Abridged Filing plan for the official dossiers
in use by the Secretariat of Unesco
2nd revised Edition

The following pages contain the abridged filing plan, established for the official dossiers of the Secretariat (pages 2 - 16). It has been extracted from the Universal Decimal Classification.

Because departments asked for a great and ever growing-number of greatly varying subdivisions within these general numbers, these subdivisions have been standardized as shown in the list of auxiliary numbers (pages 17 - 28). These are used with the general number and are separated from it by the letter A.

A third list (pages 29 - 36) gives the geographical subdivisions, applied when necessary, and which equally have been taken from the UDC.

Finally an alphabetical index on the main subjects has been added on pages 37 - 57.

N O T E

A number in the Filing plan preceded by - indicates that the dossier mentioned has not been subdivided.

A number in the Filing plan preceded by + indicates that no dossier exists under the title mentioned, but only subdivisions.

Numbers in the Filing plan not preceded by any sign indicate dossiers with subdivisions.
