Wendy Weng

UIS Workshop on Education Statistics

Windhoek, 17-21 October, 2010

What is UIS Data Centre?

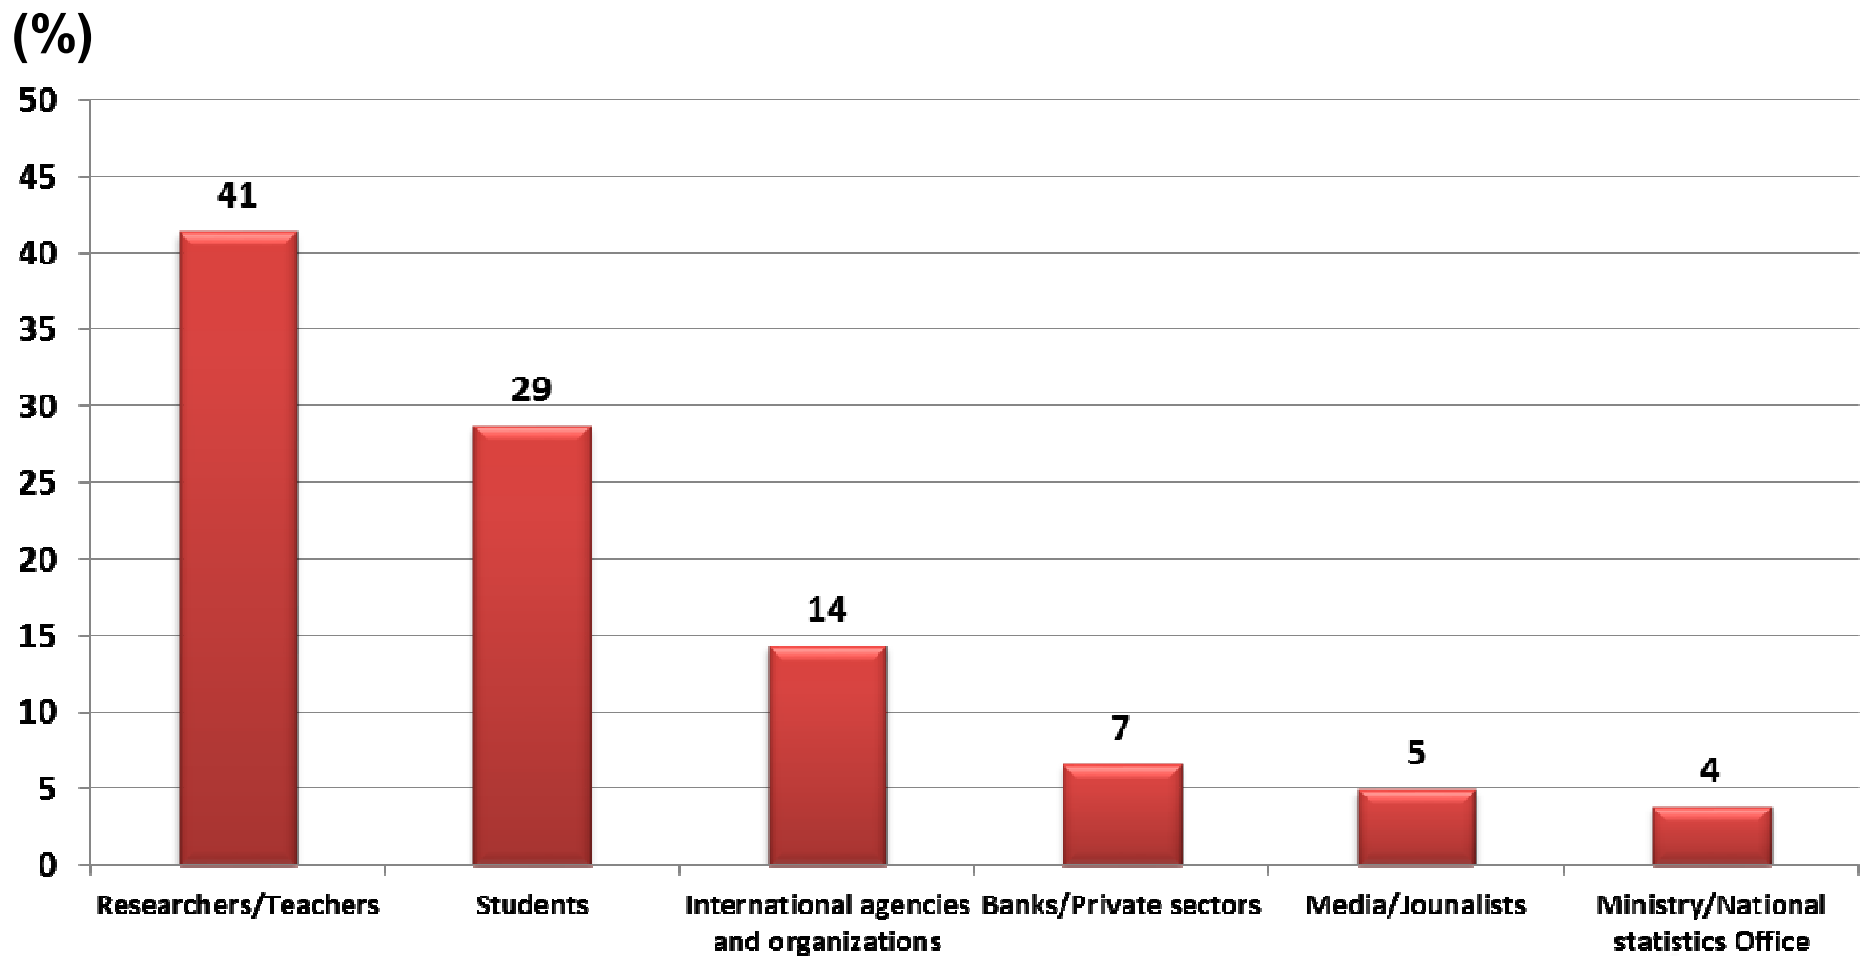

Outline

- Introduction to UIS Data Centre
- Data Centre navigation
- Hands-on exercise

Introduction to UIS Data Centre

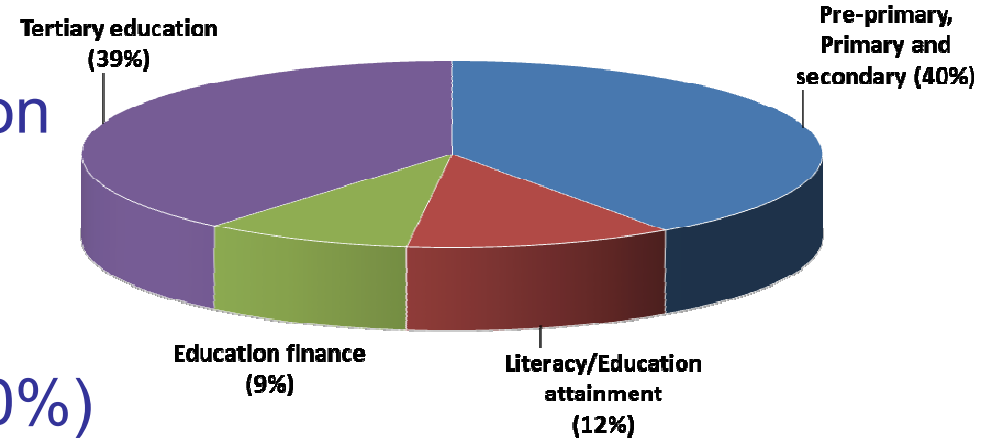

- Access through UIS website free of charge
- Over 1000 data and indicators on education for more than 200 member states
- Global Education Digest as a subset
- Complete time series data from 1999 to the most recent year
- Updated three times a year (January, April and October)

Who use Data Centre?

What is the interest?

- **Pre-primary, Primary and Secondary education**
 - Statistics on access and participation (58%)
 - Progression and completion (19%)
- **Tertiary education**
 - Statistics on enrolment (40%)
 - Internationally mobile students (18%)
 - Statistics on graduates (15%)

Data Centre navigation

- How to build data tables?
- How to modify elements in data table?
- How to change table format?
- How to save and export data tables?
- Self-help features

UNESCO Institute for Statistics

UNESCO Institute for Statistics

Global and internationally comparable statistics on education, science, culture and communication.

News Article

Open-house at the UIS on World Statistics Day - []
2010-10-12 1:00 pm To mark the first World Statistics Day on 20 October 2010, the UIS is inviting researchers and students to attend a series of presentations about international statistics and how they can be used for research and policy-making purposes. >>More

World Teachers' Day 2010 - []
2010-09-20 2:00 pm According to **new UIS projections**, 99 countries will need at least 1.9 million more teachers in classrooms by 2015 than in 2008 to provide quality primary education for all. More than half of the additional teachers are needed in sub-Saharan Africa. >>More

Measuring R&D: Challenges Faced by Developing Countries - []
2010-09-22 8:00 pm A new guide for developing countries on how to apply international standards in the production of research and experimental development (R&D) statistics. >>More

More than 40% of countries provide girls and boys equal access to education, according to Global Education Digest - []
2010-09-13 5:00 pm Two out of three countries in the world face gender disparities in primary and secondary education and as many as half will not achieve the goal of gender parity in education by 2015, according to a new report by the UIS. >>More

International Literacy Day celebrated on September 8 - []
2010-09-02 9:00 pm This year's events highlight the critical role that literacy plays in empowering women, who make up 64% of the adult population who are unable to read and write. >>More

Science and technology (S&T) data update - []
2010-06-26 2:00 pm More recent statistics on S&T are now available in the **UIS Data Centre**. >>More

Data Centre

Access data and build your own statistical tables related to UNESCO's fields of action.

The Data Centre contains over 1,000 types of indicators and raw data on education, literacy, science and technology, culture and communication.

The UIS collects the data for more than 200 countries from Member States and international organizations.

All Data

Predefined Tables

Prepared by the UIS to address popular data requests. Easily modify these tables to meet your specific needs. A **tutorial** is available.

Custom Tables

Build your own table for greater flexibility. Select countries, indicators, and years.

Summary Data

Profiles

For easy access to key statistics and indicators, consult these overviews for countries and regions.

Global Rankings

Compare countries in a specified region according to key indicators in several fields.

Glossary

Change language to English

The UIS Glossary contains Education terms in English, French, Spanish, and Arabic. For some terms, only the name translation is available while for others (e.g. indicators) there is more information. Indicators are marked with an asterisk (*).

This Glossary is intended to be a dynamic document, i.e. it will be updated as new terms or indicators are used in UIS publications, and if corrections are made to the existing terms. In order to enrich the Glossary and to improve its quality, the users are invited to send their comments and suggestions to the following focal point: Redouane Assad, r.assad@uis.unesco.org

Change language to

Glossary

GROSS ENROLMENT RATIO (GER)

Definition

Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year. For the tertiary level, the population used is that of the five-year age group following on from the secondary school leaving.

Purpose

To show the general level of participation in a given level of education. It indicates the capacity of the education system to enrol students of a particular age group. It can also be a complementary indicator to net enrolment rate (NER) by indicating the extent of over-aged and under-aged enrolment.

Calculation method

Divide the number of pupils (or students) enrolled in a given level of education regardless of age by the population of the age group which officially corresponds to the given level of education, and multiply the result by 100.

Formula

$$GER_h^t = \frac{E_h^t}{P_{h,a}^t} * 100$$

Where:

GER_h^t = Gross Enrolment Ratio at level of education h in school-year t

E_h^t = Enrolment at the level of education h in school-year t

$P_{h,a}^t$ = Population in age-group a which officially corresponds to the level of education h in school-year t

Example: If the entrance age for primary education is 7 years with a duration of 6 years then a is (7-12) years.

Data required

Total enrolment for a given level of education. Population of the age group corresponding to the specified level.

Data source

School register, school survey or census for data on enrolment by level of education. Population censuses or estimates for school-age population normally obtained from the
