

Report on the 1st Moldovan Workshop on CDIS UNESCO

The 1st National Moldovan Workshop on CDIS UNESCO was held on the 8th of June 2015 at the National Museum of Fine Arts from Moldova. Its goal was to consolidate the National team that will calculate the Indicators and to know better the institutions that will be the key sources of information during the calculation.

The Workshop began with an introductory speech provided by Mr. Andrei Chistol, State Secretary in the Ministry of Culture. The CDIS history, dimensions, methodology etc. were described by Ms. Vera Erhan, Head of the Policies analysis, monitoring and evaluation Department, and by Mr. Orest Dabija, Head of the International Cooperation Department. The National Team was also presented the work schedule and the potential impact of this new approach regarding culture for development. The majority of the questions put by the participants were related to the economic and educational aspects. Many of them feared that the statistical data is irrelevant when speaking about culture, and expected to see a direct impact of CDIS on the national statistics. Before the closing of the workshop, there were formed groups on several dimensions of the CDIS, and the representatives from the Ministry of Culture tried to explain better the methodology of calculation of the indicators on each of the 7 dimensions. It was decided that once in two weeks a meeting would take place at the Ministry of Culture in order to evaluate the progress of the national team.

Afterwards, a press release of the Ministry of Culture was published on its official web page, and an official document regarding the team from the Ministry of Culture was signed by Deputy Minister, Mr. Igor Sarov.

This report includes a table of participants, the schedule and the responsibilities of each member of the national team.
