The Economic and Social Council,

Recalling General Assembly resolution 56/201 of 21 December 2001 on the triennial comprehensive policy review of operational activities for development of the United Nations system and Council resolution 2002/29 of 25 July 2002,

Reiterating that the fundamental characteristics of the operational activities of the United Nations system should be, inter alia, their universal, voluntary and grant nature, their neutrality and multilateralism as well as their ability to respond to development needs in a flexible manner, and that the operational activities of the United Nations system are carried out for the benefit of recipient countries, at the

request of those countries and in accordance with their own policies and priorities for development,

Reaffirming and underscoring the collective commitment and political will of Member States to strengthening the role and capacity of the United Nations development system to assist developing countries in the implementation of the goals, targets and commitments set out in the Millennium Declaration² and by the major United Nations conferences and summits,

Stressing that national Governments have the primary responsibility for their countries' development, and recognizing the importance of national ownership of development programmes,

Reiterating the need for all organizations of the United Nations development system, in accordance with their respective mandates, to focus their efforts at the field level in accordance with the priorities identified by recipient countries and with the goals, targets and commitments set out in the Millennium Declaration and by the major United Nations conferences and summits,

1. *Takes note* of the reports of the Secretary-General on the progress in the implementation of General Assembly resolution 56/201,³ on assessment of the lessons learned by United Nations organizations from evaluation activities at the field level⁴ and on funding of development cooperation activities of the United Nations system;⁵

2. *Takes note also* of the request contained in resolution 57/270 B of 23 June 2003 to invite the Administrator of the United Nations Development Programme, in his capacity as chair of the United Nations Development Group, to present, on a regular basis, to the Economic and Social Council at its coordination segment, the activities carried out by the United Nations Development Group related to the integrated and coordinated implementation of the outcomes of the major United Nations conferences and summits;

7. *Recognizes* that strengthening the role and capacity of the United Nations development system to assist countries in achieving their development goals requires continuing improvement in its effectiveness, efficiency, coherence and impact, along with a significant increase in and expansion of its resource base on a continued, more predictable and assured basis;

8. *Invites* all United Nations funds and programmes, as well as the specialized agencies, to further explore possibilities to strengthen their resource base, including, as appropriate, through multi-year funding frameworks as resource management tools integrating programme objectives, results and resources;

9. *Calls upon* all donor countries and countries in a position to do so to substantially increase their contributions to the core/regular budgets of the United Nations development system, in particular the funds and programmes, and wherever possible, to contribute on a multi-year basis, and also stresses the need for further exploration of other sources of funding that could complement but should not replace traditional sources;

10. *Requests* the Secretary-General to undertake further analytical work on the issue of funding, and to report to the General Assembly at its fifty-ninth session in the context of the triennial comprehensive policy review;

Capacity-building

11. *Reaffirms* the need for all organizations of the United Nations development system at country level to focus on capacity-building as one of their primary objectives, within their respective mandates, and urges these organizations to: (a) support recipient Governments and other relevant stakeholders in devising country-level strategies for capacity-building in the pursuit of internationally agreed development goals; (b) intensify inter-agency information sharing at the system-wide level on good practices and experience gained, results achieved, benchmarks and indicators, monitoring and evaluation criteria concerning capacity-building, and reflect them in the common country assessment and the United Nations Development Assistance Framework, and (c) invite all organizations to include reporting on capacity-building in their annual reports to their respective governing bodies;

12. *Reiterates* that the United Nations development system should use, to the fullest extent possible and practical, national execution and available national expertise and technologies as the norm in the implementation of the operational activities;

Common country assessment and the United Nations Development Assistance Framework

13. *Requests* the United Nations development system and its country-level structures to continue their efforts to enhance the quality of the common country assessment, in particular its analytical aspects, and to strengthen the operational impact of the United Nations Development Assistance Framework, including through inviting the active engagement of the specialized agencies and other partners, as appropriate, in the formulation and the use of these instruments, under the leadership of national Governments;

15. *Requests* United Nations funds, programmes and the specialized agencies to continue to ensure the alignment and integration of their operational activities for development with national development efforts and priorities, through the active and full government participation and leadership at all stages of the common country assessment and United Nations Development Assistance Framework processes, as well as broader involvement of all relevant stakeholders;

16. *Notes* the increased collaboration between the United Nations system and the Bretton Woods institutions, and invites the United Nations system and the Bretton Woods institutions to explore further ways to enhance cooperation, collaboration and coordination, including through greater harmonization of strategic frameworks, instruments, modalities and partnership arrangements, in full accordance with the priorities of the recipient Governments, and in this regard emphasizes the importance of ensuring, under the leadership of national authorities, greater consistency between the strategic frameworks developed by the United Nations funds, programmes, agencies and the Bretton Woods institutions, and the national poverty reduction strategies, including the poverty reduction strategy papers where they exist;

17. *Notes also* the efforts of the United Nations Development Group to promote the role of the regional bureaux of the funds and programmes in assisting country teams in the preparation of the common country assessment and the United Nations Development Assistance Framework;

18. *Encourages* the regional commissions to provide, when requested, their inputs for the preparation of those frameworks;

Evaluation of operational activities for development

19. *Emphasizes* the importance of monitoring and evaluation of operational activities of the United Nations system in order to enhance their effectiveness and impact, and calls upon the Secretary-General to integrate a stronger focus on lessons learned, results and outcomes in future reports;

20. *Stresses* the need to ensure the full participation of national authorities as well as the involvement of relevant stakeholders in the design, programming, implementation and evaluation processes, as well as in the drafting of the terms of reference, the development of methodologies and indicators and the selection of teams in all evaluation exercises conducted at the field level;

21. *Recommends* that the United Nations funds, programmes and the specialized agencies make systematic efforts to enhance the capacity for identifying, documenting and synthesizing lessons learned from evaluation activities in order to retain and absorb their results, ensure their dissemination, in particular at the country level, by placing the evaluation reports in the public domain using the Internet, and use evaluations findings and lessons learned in the design and implementation of programmes and projects, and also recommends that they assist national efforts to create country-level repositories of evaluation findings and lessons learned that are relevant in each national context, supporting the use of information and communications technology, national databases of lessons learned from evaluation, the development of analysis, documentation, distillation and synthesis of those lessons learned and promoting the development of publications and the use of other means of communication;

22. *Calls upon* all organizations of the United Nations system to make additional efforts to promote the development of national evaluation capacities, including capacities to make use of lessons learned from past United Nations activities that are relevant in each national context, and encourages them to communicate findings of evaluation activities and disseminate corresponding lessons learned to national entities, also, as appropriate through a more frequent use of local national languages;

23. *Recommends* that all organizations of the United Nations development system consider lessons learned and their dissemination as a specific required component of their activities and designate those responsible for monitoring the effectiveness of the lessons learned process both at Headquarters and at the country level;

24. *Requests* the organizations of the United Nations development system to encourage country teams to make greater use of lessons learned from evaluations in the preparation of the common country assessment, the United Nations Development Assistance Framework, individual country programmes and other relevant country documents and to encourage enhanced country-level absorption of lessons learned, including through the intensification of activities such as joint evaluations, as appropriate under the United Nations Development Assistance Framework umbrella, of programmes and joint support to national databases of lessons learned from evaluation;

Agreed conclusions on national and international cooperation for social development

The Economic and Social Council

Endorses the following agreed conclusions adopted by the Commission for Social Development with respect to its priority theme at its forty-first session:

1. The Commission stresses that national and international cooperation for social development should aim at solidarity, equality within and among countries, social justice, good governance at all levels, tolerance and full respect for all human rights and fundamental freedoms.

2. The Commission recognizes that globalization and interdependence are opening new opportunities through trade, investment and capital flows and advances in technology, including information technology, for the growth of the world economy and the development and improvement of living standards around the world. At the same time, there remain serious challenges, including serious financial crises, insecurity, poverty, exclusion and inequality within and among societies. Considerable obstacles to further integration and full participation in the global economy remain for developing countries, in particular the least developed countries, as well as for some countries with economies in transition. Unless the benefits of social and economic development are extended to all countries, a growing number of people in all countries and even entire regions will remain marginalized from the global economy. The Commission reiterates the need for immediate action in order to overcome those obstacles affecting peoples and countries and to realize the full potential of opportunities presented for the benefit of all. The Commission stresses that the social impact and dimension of globalization deserve further attention.

3. Globalization offers opportunities and challenges. The developing countries and countries with economies in transition face special difficulties in responding to those challenges and opportunities. Globalization should be fully inclusive and equitable, and there is a strong need for policies and measures at the national and international levels, formulated and implemented with the full and

effective participation of developing countries and countries with economies in transition to help them respond effectively to those challenges and opportunities.

4. In an increasingly globalizing world, renewed and effective partnerships between developed countries and developing countries as well as countries with economies in transition, are required to achieve the internationally agreed social development objectives and commitments, including those adopted at the World Summit for Social Development and the further initiatives adopted at the twenty-fourth special session of the General Assembly, and the internationally agreed development goals including those contained in the United Nations Millennium Declaration.⁴⁵

5. The Commission welcomes the prominence given to the New Partnership for Africa's Development⁴⁶ in the report of the Secretary-General on national and international cooperation for social development⁴⁷ as an example of a partnership among Governments. It also recognizes that the objectives and action plans enunciated in the New Partnership are consistent with the internationally agreed development goals including those contained in the Millennium Declaration as well as those spelled out in the Copenhagen Declaration on Social Development,⁴⁸ particularly its commitment seven on accelerating the economic, social and human resource development of Africa and the least developed countries, and the outcome document of the twenty-fourth special session of the General Assembly.⁴⁹

6. The Commission invites the General Assembly and the Economic and Social Council to continue to include consideration of the integration of economic and social policies as one of the thematic areas to be addressed in future debates.

7. National capacity is one of the key factors in implementing social development policies and fulfilling national responsibilities. Each country has primary responsibility for its own economic and social development and the role of national policies and development strategies cannot be overemphasized. Enhanced international cooperation is essential to implement the Copenhagen Declaration on Social Development and the Programme of Action of the World Summit for Social Development⁵⁰ as well as the further initiatives for social development and to address the challenges of globalization. In this regard, international cooperation has a vital role in assisting developing countries as well as some countries with economies in transition in the strengthening of their human, institutional and technological capacity. Without the building of such capacity, it will be difficult to ensure that social policy concerns are integrated within the policy planning and budgeting processes. The Commission therefore urges the international community to continue to assist developing countries in their capacity-building in order to promote social development.

⁵⁰ *Report of the World Summit for Social Development, Copenhagen, 6-12 March 1995* (United Nations publication, Sales No. E.96.IV.8), chap. I, resolution 1, annex II.

8. Given the importance of education as a primary and critical component in any development strategy, in particular for the elimination of illiteracy, the Commission emphasizes the relevance of cooperation in educational matters at the national and international levels.

9. Achieving the internationally agreed development goals, including those contained in the Millennium Declaration, demands a new partnership between developed and developing countries. In this context, the Commission stresses the importance of the commitment recently made by heads of State and Government to achieving sound policies, good governance at all levels and the rule of law, as well as to mobilizing domestic resources, attracting international flows, promoting international trade as an engine for development, increasing international financial and technical cooperation for development, sustainable debt financing and external debt relief, and enhancing the coherence and consistency of the international monetary, financial and trading systems.

10. The Commission recognizes that a substantial increase in official development assistance and other resources will be required if developing countries are to achieve the internationally agreed development goals and objectives, including those contained in the Millennium Declaration. To build support for official development assistance, heads of State and Government have pledged to further improve policies and development strategies, both nationally and internationally, to enhance aid effectiveness.

11. In that context, the Commission urges developed countries that have not done so to make concrete efforts towards achieving the target of providing 0.7 per cent of their gross national product as official development assistance to developing countries and from 0.15 to 0.20 per cent of their gross national product as official development assistance to least developed countries, as reconfirmed at the Third United Nations Conference on the Least Developed Countries, and encourages developing countries to build on progress achieved in ensuring that official development assistance is used effectively to help achieve development goals and targets. The Commission acknowledges the efforts of all donors, commends those donors whose official development assistance contributions exceed, reach or are increasing towards the targets, and underlines the importance of undertaking an examination of the means and time frames for achieving the targets and goals.

12. Recipient and donor countries, as well as international institutions, should strive to make official development assistance more effective.

13. The Commission underlines the responsibility of the private sector at the national and international levels, including small and large companies and transnational corporations, regarding not only the economic and financial but also the development, social, gender and environmental implications of their activities, their responsibilities towards their workers and their contributions to achieving sustainable development including social development. In this context, the Commission emphasizes the need to take concrete actions within the United Nations system and through the participation of all relevant stakeholders on corporate responsibility and accountability.

14. Partnerships among all relevant actors are increasingly becoming part of national and international cooperation for social development. Within countries, partnerships among the Government, civil society and the private sector can

contribute effectively to the achievement of social development goals. At the international level, the recent initiatives towards building voluntary partnerships for social development should be encouraged and discussed further at, inter alia, the intergovernmental level.

15. Cross-sectoral and integrated policies that take into account the needs and interests of all members of society, as well as their contributions to national development, and that mainstream a gender perspective should be promoted.

16. The Commission calls upon all relevant development partners to give adequate attention to productive and sustainable employment, as appropriate, in their development policies. Employment strategies can have a substantial impact on poverty eradication, social development and gender equality and should be developed in harmony with economic growth strategies and structural reforms. The Commission sees the involvement of social partners in cooperating with Governments in the formulation and implementation of employment strategies as an important element in ensuring their success. The Commission stresses the need to design appropriate labour and employment policies that will support both growth with employment and employment that supports social development goals.

17. Fulfilment of sustainable development objectives should aim at ensuring, inter alia, quality employment and defending workers rights and interests and, to this effect, the Commission notes the need to promote respect for the relevant United Nations and International Labour Organization conventions.

18. The Commission encourages the strengthening of cooperation among countries, inter alia, to address the issues of labour-market information and skills standards certification as well as transnational issues on labour migration, with a view to protecting the rights and dignity of migrant workers.

19. The Commission stresses the necessity of ensuring the effective involvement of developing countries in the international economic decision-making process through, inter alia, greater participation in international economic forums, thereby ensuring the transparency and accountability of international financial institutions with respect to according a central position for social development in their policies and programmes.

20. The Commission notes the increasing operational coordination and cooperation achieved between the United Nations funds and programmes and the international financial institutions, while taking into account their respective competencies and mandates. In this context, the Commission invites the international financial institutions to strengthen further their efforts to ensure that an improved social outcome is incorporated into their programmes of assistance, taking into account the fact that poverty reduction strategies should be nationally owned. Where Poverty Reduction Strategy Papers exist, a broad platform is necessary to place them within a wider context where all social objectives would be adequately taken into account.

⁸⁷ General Assembly resolution 55/25, annex I.

⁸⁸ E/CN.15/2003/7 and Add.1.

Recommendations of the Meeting of Experts on the Application of United Nations Standards and Norms in Crime Prevention and Criminal Justice

Recommendations to the Commission on Crime Prevention and Criminal Justice

1. The application and formulation of United Nations standards and norms in crime prevention and criminal justice should continue to be accorded high priority by the Commission on Crime Prevention and Criminal Justice. The standing agenda item on those standards and norms should be maintained and appropriate time and resources should be devoted to it.
2. Possible future United Nations standards and norms in crime prevention and criminal justice should focus on emerging practices in crime prevention or criminal justice, in order to facilitate the development of detailed practical guidelines for use by interested States in carrying out specific tasks.
3. The Commission should establish a mechanism, such as a group of experts and/or a special rapporteur, to supplement existing procedures for undertaking periodic reviews of the application of selected standards and norms in order to ensure their promotion, as well as to make appropriate recommendations to the Commission.
4. The focus in subsequent review cycles should be on identifying difficulties that have been encountered in the application of United Nations standards and norms, in crime prevention and criminal justice, ways in which technical assistance can be used to overcome those difficulties and desirable practices in crime prevention and control.
5. The resulting data and other information should be shared in order to enhance the level and impact of technical cooperation in the world, the overall objective being to promote criminal justice reform in line with applicable United Nations standards and norms in crime prevention and criminal justice.

6. The entire review process should be guided by the need to relate it to the main programme priorities of the United Nations, as noted in the United Nations Millennium Declaration⁹³ and the Vienna Declaration on Crime and Justice: Meeting the Challenges of the Twenty-first Century,⁹⁴ including strengthening the rule of law, good governance, sustainable development and the alleviation of poverty.

7. In line with the programme priorities of the United Nations, the Commission, at each of its sessions, should seek to focus on the application of a cluster of United Nations standards and norms in crime prevention and criminal justice. The Commission may wish to consider the possibility of reviewing a presentation of a particular cluster of standards and norms and their application in specific countries. Such a presentation could be prepared in cooperation with the institutes of the United Nations Crime Prevention and Criminal Justice Programme network.

8. In redesigning the information-gathering mechanisms and within the limits of current programme budget resources, the Commission should examine and propose focusing the future review process on selected clusters of instruments with the most widespread potential and relevance for application in criminal justice reforms in the world, in the following order of priority, bearing in mind gender as a cross-cutting issue, and grouped into clusters as follows:

(a) Juvenile justice and prison reform, including alternatives to imprisonment and restorative justice;

(b) The conduct of law enforcement and criminal justice practitioners, including the integrity of the judiciary;

(c) Public security and crime prevention;

(d) The treatment of victims and witnesses;

(e) Legal, institutional and practical arrangements for international cooperation (model treaties).

9. The Commission should request donor States and relevant intergovernmental and non-governmental institutions to support criminal justice reforms, in accordance with United Nations standards and norms in crime prevention and criminal justice, in countries requesting assistance. The Commission could rely on a roster of national and regional experts who could, upon request, provide technical assistance and advice on the use and application of selected standards and norms.

10. The Commission should encourage donor countries to make financial contributions to the United Nations Crime Prevention and Criminal Justice Fund. Contributions should be directed towards technical cooperation projects for implementing and promoting United Nations standards and norms in crime prevention and criminal justice, as well as organizing meetings of experts to identify priority areas for the development of future standards and norms.

⁹³ General Assembly resolution 55/2.

⁹⁴ General Assembly resolution 55/59, annex.

12. Member States should establish mechanisms and provide resources at the national level for promoting and monitoring the application of United Nations standards and norms in crime prevention and criminal justice.
13. Focused efforts should be made to obtain the commitment of policy makers and criminal justice managers to the implementation of United Nations standards and norms in crime prevention and criminal justice.
14. Member States should publish and disseminate, in their local languages, the United Nations standards and norms in crime prevention and criminal justice.
15. United Nations standards and norms in crime prevention and criminal justice should be easily accessible and explained in understandable language.

18. National institutions and non-governmental organizations should integrate United Nations standards and norms fully into their relevant training programmes.

Recommendations to the United Nations Office on Drugs and Crime

19. The United Nations Office on Drugs and Crime should emphasize in its organizational structure and operations the essential role of United Nations standards and norms in crime prevention and criminal justice.
20. The United Nations Office on Drugs and Crime should assist Member States, upon request, in the application of United Nations standards and norms in crime prevention and criminal justice and in the development of projects.
21. The United Nations Office on Drugs and Crime should seek to ensure that the relevant entities within the Secretariat and in the field are fully aware of the importance of United Nations standards and norms in crime prevention and criminal justice for building and maintaining the rule of law.
22. Well-focused efforts should be undertaken to encourage officials in peacekeeping and peace-building operations and their counterparts to apply United Nations standards and norms in crime prevention and criminal justice.

24. The information provided by Member States on the application of United Nations standards and norms in crime prevention and criminal justice should be distributed by the United Nations Office on Drugs and Crime via the World Wide Web.

25. The United Nations Office on Drugs and Crime should encourage financial institutions, development agencies and non-governmental organizations to expand their technical assistance programmes for improving access to justice and the rule of law.

26. The information-gathering mechanisms used by the United Nations Office on Drugs and Crime should be reviewed in order to bring them in line with the overall programme priorities of the United Nations. The goal should be to redesign the mechanisms in a more comprehensive, consistent and operational manner, so that the collected data and other information are more relevant to those priorities. The goal should also be to enhance cooperation among respondents, both in the collection of data and in the execution of technical cooperation projects.

27. New information-gathering mechanisms should be focused on identifying difficulties encountered in application and desirable practices. The mechanisms should be based on the present United Nations priorities unless the Eleventh United Nations Congress on Crime Prevention and Criminal Justice, to be held in 2005, identifies new priorities.

28. Bearing in mind the priorities, the new information-gathering mechanisms should be conceptualized and existing mechanisms reviewed along the following parameters:

(a) Standards and norms related primarily to persons in custody, non-custodial sanctions and juvenile and restorative justice;

(b) Standards and norms related primarily to good governance, the independence of the judiciary and the integrity of criminal justice personnel;

(c) Standards and norms related primarily to crime prevention and victim issues;

(d) Standards and norms related primarily to legal, institutional and practical arrangements for international cooperation.

29. Reviews of United Nations standards and norms related primarily to capital punishment should be conducted pursuant to Economic and Social Council resolution 1995/57 of 28 July 1995, in which the Council recommended that the quinquennial reports of the Secretary-General should continue to cover the implementation of the safeguards guaranteeing protection of the rights of those facing the death penalty.

30. In gathering information on the above-mentioned priorities, the United Nations Office on Drugs and Crime should also focus its efforts on practical measures that make it possible to determine their operational usefulness in restoring or maintaining law and order, with particular reference to developing countries, countries with economies in transition and post-conflict situations.

31. The United Nations Office on Drugs and Crime should continue to explore the possibility of additional approaches and techniques in information-gathering in order to develop even more concise, simplified and cross-sectoral methods.

32. The survey instruments should be designed to be short, easy to complete and comprehensible.

33. The Secretary-General is requested to involve the regional institutes of the United Nations Crime Prevention and Criminal Justice Programme network in the review and design of the information-gathering instruments and the analysis of information collected.

34. Procedures should be developed according to which the Secretary-General, in reporting on the application of United Nations standards and norms in crime prevention and criminal justice, would be able to utilize not only other relevant information available within the United Nations, but also the expertise of specialized agencies, relevant intergovernmental and non-governmental organizations and academic institutions.

Recommendations on training

35. The United Nations Office on Drugs and Crime should continue to develop and produce manuals, modules and tools to be used in providing training on United Nations standards and norms in crime prevention and criminal justice, to carry out a limited number of such training courses and workshops and to coordinate such training with other United Nations entities.

36. A training unit should be created within the United Nations Office on Drugs and Crime and resources should be allocated for training and coordination functions.

37. To the maximum extent possible, the institutes of the United Nations Crime Prevention and Criminal Justice Programme network should be utilized in the planning and conduct of such training activities.

38. In cooperation with the Department of Peacekeeping Operations and the Department of Political Affairs of the Secretariat, the United Nations Office on Drugs and Crime should develop basic training materials for peacekeeping and peace-building operations.

2. *Endorses* the request of the Commission to its bureau to report on its intersessional work annually, including on its experience with regard to the adherence of Member States to the procedural requirements for the submission of draft proposals;

3. *Decides* that the Commission should examine during the intersessional period, with a view to taking a decision at its thirteenth session, the duration of the session of the Commission on the basis of the experience gained from its twelve sessions held so far and taking into account the requirements of the United Nations Crime Prevention and Criminal Justice Programme, the requirements of the work of the Commission, the judicious use of the resources allocated to the Commission and the experience to be gained from its intersessional meetings;

Training in precursor control, countering money-laundering and drug abuse prevention

The Economic and Social Council,

Conscious that offences connected with drug trafficking depend on the availability of chemical precursors, without which the illicit manufacture of cocaine, heroin and amphetamine-type stimulants would not have become a problem,

Concerned at the escalation of the problem of illicit supply, diversion and substitution of precursors and at the use of sophisticated technologies,

Also concerned at the increase in the laundering of money derived from drug trafficking, which is detrimental to national economies and fosters corruption,

Noting that the supply of and demand for illicit drugs are harmful to public health and that children and young persons are among the consumers of such drugs,

Recognizing that education and training are basic prerequisites for the efficient performance of the various tasks that institutions and their officials must carry out in order to deal with the world drug problem and drug-related offences,

Urges relevant international organizations, in consultation with the United Nations Office on Drugs and Crime, to provide financing and other support for the training of experts in various subjects related to the fight against the world drug problem, with particular emphasis on preventive measures and areas such as precursor control, drug-testing laboratories and laboratory quality assurance, countering money-laundering and drug abuse prevention, bearing in mind that such training may often be best delivered on a regional basis.

2003/33 Reduction of illicit drug demand

The Economic and Social Council,

Recalling the Declaration on the Guiding Principles of Drug Demand Reduction⁹⁹ and the measures to enhance international cooperation to counter the world drug problem,¹⁰⁰ adopted by the General Assembly at its twentieth special session,

Recognizing that the rapid evolution of the socio-economic situation, combined with cultural, personal and social factors and compounded by the availability of illicit drugs, has exacerbated the global problem of consumption of psychoactive substances,

Conscious that the problem of consumption has a greater impact on populations at risk, in particular children and young people, who, for various family and cultural reasons, have become more vulnerable and susceptible to illicit drug consumption and hazardous behaviour regarding illicit drugs,

Aware that programmes for the reduction of illicit drug demand must form part of a global strategy and that, if they are integrated and coordinated so as to offer a wide variety of appropriate measures in the community and in the education, health, labour and social welfare sectors, they will enable the targeted persons, families and communities to diminish the adverse effects of improper drug use,

Considering that the world drug problem must be dealt with on the basis of shared responsibility, which requires an integrated and balanced approach, offering people comprehensive care that will foster their development as individuals and within the community,

1. *Supports* the implementation of programmes for the reduction of illicit drug demand with global impact and scope that target the people at risk of consuming illicit drugs and the problems associated with illicit drug consumption, to be implemented in an integrated and coordinated manner in the community and in the education, health, labour and social welfare sectors;

2. *Invites* Member States to share their experience with models for intervention in the various sectors with a view to restructuring their programmes for the reduction of illicit drug demand so that the programmes will have greater impact.

Bearing in mind the principle of shared responsibility and the need for all States to promote and implement the actions necessary to counter the world drug problem and crimes related to that problem,

Acknowledging efforts by national authorities and the international community, including the United Nations International Drug Control Programme of the United Nations Office on Drugs and Crime, to reduce the demand for, and to combat international trafficking in, illicit drugs,

Noting the fact that the transit States continue to face grave and multifaceted challenges, owing to both the problems related to illicit drug trafficking and supply and the rising levels of drug abuse resulting from the transiting of illicit drugs through their territories,

Bearing in mind the need to strengthen law enforcement capacities at all levels and the importance of inter-agency coordination to the achievement of effective drug control strategies addressing all aspects of the world drug problem,

Recognizing the need to provide, for that purpose, international assistance to the States affected by the transit of illicit drugs,

1. *Encourages* the States affected by the transit of illicit drugs to continue to implement and strengthen law enforcement initiatives at all levels and cross-border cooperation between transit States, as well as countries of destination, with a view to promoting coordinated drug control activities and unified responses to drug trafficking;

3. *Calls upon* the States affected by the transit of illicit drugs to ensure well-coordinated and focused policies to suppress drug trafficking through greater coordination between key agencies responsible for drug law enforcement;

4. *Calls upon* the United Nations International Drug Control Programme of the United Nations Office on Drugs and Crime, subject to the availability of voluntary funds and in accordance with the guidelines adopted by the Commission on Narcotic Drugs for the use of general-purpose funds,¹⁰⁶ and Member States to facilitate such initiatives by providing assistance and technical support to the drug control authorities of the States affected by the transit of illicit drugs, in particular developing countries, including countries with economies in transition, that are in need of such assistance and support;

5. *Requests* the United Nations International Drug Control Programme and Member States, in providing such assistance to the States affected by the transit of illicit drugs, to integrate, subject to availability of voluntary funds and in accordance with guidelines adopted by the Commission for the use of general-purpose funds, projects for the reduction of illicit drug demand and the strengthening of treatment and rehabilitation services for drug abusers;

6. *Urges* the international financial institutions and other potential donors to provide financial assistance to the States affected by the transit of illicit drugs, including for empowering and building the capacity of locally available human resources, so that those States may intensify their efforts to combat drug trafficking and deal with its consequences, in particular increased drug addiction;

Strengthening the prevention and suppression of illicit drug trafficking

The Economic and Social Council,

Recognizing that, in order to be effective, the elimination of illicit drug crops must be based on a regional strategy that involves international cooperation, including the strengthening of capacity to prevent trafficking in illicit drugs from producer countries, taking into account the need to make alternative development products competitive,

¹⁰⁶ *Official Records of the Economic and Social Council, 2001, Supplement No. 8, Part Two (E/2001/28/Rev.1 (Part II)), chap. I, resolution 44/20, annex.*

Recalling that Governments have adopted various measures to promote multilateral, regional, subregional and bilateral cooperation between judicial, law enforcement and tax authorities so as to deal in a comprehensive manner with criminal groups involved in drug trafficking,

1. *Reaffirms* the importance of broad policies to eliminate illicit drug crops and of the implementation of legislation, in particular legislation to facilitate the interdiction of illicit drug shipments, in support of illicit drug crop eradication and elimination, alternative development and strong law enforcement efforts at reducing the supply of illicit drugs;

2. *Calls upon* States to adopt effective measures to strengthen international cooperation projects aimed at the prohibition and control of drug trafficking and to deal with the activities of criminal groups involved in such trafficking and the diversification of their methods and transport routes;

3. *Urges* States to include among those measures the exchange of mutual legal and investigatory assistance to combat criminal groups involved in drug trafficking, and to promote the further development of effective models for cooperation, in particular in the areas of air, sea and port control, and the enhanced monitoring of controlled precursors and chemical components.

Establishment of national networks to counter money-laundering in the framework of national and international drug control plans

The Economic and Social Council,

Bearing in mind the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,¹⁰⁷ the International Convention for the Suppression of the Financing of Terrorism,¹⁰⁸ the United Nations Convention against Transnational Organized Crime¹⁰⁹ and the Inter-American Convention against Terrorism,¹¹⁰

Taking into account the Financial Action Task Force on Money Laundering and its regional groups,

Taking into account also the Political Declaration adopted by the General Assembly at its twentieth special session,¹¹¹ devoted to countering the world drug problem together, which called for Member States to make special efforts against the laundering of money linked to drug trafficking and recommended that States adopt by the year 2003 national money-laundering legislation and programmes in

accordance with the 1988 Convention, as well as the measures for countering money-laundering adopted at the twentieth special session,¹¹²

Considering that multilateral action against the modern global phenomenon of transnational organized crime and the illicit activities connected with it, in particular drug trafficking, money-laundering, corruption and the financing of terrorism, represents a commitment by States that calls for shared responsibility and coordinated activities with a view to achieving a coherent global approach in accordance with multilateral instruments,

Recognizing that the laundering of proceeds derived from drug trafficking and other serious offences has increased throughout the world to become a global threat to the stability and security of the financial and commercial system, and even to government structures, and that concerted efforts by the international community are required in order to deal with the problems posed by organized crime and the proceeds derived from it,

Emphasizing the need for States to harmonize their legislation in order to ensure adequate coordination of their policies for preventing, monitoring, controlling and suppressing money-laundering and the financing of terrorism,

Recognizing that effective action to counter the problem of money-laundering will be possible only through international cooperation and the utilization of networked information systems that facilitate collaboration and the exchange of information between the relevant authorities of the States concerned,

Recognizing also the strategic necessity for States to have the appropriate infrastructure for analysis and financial investigation in order to combat money-laundering and the financing of transnational organized crime in a coordinated manner, using national, regional and international strategies,

Reiterating the importance of establishing and implementing national plans or strategies to combat the laundering of the proceeds of crime,

1. *Recommends* that States, in conformity with their legislation and in accordance with their capabilities, set up national networks to supplement existing regional and international networks dealing with money-laundering;

2. *Calls upon* States to consider including provisions in their national drug control plans for the establishment of national networks to enhance their respective capabilities to prevent, monitor, control and suppress serious offences connected with money-laundering and the financing of terrorist acts and in general to counter all transnational organized criminal acts;

3. *Requests* the United Nations Office on Drugs and Crime, subject to the availability of resources and the Commission on Narcotic Drugs guidelines for the use of general-purpose funds,¹¹³ together with international financial institutions and the organizations involved in preventing and suppressing money-laundering and drug trafficking, to facilitate the provision of training and advice through technical cooperation in States, when requested, taking into account, inter alia, the

2003/37 Strengthening alternative development through trade and socio- environmental preservation

The Economic and Social Council,

Recalling the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development, adopted by the General Assembly at its twentieth special session, which states that alternative development is an important component for generating and promoting lawful, viable and sustainable economic options to illicit drug crop cultivation, that States with illicit drug crops will need continued funding to support national efforts to eliminate drug crops and that the success of alternative development programmes depends, inter alia, on the long-term political and financial commitment of the Governments of the affected countries and the international community,¹¹⁴

Reaffirming Commission on Narcotic Drugs resolution 45/14, in which the Commission invited Member States to make more comprehensive and determined efforts in the area of financial and technical cooperation aimed at promoting alternative development, including, where appropriate, preventive alternative development, and urged the United Nations International Drug Control Programme to enlarge its base of donors and to use available voluntary resources to increase the financial and technical assistance that it provided to alternative development programmes, including, where appropriate, preventive alternative development,

Aware of the importance of programmes promoting alternative development, including, where appropriate, preventive alternative development,

Urging Member States to consider that the presence of illicit drug crops and illicit cultivation and production leads to the degradation of the environment,

Noting with concern that the existence of illicit crops and illicit cultivation and production seriously damages the environment and causes severe socio-economic problems, in particular for highly vulnerable populations, and that effective crop control strategies require an integrated and balanced approach, in particular alternative development, including, where appropriate, preventive alternative development,

1. *Urges* the United Nations International Drug Control Programme and all Member States to continue to cooperate effectively on programmes to promote alternative development, including, where appropriate, preventive alternative development, in accordance with the provisions of Commission on Narcotic Drugs resolution 45/14;

¹¹⁴ General Assembly resolution S-20/4 E, paras. 8 and 9.

2. *Calls upon* the international community and Member States to promote an economic environment that is favourable to products from alternative development and that facilitates the access of such products to international markets as an effective and efficient means of eliminating the illicit economy;

3. *Reiterates* the necessity to encourage access to international markets for products, including produce from alternative development areas;

4. *Urges* Member States, in accordance with the principle of shared responsibility and as a sign of their commitment to the fight against illicit drugs, to extend cooperation in the area of alternative development to include technical assistance, support for the protection of the environment, sustainable development of forest resources, creation of social and productive infrastructure and promotion of private investment and agro-industry, as well as facilitation of the access of alternative development products to markets;

5. *Calls upon* Member States to share their experience in programmes to eliminate or reduce illicit crop cultivation, thereby taking into account common socio-economic and environmental factors, and to encourage the participation of local inhabitants in such programmes;

6. *Encourages* Member States, multilateral financial institutions, regional development banks and non-governmental organizations to focus attention on measures designed to protect society, in particular, highly vulnerable populations, and the environment from the harmful effects of illicit drugs;

7. *Resolves* to promote the implementation of programmes of the United Nations Office on Drugs and Crime, subject to the availability of voluntary funds, which might be from general-purpose funds, in accordance with guidelines adopted by the Commission on Narcotic Drugs,¹¹⁵ or from earmarked funds, and programmes of other relevant organizations for alternative development, including, where appropriate, preventive alternative development, through an integrated approach to the development of vulnerable areas that includes strategies for the preservation of the environment, security, monitoring, education, health, sanitation and community development.

Recalling further its resolution 1987/34 of 26 May 1987, in which it invited the Governments of the Latin American and the Caribbean countries and other interested Governments to participate in the regional meeting of the heads of national drug law enforcement agencies with a view to establishing the Meeting of Heads of National Drug Law Enforcement Agencies, Latin America and the Caribbean, and requested the Secretary-General to adopt the necessary measures and to provide the financial resources required for holding the regional meeting,

Recalling its resolution 1988/15 of 25 May 1988, in which it requested the Secretary-General to take the necessary measures to convene annually the Meetings of Heads of National Drug Law Enforcement Agencies, Asia and the Pacific, Africa, and Latin America and the Caribbean and to provide the financial resources required from available resources and, if necessary, to seek additional extrabudgetary resources,

Recalling also its resolution 1992/28 of 30 July 1992, on improvement of the functioning of the subsidiary bodies of the Commission on Narcotic Drugs, in which it requested the Commission to examine further, on a regular basis, the functioning of the subsidiary bodies of the Commission,

Recalling further Commission on Narcotic Drugs resolution 45/2, in which the Commission reiterated its request to the Secretary-General to provide the regional meetings of heads of national drug law enforcement agencies with the financial resources to assist those States which could not otherwise be represented, by defraying the travel expenses for one participant from each of those States,

2. *Recognizes* that the annual meetings of heads of national drug law enforcement agencies relate to the programme of work of the United Nations International Drug Control Programme, which is funded from the regular budget of the United Nations;

Strengthening systems of control over chemical precursors and preventing their diversion and trafficking

The Economic and Social Council,

Convinced that the transnational nature of the world drug problem and related offences requires the effective application of the principles of shared responsibility and a holistic and balanced approach,

Noting that the availability of chemical precursors makes it possible to extract, refine and synthesize illicit drugs of natural or synthetic origin,

Noting General Assembly resolution S-20/4 B of 10 June 1998 on the control of precursors, adopted by the Assembly at its twentieth special session, devoted to countering the world drug problem together,

Stressing the importance of Commission on Narcotic Drugs resolution 45/12 on the diversion of precursors and prompt reporting to competent authorities of the countries of origin and the countries of transit and the International Narcotics Control Board,

Concerned at the fact that the diversion of chemical precursors is related to, inter alia, the manufacture of illicit drugs,

Observing that transnational criminal organizations have taken advantage of the benefits of globalization and the use of new technology to broaden the scope of their activity in this area and that, therefore, combating those organizations and the methods they use constitutes one of the greatest challenges facing the international community today,

Noting with concern the widespread use of substances substituted for controlled substances in Tables I and II of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,¹¹⁶ for the purposes of extracting and refining drugs of natural or synthetic origin,

Noting the important problems posed by the diversion, smuggling and illicit trading of chemical precursors needed for the production of drugs of natural or synthetic origin,

¹¹⁶ See *Official Records of the United Nations Conference for the Adoption of a Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, Vienna, 25 November-20 December 1988*, vol. I (United Nations publication, Sales No. E.94.XI.5).

Aware that the availability of chemical precursors continues, despite the success of Operation Topaz and Operation Purple and the efforts of all countries to prevent the access of drug traffickers to chemical precursors needed in the manufacture of illicit drugs of natural and synthetic origin,

Committed to preventing, through all legal means available, access to chemical precursors by those engaged in or attempting to engage in the processing of illicit drugs,

Concerned at the fact that illicit drugs of natural and synthetic origin have spread worldwide, and recognizing that that represents a threat to all States,

1. *Urges* all States, including producing, exporting, transit and importing States, in accordance with the principle of shared responsibility, to exchange information, through the competent authorities established in accordance with the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988¹¹⁶ or through law enforcement authorities, regarding suspicious transactions or shipments of substances suspected of being diverted for use in illicit drug production;

2. *Recommends* that all States ensure that they have in place fully effective systems for chemical precursor control and procedures for training personnel of control agencies and operational, regulatory and administrative staff;

3. *Calls upon* all States to inform, through the International Narcotics Control Board, the competent authorities of States about matters concerning the introduction of substances substituted for controlled substances and the use of new techniques in the synthesis, refining and extraction of illicit drugs, with a view to strengthening controls;

4. *Encourages* all States, including producing, exporting, transit and importing States, to make full use of existing channels of communication for the timely exchange of information, where possible, on enterprises that have been given penalties for improper management of chemicals, in accordance with their national legislation, as well as on routes and means of trafficking and diversion, on methods of camouflaging and on means of falsifying and manipulating customs documents, and any other information necessary to exercise more effective control;

5. *Reiterates* the vital importance of the process of prior notification of export of chemicals used in the manufacture of organic and synthetic drugs, established pursuant to article 12 of the 1988 Convention, as a mechanism for preventing the diversion of chemicals into illicit channels, and stresses the need for timely feedback following such prior notification;

6. *Also reiterates* the need to adopt measures for the application of the “know-your-client” principle by enterprises involved in production and distribution;

7. *Encourages* States and relevant international organizations to provide technical assistance that can be used to exercise more effective precursor control.

Demand for and supply of opiates for medical and scientific purposes

The Economic and Social Council,

Recalling its resolution 2002/20 of 24 July 2002 and previous relevant resolutions,

Emphasizing that the need to balance the global licit supply of opiates against the legitimate demand for opiates for medical and scientific purposes is central to the international strategy and policy of drug control,

Noting the fundamental need for international cooperation with the traditional supplier countries in drug control to ensure universal application of the provisions of the Single Convention on Narcotic Drugs of 1961¹¹⁷ and that Convention as amended by the 1972 Protocol,¹¹⁸

Reiterating that a balance between consumption and production of opiate raw materials was achieved in the past as a result of efforts made by the two traditional supplier countries, India and Turkey, together with other producer countries,

Expressing deep concern at the increase in the global production of opiate raw materials and the significant accumulation of stocks over the past few years as a consequence of the operation of market forces, which has the potential to upset the delicate balance between the licit supply of and demand for opiates for medical and scientific purposes,

Noting the importance of opiates in pain relief therapy as advocated by the World Health Organization,

Noting also that countries differ significantly in their level of consumption of narcotic drugs and that in most developing countries the use of narcotic drugs for medical purposes has remained at an extremely low level,

1. *Urges* all Governments to continue to contribute to the maintenance of a balance between the licit supply of and demand for opiate raw materials for medical and scientific purposes, the achievement of which would be facilitated by maintaining, insofar as their constitutional and legal systems permit, support to the traditional and legal supplier countries, and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

2. *Urges* Governments of all producer countries to adhere strictly to the provisions of the Single Convention on Narcotic Drugs of 1961¹¹⁹ and that Convention as amended by the 1972 Protocol,¹²⁰ to take effective measures to prevent illicit production or diversion of opiate raw materials to illicit channels, especially when increasing licit production, and welcomes the study carried out by the International Narcotics Control Board on the relative merits of different methods of producing opiate raw materials;

¹¹⁹ *Ibid.*, vol. 520, No. 7515.

¹²⁰ *Ibid.*, vol. 976, No. 14152.

3. *Urges* Governments of consumer countries to assess their licit needs for opiate raw materials realistically and to communicate those needs to the International Narcotics Control Board in order to ensure easy supply, and requests the Governments of producer countries to ensure that their future production of opiate raw materials is adjusted to conform to the actual requirements for opiate raw materials worldwide, bearing in mind the current level of global stocks of opiate raw materials, and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

4. *Commends* the International Narcotics Control Board for its efforts in monitoring the implementation of the relevant Economic and Social Council resolutions and, in particular:

(a) In urging the Governments concerned to adjust global production of opiate raw materials to a level corresponding to actual licit needs and to avoid unforeseen imbalances between the licit supply of and demand for opiates caused by the exportation of products manufactured from seized and confiscated drugs;

(b) In inviting the Governments concerned to ensure that opiates imported into their countries for medical and scientific use do not originate in countries that transform seized and confiscated drugs into licit opiates;

(c) In arranging informal meetings, during the sessions of the Commission on Narcotic Drugs, with the main States that import and produce opiate raw materials;

5. *Requests* the International Narcotics Control Board to continue its efforts in monitoring the implementation of the relevant Economic and Social Council resolutions in full compliance with the Single Convention on Narcotic Drugs of 1961 and with that Convention as amended by the 1972 Protocol;

6. *Requests* the Secretary-General to transmit the text of the present resolution to all Governments for consideration and implementation and to report to the Commission on Narcotic Drugs at its forty-seventh session on progress made in the implementation of the present resolution.

The Economic and Social Council,

Taking into account the policies adopted by organizations of the United Nations system concerning the Single Convention on Narcotic Drugs of 1961,¹²¹ that Convention as amended by the 1972 Protocol,¹²² the Convention on Psychotropic Substances of 1971,¹²³ the United Nations Convention against Illicit

Traffic in Narcotic Drugs and Psychotropic Substances of 1988¹²⁴ and the Convention on the Rights of the Child,¹²⁵ in particular article 33 thereof,

Recalling the Political Declaration adopted by the General Assembly at its twentieth special session,¹²⁶ devoted to countering the world drug problem together, the Declaration on the Guiding Principles of Drug Demand Reduction¹²⁷ and the Action Plan for the Implementation of the Declaration on the Guiding Principles of Drug Demand Reduction,¹²⁸

Recalling also that narcotic drugs and psychotropic substances are controlled under the 1961 Convention, that Convention as amended by the 1972 Protocol and the 1971 Convention, which call for the States parties to those conventions to adopt all possible measures to limit the production, manufacture, export, import and distribution of, trade in and use and possession of those drugs for medical and scientific purposes if those States consider that to be the most appropriate means of protecting health and public welfare,

Conscious that increased availability of narcotic drugs and psychotropic substances, without the appropriate controls, could facilitate the diversion of those drugs,

Taking into account the reports of the International Narcotics Control Board for 2001¹²⁹ and 2002,¹³⁰

Bearing in mind that countering the world drug problem is a shared responsibility calling for coordinated action in conformity with the relevant multilateral instruments in force at the international level,

Concerned about the increasing levels of illicit drug consumption, in particular among children, young people and groups at risk of abusing narcotic drugs and psychotropic substances,

Also concerned about the trend towards the development of lenient policies relating to cannabis and other drugs that are not in accordance with international drug control treaties and about the fact that such trends may have a negative impact on efforts being made to eradicate cannabis cultivation and to combat drug trafficking,

1. *Invites* the International Narcotics Control Board to continue to monitor and report on the application of the international drug control treaties by Member States with regard to cannabis and other drugs;

Agreed conclusions of the Commission on the Status of Women on participation in and access of women to the media, and information and communication technologies and their impact on and use as an instrument for the advancement and empowerment of women

The Economic and Social Council,

Endorses the following agreed conclusions adopted by the Commission on the Status of Women at its forty-seventh session with respect to participation in and access of women to the media and on information and communication technologies

and their impact on and use as an instrument for the advancement and empowerment of women:

1. The Commission on the Status of Women recalls and reiterates the strategic objectives and actions of the Beijing Declaration and Platform for Action¹⁵⁶ and the outcome document adopted at the twenty-third special session of the General Assembly entitled “Gender equality, development and peace in the twenty-first century”,¹⁵⁷ on the potential of the media and of information and communications technologies to contribute to the advancement and empowerment of women. It also recalls the United Nations Millennium Declaration¹⁵⁸ and its Development Goals to promote gender equality and the empowerment of women as effective ways to combat poverty, hunger and disease, to stimulate development that is truly sustainable and to ensure that the benefits of new technologies, especially information and communications technologies, are available to all.

2. The Commission notes that, globally, there are substantial differences in participation in, access to and use of media and information and communications technologies, their content and production. Such differences have important implications for policy development at national, regional and international levels. A focus on the gender dimensions of information and communications technologies is essential in order to prevent and combat any adverse impact of the digital revolution on gender equality and the perpetuation of existing inequalities and discrimination, including the sexual exploitation of women both through the traditional media and new technologies. The media and information and communication technologies also offer tools for enhancing women’s full access to the benefits of information and new technologies and can become central tools for women’s empowerment and the promotion of gender equality. Efforts are therefore necessary to increase women’s access to and participation in the media and information and communication technologies, including in their decision-making processes and new opportunities created through information and communication technologies.

3. The Commission welcomes the convening of the World Summit on the Information Society, which is to be held in Geneva in December 2003 and in Tunis in 2005, and urges all participants to take the following recommendations into account and to integrate gender perspectives in every facet of the Summit. It further encourages the participation of women in the Summit, to include significant numbers of gender equality experts and women experts in the field of information and communication technology as members of national delegations, organizations of civil society and the business community.

4. The Commission urges Governments and, as appropriate, the relevant funds and programmes, organizations and specialized agencies of the United Nations system, the international financial institutions, civil society, including the private sector and non-governmental organizations, and other stakeholders, to take the following actions:

(a) Prioritize the integration of gender perspectives and ensure women’s early and full participation in the development and implementation of national

Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations

The Economic and Social Council,

Having examined the report of the Secretary-General¹⁷² and the report of the President of the Economic and Social Council containing the information submitted by the specialized agencies and the international institutions associated with the United Nations on their activities with regard to the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples,¹⁷³

Having heard the statement by the representative of the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples,

Recalling General Assembly resolutions 1514 (XV) of 14 December 1960 and 1541 (XV) of 15 December 1960, the resolutions of the Special Committee and other relevant resolutions and decisions, including in particular Economic and Social Council resolution 2002/30 of 25 July 2002,

Bearing in mind the relevant provisions of the final documents of the successive Conferences of Heads of State or Government of Non-Aligned Countries and of the resolutions adopted by the Assembly of Heads of State and Government of the Organization of African Unity, now the African Union, the South Pacific Forum, now the Pacific Islands Forum, and the Caribbean Community,

Conscious of the need to facilitate the implementation of the Declaration,

Welcoming the participation, in the capacity of observer, of those Non-Self-Governing Territories that are associate members of the regional commissions in United Nations world conferences in the economic and social sphere, subject to the rules of procedure of the General Assembly and in accordance with relevant United Nations resolutions and decisions, including resolutions and decisions of the General Assembly and the Special Committee on specific Territories, as well as in the World Summit on Sustainable Development, held in Johannesburg, South Africa, from 26 August to 4 September 2002,¹⁷⁴

Noting that the large majority of the remaining Non-Self-Governing Territories are small island Territories,

Welcoming the assistance extended to Non-Self-Governing Territories by certain specialized agencies and other organizations of the United Nations system, in particular the United Nations Development Programme,

Stressing that, because the development options of the small island Non-Self-Governing Territories are limited, there are special challenges to planning for and implementing sustainable development and that those Territories will be constrained in meeting the challenges without the continued cooperation and assistance of the specialized agencies and other organizations of the United Nations system,

Stressing also the importance of securing the necessary resources for funding expanded assistance programmes for the peoples concerned and the need to enlist the support of all major funding institutions within the United Nations system in that regard,

Reaffirming the mandates of the specialized agencies and other organizations of the United Nations system to take all the appropriate measures, within their respective spheres of competence, to ensure the full implementation of General Assembly resolution 1514 (XV) and other relevant resolutions,

Expressing its appreciation to the African Union, the Pacific Islands Forum, the Caribbean Community and other regional organizations for the continued cooperation and assistance they have extended to the specialized agencies and other organizations of the United Nations system in this regard,

Expressing its conviction that closer contacts and consultations between and among the specialized agencies and other organizations of the United Nations system and regional organizations help to facilitate the effective formulation of programmes of assistance to the peoples concerned,

Mindful of the imperative need to keep under continuous review the activities of the specialized agencies and other organizations of the United Nations system in the implementation of the various United Nations decisions relating to decolonization,

Bearing in mind the extremely fragile economies of the small island Non-Self-Governing Territories and their vulnerability to natural disasters, such as hurricanes, cyclones and sea-level rise, and recalling the relevant resolutions of the General Assembly,

Recalling General Assembly resolution 57/140 of 11 December 2002, entitled "Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations",

5. *Also reaffirms* that the recognition by the General Assembly, the Security Council and other United Nations organs of the legitimacy of the aspirations of the peoples of the Non-Self-Governing Territories to exercise their right to self-determination entails, as a corollary, the extension of all appropriate assistance to those peoples;

6. *Expresses its appreciation* to those specialized agencies and other organizations of the United Nations system that have continued to cooperate with the United Nations and the regional and subregional organizations in the implementation of General Assembly resolution 1514 (XV) and other relevant resolutions of the United Nations, and requests all the specialized agencies and other organizations of the United Nations system to implement the relevant provisions of those resolutions;

7. *Requests* the specialized agencies and other organizations of the United Nations system and international and regional organizations to examine and review conditions in each Territory so as to take appropriate measures to accelerate progress in the economic and social sectors of the Territories;

8. *Requests* the specialized agencies and the international institutions associated with the United Nations and regional organizations to strengthen existing measures of support and to formulate appropriate programmes of assistance to the remaining Non-Self-Governing Territories, within the framework of their respective mandates, in order to accelerate progress in the economic and social sectors of those Territories;

9. *Recommends* that the executive heads of the specialized agencies and other organizations of the United Nations system formulate, with the active cooperation of the regional organizations concerned, concrete proposals for the full implementation of the relevant resolutions of the United Nations and submit the proposals to their governing and legislative organs;

10. *Also recommends* that the specialized agencies and other organizations of the United Nations system continue to review, at the regular meetings of their governing bodies, the implementation of General Assembly resolution 1514 (XV) and other relevant resolutions of the United Nations;

11. *Welcomes* the continuing initiative exercised by the United Nations Development Programme in maintaining close liaison among the specialized agencies and other organizations of the United Nations system and in providing assistance to the peoples of the Non-Self-Governing Territories;

12. *Encourages* Non-Self-Governing Territories to take steps to establish and/or strengthen disaster preparedness and management institutions and policies;

14. *Recommends* that all Governments intensify their efforts in the specialized agencies and other organizations of the United Nations system of which they are members to accord priority to the question of providing assistance to the peoples of the Non-Self-Governing Territories;

15. *Draws the attention* of the Special Committee to the present resolution and to the discussion held on the subject at the substantive session of 2003 of the Economic and Social Council;

16. *Welcomes* the adoption by the Economic Commission for Latin America and the Caribbean of resolution 574 (XXVII) of 16 May 1998¹⁷⁵ calling for the necessary mechanisms for its associate members, including small island Non-Self-Governing Territories, to participate in the special sessions of the General Assembly, subject to the rules of procedure of the Assembly, to review and assess the implementation of the plans of action of those United Nations world conferences in which the Territories originally participated in the capacity of observer, and in the work of the Economic and Social Council and its subsidiary bodies;

17. *Requests* the President of the Council to continue to maintain close contact on these matters with the Chairman of the Special Committee and to report thereon to the Council;

18. *Requests* the Secretary-General to follow the implementation of the present resolution, paying particular attention to cooperation and integration arrangements for maximizing the efficiency of the assistance activities undertaken by various organizations of the United Nations system, and to report thereon to the Council at its substantive session of 2004;

2003/56 Science and technology for development

I. Technology development, capacity-building for competitiveness in a digital society

The Economic and Social Council,

Welcoming the work of the Commission on Science and Technology for Development on its theme on “Technology development and capacity-building for competitiveness in a digital society”, and noting the findings, which indicate, inter alia, the following:

(a) Information and communication technologies (ICT) create new opportunities to tackle the problems of poverty, poor communications, economic stagnation and environmental degradation. At the same time, they generate new challenges, especially for those countries in which technological capability, skill capacity and supporting infrastructure are not sufficiently developed;

(b) The diffusion of ICT throughout the world is extremely uneven. Many of the developing countries face significant barriers in access to and effective applications of ICT owing to limited telecommunications infrastructure, low computer literacy levels and lack of a regulatory framework;

(c) ICT will continue to play an increasingly important role in development. Most developing countries are not in a position to compete with industrialized countries at the frontier of innovation. The most effective way of raising the level of technology in developing countries is therefore through acquisition of technology from the industrialized countries. The experience of successful economies suggests that foreign direct investment has a crucial role to play in the acquisition of technology by developing countries;

(d) Mere transfer and imports of new technology through foreign direct investment and other channels do not ensure technology acquisition. In order to build capacity to acquire and master technology, it is essential that Governments build a sound human resources capital and put in place credible and more focused long-term policies and regulations that encourage the active international transfer, effective diffusion and development of technology;

(e) In order to facilitate and promote ICT use in developing countries, there is a need for an enhanced partnership between Governments, the private sector, academic institutions and non-governmental organizations;

Heeding the call of the ministerial declaration adopted at the high-level segment of the Economic and Social Council in 2000 to work cooperatively to bridge the digital divide and to foster “digital opportunity”,

Decides to recommend the following actions for consideration by national Governments, the Commission on Science and Technology for Development and the international community:

1. Governments are encouraged to undertake the following actions:

(a) Utilize the benchmarking tools developed by the Commission to assess their progress in ICT development and to establish mechanisms involving all stakeholders for the ongoing review, evaluation and analysis of ICT strategies, programmes and projects, including strategies to facilitate the attraction of foreign direct investment in ICT;

(b) Accelerate investment in ICT human capacity-building and promote computer literacy and lifelong learning;

(c) Build up physical and institutional infrastructure to facilitate ICT development and improve efficiency and transparency through e-government;

(d) Develop policy initiatives in order to facilitate the building of regional level ICT infrastructure;

(e) Develop strategies to facilitate access to and lower costs of ICT hardware and software through providing tax incentives and encouraging the use and further development of free and open source software;

(f) Apply innovative approaches with a focus on shared infrastructure, public access facilities and the use of intermediaries and other services to interact with individuals who may lack functional literacy;

(g) Establish a regulatory framework that supports infrastructure development and accelerate deployment of appropriate and cost-effective technologies;

(h) Promote sustained measures to ensure the mastery and adaptation of technology by creating and/or strengthening local research and development units, promoting foreign direct investment with high-technology content and fostering collaboration in research and development between foreign investors and domestic research institutions;

(i) Develop strategies for local content development, including the use of icon-based programmes and the integration of traditional mass media, print, television and radio, with electronic media;

2. The international community is invited to:

(a) Promote the compilation of more appropriate data on technology indicators, taking into account that there is a lack of data for many developing countries, which typically have a large informal sector so that more accurate ICT and technology development indices could be developed;

(b) Reaffirm the right of developing countries to use to the full the flexibilities provided in international agreements such as the Agreement on Trade-Related Aspects of Intellectual Property Rights;

3. The Commission on Science and Technology for Development is invited to:

(a) Interact closely with the ICT Task Force to promote greater information-exchange and coordination of activities in the field of ICT in order to contribute to the World Summit on the Information Society and, as feasible, update its publication *Knowledge Societies: Information Technologies for Sustainable Development* in order to raise awareness on recent developments in the field of ICT;

(b) Play an active role within the United Nations system in the analysis, promotion and recommendation of applications of science and technology to meet the development goals contained in the Millennium Declaration;

(c) Ensure that the Science and Technology for Development Network¹⁸³ further develops and expands into an inter-agency gateway on information on science and technology activities, which also links information technology networks at the regional, subregional and interregional levels to the network;

(d) Liaise with the United Nations Conference on Trade and Development to further develop its benchmarking tool in ICT, promote its use by other relevant United Nations agencies and consider the possibility of carrying out ICT needs assessment for interested developing countries, in particular least developed countries, to help formulate/update national strategies and action plans for ICT, coordinating efforts with the United Nations Development Programme and other entities carrying out similar work in order to promote complementarity and efficiency.

II. New substantive theme and other activities

The Economic and Social Council,

Welcomes the choice of the theme “Promoting the application of science and technology to meet the development goals contained in the Millennium Declaration for the Commission’s work during the intersessional period 2003-2004. In undertaking work on this theme, the Commission is invited to analyse policies and measures that would lead to:

(a) Improving the policy environment for the application of science and technology to development by identifying potential risks and benefits of new and emerging technologies;

(b) Strengthening basic and applied research in developing countries and international scientific networking;

¹⁸³ <http://ro.unctad.org/stdev/>.

(c) Strengthening technology support institutions and science advisory mechanisms; building human capacity; identifying new technologies and applications; and encouraging international collaboration to support research in neglected fields;

(d) Promoting affordable universal Internet access and building strategic partnerships in the field of science and technology for development and capacity-building for competitiveness “taking care to ensure complementarity with efforts under way by other organizations, such as the United Nations Development Programme, the International Telecommunication Union and the United Nations Information and Communication Technologies Task Force, and to promote efficiency”.

All entities of the United Nations system working in these areas are invited to collaborate and provide input to the work of the Commission on its main theme.

III. Strengthening coordination of science and technology for development in the United Nations system

The Economic and Social Council,

Noting with appreciation the work carried out by the Gender Advisory Board of the Commission, including at the regional and national levels,

Requests the Commission to take into account the need to meaningfully and systematically integrate a gender component into all its programmes and to improve its collaboration with its Gender Advisory Board.

(g) The discussions of the intergovernmental preparatory meeting will be based on the outcome of the review session, reports by the Secretary-General as well as other relevant inputs. Based on those discussions, the Chair will prepare a draft negotiating document for consideration at the policy session;

(h) The Commission's policy sessions, to be held in April/May of the second year of the cycle, will take policy decisions on practical measures and options to expedite implementation in the selected thematic cluster of issues, taking account of the discussions of the intergovernmental preparatory meeting, the Secretary-General's reports and other relevant inputs;

(i) The review sessions and the policy sessions should mobilize further action by all implementation actors to overcome obstacles and constraints in the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, and should address new challenges and opportunities and share lessons learned and best practices;

(j) Specific organizational modalities for Commission meetings will be recommended by the Bureau of the Commission through open-ended and transparent consultations conducted in a timely manner, following the established United Nations rules of procedure. Activities during Commission meetings should provide for balanced involvement of participants from all regions, as well as for gender balance;

3. *Decides*, in order to allow effective consideration of regional and subregional inputs throughout the implementation cycle and to ensure maximum flexibility:

(a) To invite the regional commissions, in collaboration with the secretariat of the Commission on Sustainable Development, to consider organizing regional implementation meetings in order to contribute to the work of the Commission, in accordance with the relevant provisions of the Johannesburg Plan of Implementation and in collaboration with other regional and subregional organizations and bodies, as appropriate, as well as the regional offices of funds, programmes and international finance and trade institutions and other organizations and bodies of the United Nations system. Such meetings should preferably take place before the review session of the Commission on Sustainable Development, and should:

(i) Contribute to advancing the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

(ii) Focus on the thematic cluster of issues to be addressed in the ongoing implementation cycle;

(iii) Provide input to the Secretary-General's reports and the sessions of the Commission on Sustainable Development. Those inputs may include identification of obstacles and constraints, new challenges and opportunities related to the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, and sharing of lessons learned and best practices;

(iv) Provide for contributions from major groups, taking into account paragraphs 139 (g) and 149 (c) and (d) of the Johannesburg Plan of Implementation;

(b) To invite the General Assembly to consider using the resources previously devoted to the former ad hoc intersessional working groups of the Commission on Sustainable Development to support the participation of representatives of member States of the Commission in one of their respective regional meetings in each implementation cycle;

(c) To invite the regional commissions to provide other inputs to the Commission's review and policy sessions and the intergovernmental preparatory meeting;

(d) To invite other regional and subregional bodies and institutions within and outside the United Nations system to contribute to the preparations for the Commission's review and policy sessions and the intergovernmental preparatory meeting;

4. *Recommends* to the General Assembly that resources released by the termination of the work of the Committee on Energy and Natural Resources for Development, whose work has been transferred to the Commission on Sustainable Development, could be used to support the work of the Commission;

5. *Invites* Governments, as well as organizations at all levels and major groups, to undertake results-oriented initiatives and activities that support the Commission's programme of work and promote and facilitate the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation. The results of such initiatives and activities should be an input to the Commission, as appropriate;

6. *Decides* that the results of the Commission's work could also include the sharing of best practices and lessons learned, capacity-building activities, exchange of experiences concerning the implementation of sustainable development strategies, as appropriate, and partnerships that support the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

7. *Also decides* that Commission sessions should include high-level segments, involving ministers or their representatives with responsibilities relevant to the thematic cluster of issues under discussion. The segments should be organized so that ministerial leadership, oversight and guidance in decision-making concerning the outcomes of the sessions would be enhanced. High-level segments should include focused dialogue, with the active participation of agencies, funds, programmes and other organizations of the United Nations system, international finance and trade institutions, and representatives of major groups at the appropriate level, taking into account paragraphs 139 (g) and 149 (c) and (d) of the Johannesburg Plan of Implementation;

8. *Further decides* to organize the periodic consideration of sustainable development themes in regard to the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, including the means of implementation, and invites the Commission to submit recommendations to the Council with regard to such themes, which may include recommendations to assist the Economic and Social Council with its work in the pursuance of paragraph 144 of the Johannesburg Plan of Implementation, including its role in promoting system-wide coordination;

Multi-year programme of work of the Commission for the period after 2003

9. *Decides* to adopt the multi-year programme of work of the Commission for the period after 2003 as outlined in the annex to the present resolution;

10. *Also decides* that the implementation of that programme of work will be guided by the following considerations:

(a) The review and evaluation of the implementation of actions, commitments and targets will be dealt with in accordance with the relevant provisions of Agenda 21, the Programme for the Further Implementation of Agenda 21, the Johannesburg Plan of Implementation and the decisions of the Commission. The thematic clusters should be addressed in an integrated manner, taking into account the economic, social and environmental dimensions of sustainable development. Recognizing that all the issues identified in Agenda 21 and the Johannesburg Plan of Implementation are important, the implementation process should cover all those issues equally, and the selection of some issues during a given cycle does not therefore diminish the importance of the commitments undertaken with respect to the issues to be considered during future cycles;

(b) Means of implementation, as identified in Agenda 21 and chapter X of the Johannesburg Plan of Implementation, should be addressed in every cycle and for every relevant issue, action and commitment;

(c) Other cross-cutting issues, as referred to in the annex to the present resolution, should also be addressed in every cycle;

(d) African and other regional initiatives, as well as initiatives on small island developing States and least developed countries, will be considered in every cycle with respect to all relevant issues, actions and targets;

(e) The Commission should focus on those issues where it can add value to intergovernmental deliberations on cross-sectoral and sectoral issues, in accordance with the provisions of General Assembly resolution 47/191, in particular its paragraphs 3 (h), 21 and 23, as well as 139 (f) of the Johannesburg Plan of Implementation;

(f) The Commission should take into account the outcome of the work of the Ad Hoc Working Group of the General Assembly on the Integrated and Coordinated Implementation of and Follow-up to the Outcomes of Major United Nations Conferences and Summits in the Economic and Social Fields;

(g) The Commission may decide to incorporate new challenges and opportunities related to implementation into its multi-year programme of work;

* * *

11. *Emphasizes* that in order to enable the Commission to perform the relevant requirements provided for in chapter 11 of the Johannesburg Plan of Implementation, in particular its paragraphs 145, 147 and 148, an effective system of reporting is essential for reviewing, evaluating and monitoring progress in the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, sharing of lessons learned and best practices, as well as identifying actions taken, opportunities for and obstacles and constraints to implementation;

12. *Encourages* countries to present, on a voluntary basis, national reports, in particular to the Commission's review sessions, focusing on concrete progress in implementation, including achievements, constraints, challenges and opportunities;

13. *Also encourages*, with the purpose of implementing paragraphs 130 and 131 of the Johannesburg Plan of Implementation and paragraph 3 of Commission decision 9/4, further work on indicators for sustainable development by countries at the national level, including integration of gender aspects, on a voluntary basis, in line with national conditions and priorities, and requests the Secretary-General to consider progress made in that regard, including further work on the above-mentioned indicators, in reporting to the Commission, as appropriate;

14. *Underscores* that reporting to the Commission should be guided by the following considerations:

(a) Reporting should reflect the overall progress made on the three dimensions of sustainable development, focusing on the thematic cluster of issues for the cycle, and should include inputs from all levels, as appropriate, including the national, subregional, regional and global levels, and drawing on those sources listed in paragraph 2 (c) (ii-iv) above;

(b) The existing reporting systems should be used to the fullest extent possible and will be expected to provide the bulk of information required;

(c) Reporting should focus on concrete progress in implementation, taking into account the three dimensions of sustainable development and their integration, and should include information-sharing, lessons learned, progress made and best practices, identifying actions taken, constraints, challenges and opportunities;

(d) The effective use of indicators, as described in paragraph 13 above;

(e) Country reporting should provide information on the status of national strategies for sustainable development;

15. *Requests* the secretariat of the Commission, working in close cooperation with other organizations of the United Nations system, to:

(a) Take measures to streamline reporting in order to avoid duplication and unnecessary burden on States, including in accordance with the Secretary-General's report on United Nations reform;

(b) Provide focused information that highlights relevant trends, constraints, challenges and emerging issues;

(c) Provide technical assistance to countries, upon their request, in national reporting through regular and extrabudgetary sources;

16. *Invites* the secretariat of the Commission to improve national reporting guidelines and questionnaires with the intention of making reporting more efficient and less burdensome on countries and more focused on implementation, bearing in mind the provisions of the present resolution, in consultation with Governments, United Nations organizations and secretariats of multilateral environmental agreements, and to report to the Commission for its consideration;

* * *

17. *Invites*, further to paragraph 140 of the Johannesburg Plan of Implementation, relevant United Nations agencies, programmes and funds, the Global Environment Facility, and international and regional financial and trade institutions, within their mandates, to participate actively in the work of the Commission in order to inform it of their activities designed to further the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation. To that end, it is essential to undertake further measures to:

(a) Promote stronger linkages between global, regional and country-level implementation measures;

(b) Strengthen coherence and collaboration within and between organizations;

(c) Identify areas where further implementation measures may be required in order to improve progress;

(d) Mobilize and increase the effective use of resources from all sources for implementation;

(e) Enhance collaboration and coordination in all areas, including information exchange and knowledge-sharing on all aspects of the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

18. *Requests* the Secretary-General, taking into account the ongoing process of United Nations reform and utilizing the United Nations System Chief Executives Board for Coordination, including through informal collaborative efforts, to further promote system-wide inter-agency cooperation and coordination to enhance the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, and to report on its activities to the Economic and Social Council and the Commission;

19. *Requests* the Secretary-General, pursuant to General Assembly resolution 57/253, to include in his report proposals outlining an integrated and comprehensive response of the United Nations system to sustainable development, taking into account the work of the Open-Ended Ad Hoc Working Group of the General Assembly on the Integrated and Coordinated Implementation of and Follow-up to the Outcomes of Major United Nations Conferences and Summits in the Economic and Social Fields;

* * *

20. *Decides* that contributions to the Commission from major groups, including the scientific community and educators, taking into account paragraphs 139 (g) and 149 (c) and (d) of the Johannesburg Plan of Implementation, while following the established rules of procedure and practices of the Commission, should be further enhanced, taking into account chapter XI of the Johannesburg Plan of Implementation, through such measures as:

(a) Strengthening major group involvement in the activities of the Commission, including through the participation of representatives from major groups at the appropriate level in an interactive dialogue during high-level

segments, taking into account paragraphs 139 (g) and 149 (c) and (d) of the Johannesburg Plan of Implementation;

(b) Making multi-stakeholder dialogues more action and implementation-oriented;

(c) Enhancing the participation and effective involvement of civil society and other relevant stakeholders in the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, as well as promoting transparency and broad public participation;

(d) Striving for a better balance and better representation of major groups from all regions at the Commission;

(e) Active involvement in partnership-related and capacity-building activities at all levels, including the partnerships fairs and learning centres organized as part of the meetings of the Commission;

* * *

21. *Recalls* that the Johannesburg Plan of Implementation designated the Commission to serve as the focal point for discussion on partnerships that promote sustainable development, and reiterates that partnerships, as voluntary multi-stakeholder initiatives, contribute to the implementation of intergovernmental commitments in Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation. They are a complement to, but not intended to substitute for, those commitments;

22. Stresses that partnerships in the context of the World Summit on Sustainable Development process and its follow-up should be developed and implemented in accordance with the following criteria and guidelines, taking note in that regard of the preliminary work undertaken on partnerships during the preparatory process for the Summit, including the Bali guiding principles, and General Assembly resolution 56/76 of 11 December 2001:

(a) Partnerships are voluntary initiatives undertaken by Governments and relevant stakeholders, such as major groups and institutional stakeholders;

(b) Partnerships should contribute to the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, and should not divert resources from the commitments contained in those agreements;

(c) Partnerships are not intended to substitute commitments made by Governments but to supplement the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

(d) Partnerships should add concrete value to the implementation process and should be new, that is, they should not merely reflect existing arrangements;

(e) Partnerships should bear in mind the economic, social and environmental dimensions of sustainable development in their design and implementation;

(f) Partnerships should be based on predictable and sustained resources for their implementation, should include the mobilization of new resources and, where

relevant, should result in the transfer of technology to, and capacity-building in, developing countries;

(g) It is desirable that partnerships have a sectoral and geographical balance;

(h) Partnerships should be designed and implemented in a transparent and accountable manner. In that regard, they should exchange relevant information with Governments and other relevant stakeholders;

(i) Partnerships should be publicly announced with the intention of sharing the specific contribution that they make to the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

(j) Partnerships should be consistent with national laws and national strategies for the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, as well as the priorities of countries where their implementation takes place;

(k) The leading partner of a partnership initiative should inform the national focal point for sustainable development of the involved country/countries about the initiation and progress of the partnership, and all partners should bear in mind the guidance provided by Governments;

(l) The involvement of international institutions and United Nations funds, programmes and agencies in partnerships should conform to intergovernmentally agreed mandates and should not lead to the diversion to partnerships of resources otherwise allocated for their mandated programmes;

23. *Decides* that providing information and reporting by partnerships registered with the Commission should be transparent, participatory and credible, taking into account the following elements:

(a) The registration of partnerships should be voluntary and should be based on written reporting to the Commission, taking into account the provisions specified above. Reporting by partnerships should focus on their contribution to the implementation of the goals, objectives and targets of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

(b) Partnerships should submit a regular report, preferably at least on a biennial basis;

(c) The Secretariat is requested to make information available on partnerships, including their reports, through a database accessible to all interested parties, including through the Commission web site and other means;

(d) The Secretariat is requested to produce a summary report containing synthesized information on partnerships for consideration by the Commission, in accordance with its programme and organization of work, noting the particular relevance of such reports in review years;

(e) The Commission, during review years, should discuss the contribution of partnerships towards supporting the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation with a view to sharing lessons learned and best practices,

identifying and addressing problems, gaps and constraints, and providing further guidance, including on reporting, during policy years, as necessary;

24. *Calls* for activities aimed at strengthening partnerships in the context of the Summit process and its follow-up and facilitating new ones, including through such initiatives as partnerships fairs and learning centres, mindful of the importance of sharing information on existing activities, particularly across the United Nations system.

Having considered the report of the Secretary-General on the work of the Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals²⁰⁹ during the biennium 2001-2002,

A

Work of the Committee regarding the transport of dangerous goods

Recognizing the importance of the work of the Committee for the harmonization of codes and regulations relating to the transport of dangerous goods,

Bearing in mind the need to maintain safety standards at all times and to facilitate trade, as well as the importance of this to the various organizations responsible for modal regulations, while meeting the growing concern for the protection of life, property and the environment through the safe transport of dangerous goods, including their security in transport,

Noting the increasing volume of dangerous goods being introduced into worldwide commerce and the rapid expansion of technology and innovation,

1. *Expresses its appreciation* for the work of the Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals with respect to matters relating to the transport of dangerous goods, including their security in transport;

B

Work of the Committee regarding the Globally Harmonized System of Classification and Labelling of Chemicals

Bearing in mind that, pursuant to paragraph 19.27 of Agenda 21,²¹³ the Inter-Organization Programme for the Sound Management of Chemicals has cooperated for a decade with the International Labour Organization, the Organisation for Economic Cooperation and Development and the Subcommittee of Experts on the Transport of Dangerous Goods to develop a globally harmonized hazard classification and compatible labelling system for chemicals,

Bearing in mind also that the Subcommittee of Experts on the Globally Harmonized System of Classification and Labelling of Chemicals was created pursuant to resolution 1999/65 to make the Globally Harmonized System available worldwide, to keep it up-to-date and to promote and monitor its implementation,

Noting with satisfaction that the Committee could reach consensus on the Globally Harmonized System after consideration of a draft consolidated by the Inter-Organization Programme for the Sound Management of Chemicals on the basis of input from the Subcommittee of Experts on the Transport of Dangerous Goods, the International Labour Organization and the Organisation for Economic Cooperation and Development,

Aware that the World Summit on Sustainable Development at its 2002 session in Johannesburg, in paragraph 23 (c) of its Plan of Implementation,²¹⁴ encouraged countries to implement the Globally Harmonized System as soon as possible with a view to having the system fully operational by 2008,

Also aware that the General Assembly, by its resolution 57/253 of 20 December 2002, endorsed the Johannesburg Plan of Implementation and requested the Economic and Social Council to implement the provisions of the Plan relevant to its mandate and, in particular, to promote the implementation of Agenda 21 by strengthening system-wide coordination,

Further aware of and recognizing the significance of the United Nations Institute for Training and Research/International Labour Organization/Organisation for Economic Cooperation and Development Global Partnership for Capacity-Building to Implement the Globally Harmonized System for building capacities at all levels to achieve the 2008 target,
