States and National Commissions and from the various partners of the Organization such as non-governmental organizations (NGOs), information on the implementation of the recommendation in question.

This collection of information may be conducted on the basis of the model guidelines, and after consultation with the Committee on Conventions and Recommendations of the Executive Board.

(c) Preparation of reports

With regard to the conventions, the Member States that prepare reports, with the cooperation and support of the National Commissions, in accordance with the model guidelines approved by the Executive Board. Within the limit of available resources, the guidelines may be made accessible on the Internet to Member States to enable them to draw up and submit their report to the Secretariat by electronic means.

With regard to the recommendations, the Secretariat will prepare a report on their implementation by the Member States, on the basis of the information collected, in particular with regard to national legislation.

(d) Technical assistance provided by the Secretariat to Member States

In order to reduce their workload, the Secretariat, with the support of the field offices, will provide Member States, at their request or at the request of the General Conference, with technical assistance, which will focus

both on a better understanding of the objectives of the convention or recommendation in question and on practical procedures for the preparation of their reports, in particular, the collection of information and the drafting of the reports.

Stage 4: Consideration by the Executive Board of the reports for monitoring the effective implementation of conventions and recommendations

The Secretariat will submit to the Executive Board a summary of the reports received from Member States on the measures taken for the implementation of the conventions. The Executive Board may, if it so desires, ask the Secretariat to submit to it for consideration all the reports for each country.

With regard to recommendations, the Secretariat will submit its consolidated report on the implementation of these instruments, prepared on the basis of the information collected.

The documents prepared by the Secretariat will be examined by the Executive Board, which will entrust the task to the Committee on Conventions and Recommendations. The debates and work of the Executive Board and the CR Committee arising from their consideration of the reports will take place in public meetings.

The Executive Board will transmit these documents to the General Conference, together with its observations or comments and any that the Director-General may make, following their consideration by the Executive Board.

Stage 5: Decision of the General Conference concerning the reports for monitoring the effective implementation of conventions and recommendations

The General Conference may take, as necessary, a decision with regard to the summaries of reports concerning the implementation of the conventions and recommendations.

The Director-General shall regularly inform the General Conference and the Executive Board with respect to the implementation of the decisions taken by the General Conference.

104 EX/Decision 3.3 — *Study of the procedures which should be followed in the examination of cases and questions which might be submitted to UNESCO concerning the exercise of human rights in the spheres of its competence, in order to make its action more effective: Report of the Working Party of the Executive Board (104 EX/3)*

The Executive Board,

1. *Mindful* that the competence and role of UNESCO in the field of human rights derive primarily from Article I.1 of the Constitution of UNESCO, which states: ‘The purpose of the Organization is to contribute to peace and security by promoting collaboration among the nations through education, science and culture in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world, without distinction of race, sex, language or religion, by the Charter of the United Nations’, and from the Charter of the United Nations,
2. *Recalling* the Universal Declaration of Human Rights, the international covenants on human rights and the various conventions and recommendations adopted by UNESCO,
3. *Recalling* 19 C/Resolution 6.113 concerning UNESCO’s responsibilities in the field of human rights,
4. *Recalling also* 19 C/Resolution 12.1: ‘UNESCO’s contribution to peace and its tasks with respect to the promotion of human rights and the elimination of colonialism and racialism – long-term programme of measures whereby UNESCO can contribute to the strengthening of peace’; and in particular paragraph 10 of the resolution, which invites the Executive Board and the Director-General:

- (a) to examine with particular attention the general situation with regard to respect for human rights throughout the world in UNESCO's fields of competence,
 - (b) to study the procedures which should be followed in the examination of cases and questions which might be submitted to UNESCO concerning the exercise of human rights in the spheres to which its competence extends, in order to make its action more effective,
 - (c) to continue to establish, with a view to the implementation of subparagraphs (a) and (b), close cooperation and coordination with the relevant United Nations organs so as to take advantage of their work and the lessons that can be learned from them in this field',
5. *Having considered* the report of a working group of the Board set up by virtue of 102 EX/Decision 5.6.2 to carry out an in-depth study of document 102 EX/19, the analytical summary of discussions that took place at the 102nd session of the Board, and additional written comments provided by members of the Board,
6. *Mindful* of Article I.3 of the Constitution of UNESCO, which states: 'With a view to preserving the independence, integrity and fruitful diversity of the cultures and educational systems of the States members of the Organization, the Organization is prohibited from intervening in matters which are essentially within their domestic jurisdiction',
7. *Considering* that, in matters concerning human rights within its fields of competence, UNESCO, basing its efforts on moral considerations and its specific competence, should act in a spirit of international cooperation, conciliation and mutual understanding, and recalling that UNESCO should not play the role of an international judicial body,
8. *Recognizing* the important role of the Director-General, in:
 - (a) seeking continually to strengthen the action of UNESCO in the promotion of human rights, both through the settlement of cases and the elimination of massive, systematic or flagrant violations of human rights and fundamental freedoms, and
 - (b) initiating consultations, in conditions of mutual respect, confidence and confidentiality, to help reach solutions to particular problems concerning human rights,
9. *Invites* the Director-General to pursue this role;
10. *Considering* that, in the exercise of its competence in the field of human rights, UNESCO is called upon to examine:
 - (a) cases concerning violations of human rights which are individual and specific,
 - (b) questions of massive, systematic or flagrant violations of human rights which result either from a policy contrary to human rights applied de jure or de facto by a State or from an accumulation of individual cases forming a consistent pattern,

11. *Considering* the terms of reference of the Committee on Conventions and Recommendations in Education,
12. *Taking into account* the tasks already entrusted to the Committee concerning human rights matters within the Organization's fields of competence,
13. *Decides* that the Committee will henceforth be designated 'the Committee on Conventions and Recommendations';
14. *Decides* that the Committee will continue to carry out its functions with respect to conventions and recommendations and will consider communications received by the Organization concerning cases and questions of violations of human rights within UNESCO's fields of competence in accordance with the following conditions and procedures:

Conditions

- (a) Communications shall be deemed admissible if they meet the following conditions:

 - (viii) the communication must be submitted within a reasonable time-limit following the facts which constitute its subject-matter or within a reasonable time-limit after the facts have become known;

- (x) communications relating to matters already settled by the states concerned in accordance with the human rights principles set forth in the Universal Declaration of Human Rights and the international covenants on human rights shall not be considered;

Procedures

- (b) The Director-General shall:
 - (i) acknowledge receipt of communications and inform the authors thereof of the abovementioned conditions governing admissibility;
 - (ii) ascertain that the author of the communication has no objection to his/her communication, after having been communicated to the government concerned, being brought to the notice of the Committee and to his/her name being divulged;

- (i) the Director-General shall notify the author of the communication and the government concerned of the Committee's decision on the admissibility of the communication;
- (j) the Committee shall dismiss any communication which, having been found admissible, does not, upon examination of the merits, appear to warrant further action. The author of the communication and the government concerned shall be notified accordingly;
- (k) communications which warrant further consideration shall be acted upon by the Committee with a view to helping to bring about a friendly solution designed to advance the promotion of the human rights falling within UNESCO's fields of competence;

15. *Decides further* that the Committee shall submit confidential reports to the Executive Board at each session on the carrying out of its mandate under the present decision. These reports shall contain appropriate information arising from its examination of the communications which the Committee considers it useful to bring to the notice of the Executive Board. The reports shall also contain recommendations which the Committee may wish to make either generally or regarding the disposition of a communication under consideration;
16. *Decides* to consider confidential reports of the Committee in private session and to take further action as necessary in accordance with Rule 29 of the Rules of Procedure;
17. *Decides also* that communications transmitted to it by the Committee which testify to the existence of a question shall be dealt with in accordance with paragraph 18 below;
18. Considers that questions of massive, systematic or flagrant violations of human rights and fundamental freedoms – including, for example, those perpetrated as a result of policies of aggression, interference in the internal affairs of states, occupation of foreign territory and implementation of a policy of colonialism, genocide, apartheid, racialism, or national and social oppression – falling within UNESCO's fields of competence should be considered by the Executive Board and the General Conference in public meetings;
19. *Decides* to consider at its 105th session the report to be made by the Executive Board and the Director-General to the General Conference, at its 20th session, on the implementation of Part II of 19 C/Resolution 12.1.

Annex III — **Standard letter sent by the Director of the Office of International Standards and Legal Affairs to the authors of communications examined under 104 EX/Decision 3.3**

On behalf of the Director-General of UNESCO, I acknowledge receipt of your letter of alleging violations of human rights. In so far as your communication concerns human rights falling within UNESCO's competence in the fields of education, science, culture or communication, it can be examined under the procedure approved by the Executive Board of UNESCO on 26 April 1978 in 104 EX/Decision 3.3, a copy of which is attached for your information.

It must be stressed that in no case is UNESCO an international court nor can it become one. The rights falling within UNESCO's spheres of competence are essentially the following:

- the right to education (Article 26 of the Universal Declaration of Human Rights);
- the right to share in scientific advancement (Article 27);
- the right to participate freely in cultural life (Article 27);
- the right to information, including freedom of opinion and expression (Article 19).

These rights may imply the exercise of others, the most noteworthy of which are set out below:

- the right to freedom of thought, conscience and religion (Article 18);
- the right to seek, receive and impart information and ideas through any media and regardless of frontiers (Article 19);
- the right to the protection of the moral and material interests resulting from any scientific, literary or artistic production (Article 27);
- the right to freedom of assembly and association (Article 20) for the purposes of activities connected with education, science, culture and information.

In accordance with 104 EX/Decision 3.3, I wish to draw your attention to the conditions governing admissibility, which must be met before UNESCO can take action on your communication. They are listed in paragraph 14(a) of 104 EX/Decision 3.3. In order to enable the Director-General to complete the file on your communication, you are invited to fill in the enclosed form and to return it to UNESCO, duly signed by yourself, as soon as possible.

The allegations should be set out in a concise statement, specifying which of the human rights is/are considered to have been violated and which of UNESCO's fields of competence is/are concerned. The date of the decisions complained of and the authority which took them should be clearly indicated, including, in particular, whatever legal remedies have been used (for instance, recourse to the courts in the country concerned) and the

results of such action. There should also be an indication as to whether another international procedure has been used and, if so, before what body, the date on which the matter was referred to it and any results of this procedure.

You will notice that you are asked whether you have any objection to your name being divulged and to your communication being brought to the notice of the UNESCO Executive Board Committee on Conventions and Recommendations, after it has been transmitted to the government concerned. Failing an affirmative answer from you on this point, no action on your communication can be taken by UNESCO under the aforementioned decision.

COMMITTEE ON NON-GOVERNMENTAL PARTNERS

BACKGROUND AND TERMS OF REFERENCE

1. The Executive Board Committee on International Non-Governmental Organizations (NGOs) was set up as an experiment in 1966, at the 72nd session of the Board (72 EX/Decision 7.4), and began to exercise its responsibilities at the 73rd session; it was chaired by Mr Paulo E. de Berrêdo Carneiro (Brazil).
2. Up to the 70th session (April-May 1965), questions concerning NGOs had been studied in advance by the Programme and External Relations Commission (previously the 'External Relations Commission'), which submitted its recommendations to the Board in its report.
3. Experience showed that the consideration of this report by the Board, particularly as regards the classification of NGOs, was a source of frequently prolonged and sometimes fruitless discussion and of undesirable arguments about certain organizations. In addition, these discussions frequently duplicated those that had taken place in the Commission.
4. Accordingly, at the 70th session, on the proposal of the Bureau, the Board decided to consider the classification of NGOs directly in plenary meeting. During the discussion on this question Mr Paulo E. de Berrêdo Carneiro, expressing his concern lest the Board again be involved in arguments of a political nature, and in order to avoid wasting time, suggested that 'the Board should set up a subcommittee or working group, consisting of some of its own members, who would be responsible between sessions for studying requests for admission that were likely to arouse controversy, obtaining documentary information on the activities of the organizations concerned, holding discussions with their responsible officers and carrying out a meticulous analysis of the contribution they make to the work of UNESCO' (70 EX/ 21, paragraph 28.1).
5. At the 71st session (September-November 1965), Mr Paulo E. de Berrêdo Carneiro submitted to the Board the following information note (71 EX/35), which was on the whole approved by the Board:

'EXECUTIVE BOARD COMMITTEE ON NON-GOVERNMENTAL ORGANIZATIONS

Information note by H.E. Professor P.E. de Berrêdo Carneiro (Brazil) on a proposal to be submitted to the Executive Board at its 72nd session.

1. *Terms of reference*

- (a) The function of such a working group should be to make a thorough and detailed examination of new requests for admission to consultative status and requests for changes in status, to enable the Board to act efficiently on the basis of full facts and analysis. The working group would also review the record of the ever-increasing number of organizations which have already achieved such status. The main criterion to be applied should be whether or not the organization concerned has an active and constructive contribution to make to UNESCO's work, and whether or not it fulfils the basic conditions prescribed in the Directives to qualify for relationship with UNESCO. To accomplish this task, the Committee would have to examine all relevant documentation pertaining to organizations applying for admission, or already admitted, including any evidence presented by members of the Board regarding such status.
- (b) The Committee would have authority to make recommendations to the Board regarding the disposition of the applications before the Board, summarizing reasons for its recommendations; it could also consider matters concerning non-governmental organizations which may be referred to it by the Executive Board or the Director-General.

2. *Membership*

To be effective the Committee should be small, consisting preferably of seven (as in ECOSOC) or nine (as in the International Atomic Energy Agency) members of the Board.

3. *Voting*

All recommendations of the Committee to the Executive Board with regard to the disposition of the application for the category A and B status, or change in such status, shall be unanimous.'

6. At its 72nd session (May 1966), under item 7.4 of its agenda, 'Formation of a Committee of the Executive Board on Non-Governmental Organizations'¹ the Board, after examining a draft submitted by Mr Paulo E. de Berrêdo Carneiro (72 EX/24 Rev.), adopted 72 EX/Decision 7.4 as follows:

'The Executive Board,

1. *Recalling* the lengthy discussions that have taken place in the past concerning the classification of non-governmental organizations,
2. *Noting* with satisfaction the Secretariat's efforts to provide adequate technical documentation on the activities and possible contribution of non-governmental organizations seeking admission to category A or B (consultative status),
3. *Considering* that it is necessary to create better machinery for the detailed analysis and examination of applications from non-governmental organizations seeking admission to consultative status,

1. Item included at the request of Mr Paulo E. Berrêdo Carneiro.

4. *Decides* as an experiment to set up a Committee composed of 11 members of the Executive Board, whose terms of reference and membership shall be respectively as follows:

(i) *Terms of reference*

- (a) to undertake a full and detailed examination of new applications for admission to consultative status and for changes of category;
- (b) to study all pertinent documentation on the organizations seeking admission, so that the Board may take its decisions in full knowledge of all the facts and their implications;
- (c) to submit, in its report, the recommendations adopted by it unanimously, it being understood that the Board still has before it, in toto, the question included in its agenda and may, if it sees fit, proceed to examine all proposals on which the Committee has proffered no opinion;
- (d) to consider any other questions regarding non-governmental organizations which the Executive Board may refer to it for an opinion.

...

In the case of the first election, members will be elected to serve until the close of the 14th session of the General Conference. The Board will thereafter elect a new Committee for a period to be determined by the Board itself;

5. *Invites* the Committee to examine, in the course of the 73rd session, requests for admission to categories A and B and to submit recommendations thereon to the Board at that session’.

1967-1968 – Chairperson: Mr Paulo E. de Berrêdo Carneiro (Brazil)

7. At its 75th session (1-2 December 1966), the Board decided to re-establish a Committee (11 members), and to assign the same tasks to this Committee as to that which had been set up by 72 EX/Decision 7.4, it being agreed that the Board would reconsider the nature and duration of its terms of reference in the light of the first report submitted to it by the Committee (75 EX/Decision 5).

8. At its 76th session (April-May 1967), the Board decided to re-examine, at its 77th session, the question of continuing the Committee, and also the nature and duration of its terms of reference (76 EX/Decision 5.5-II).

9. At its 77th session (October-November 1967), the Board invited the Committee to pursue its work, and decided to modify as follows paragraph 4(i)(c) of the terms of reference of the Committee defined in 72 EX/Decision 7.4:

‘(c) to submit, in its report to the Executive Board, the recommendations adopted by it unanimously and also to report the results of the discussion of questions on which unanimity was not achieved’ (77 EX/Decision 3.2).

10. At its 78th session (May-June 1968), the Board invited the Director-General 'to provide the Executive Board in its future work with both a summary of the information supplied by organizations requesting admission in categories A and B, and a critical appraisal of the contribution which these organizations already make or are in a position to make to the implementation of UNESCO's programme' (78 EX/Decision 7.9 (4)).

Thereafter it became the practice to establish the Committee at the same time as the other subsidiary bodies of the Board, at the first session of the Board held after the close of the General Conference.

1969-1970 – Chairperson: Mr Manuel Alcala (Mexico)

11. 81st session (21-22 November 1968): establishment of the Committee – 12 members (81 EX/Decision 6-III).
12. 82nd session (April-May 1969): terms of reference (same responsibilities) (82 EX/Decision 5.7).
13. At its 16th session the General Conference adopted 16 C/Resolution 8, paragraphs 9 and 10 of which read as follows:
 - '9. *Requests* the Director-General to undertake investigations of all international non-governmental organizations enjoying relations with UNESCO which have branches, sections, affiliates or constituent parts in the Republic of South Africa or Southern Rhodesia or Portuguese-dominated African territories, with respect to the practice of racial discrimination or racial segregation in their policies, activities, or membership of their cooperation in any way with the apartheid policy of the Government of the Republic of South Africa; and to report thereon to the Executive Board;
 10. *Calls upon* the Executive Board to take the necessary measures, in the light of the Director-General's report, to break off, as from 31 December 1971, all relations with those international non-governmental organizations in respect of which it has not been established, to the satisfaction of the Board, that their branches, sections, affiliates or constituent parts in the Republic of South Africa, Southern Rhodesia or Portuguese-dominated African territories neither practise racial discrimination or segregation in their policies, their activities or in their membership, nor cooperate in any way with the Government of the Republic of South Africa in the latter's apartheid policy;'

1971-1972 – Chairperson: Mr Tooryalay Etemadi (Afganistan)

14. 86th session (16-18 November 1970): establishment of the Committee – 12 members (86 EX/Decision 5.3-III).
15. 87th session (April-May 1971): terms of reference (87 EX/Decision 3.2-III).

16. In pursuance of 16 C/Resolution 8, paragraphs 9 and 10, the Board, by 87 EX/Decision 3.2-III, assigned the following terms of reference to the Committee:
- ‘The Executive Board,
1. *Considering* the provisions adopted by the General Conference at its 16th session, in resolution 8, paragraphs 9 and 10, concerning relations with non-governmental organizations,
 2. *Being of the opinion* that the analysis of the results of the investigations undertaken by the Director-General in accordance with paragraph 9 of that resolution will entail a considerable amount of work, which should be committed to the most appropriate subsidiary body of the Board,
 3. *Decides* to entrust its Committee on International Non-Governmental Organizations with the preliminary study of the communications which international non-governmental organizations have already sent or will send to the Director-General in reply to the letter he has addressed to them with the object of collecting for the Executive Board any relevant information needed to carry out the investigations referred to in paragraph 9 of the above-mentioned resolution;
 4. *Invites* the Committee to meet in the period immediately preceding the 88th session of the Board and to submit to it, at that session, a report on the study which it has made, including such observations and recommendations as it considers relevant, so that the Board may take the necessary measures to give effect to paragraph 10 of 16 C/Resolution 8;
 5. *Invites* the Committee, furthermore, to continue, at the intervals laid down by the Board at its 61st session (61 EX/Decisions, 15.2-II), considering the Director-General’s proposals concerning the classification of non-governmental organizations in categories A and B of relations with UNESCO, which task constitutes the permanent terms of reference of the aforesaid Committee’.

 2. *Recalling* 89 EX/Decisions, 7.5 to postpone examination of action required in paragraph 13 of 16 C/Resolution 12¹ to a further session of the Board,

1. 16 C/Resolution 12 ‘...

9. *Reiterates its hope* that the application of the principle of geographical extension in relation to the membership and activities of the international non-governmental organizations will be further developed during the coming six years;

...

13. *Requests* the Director-General to study the problems referred to in paragraph 32 of document 16 C/22 concerning:

- (a) the international non-governmental organizations’ own finances;
- (b) the association of non-governmental organizations in the execution of UNESCO’s programme by Member States;
- (c) the establishment of a procedure for consulting the Executive Board with regard to major changes in subventions which the Director-General may wish to recommend; and to present proposals thereon to the Executive Board.’

3. *Bearing in mind* the discussion at the 91st session of the Board concerning the granting of subventions in 1973 to international non-governmental organizations,
 4. *Recalling* decision 7.3 taken by the Board at its 91st session,
