Vicho Grancharov Secondary School

Vicho Grancharov Secondary School is founded in 1822 and is one of the leading schools in Gorna Oryahovitsa. There are 741 students and 90 staff.

Students, 1-12 grade, have a variety of majors, they can choose from. The school is famous for its music and art majors. The talented students take part in many competitions and get prizes, experience and establish new contacts. The linguistic major gives the students the opportunity to learn new languages as well as to get acquainted with the traditions, culture, way of life of the countries whose languages they are studying at school. We organize different kinds of activities to achieve this – we celebrate their holidays, have culture lessons, read literary works of their most noted writers. As our world is developing, we would like to give our students the best opportunities to succeed and develop. That is why the ICT major is an important part of the education in Vicho Grancharov School.
