Item 56 of the provisional agenda

REPORT BY THE DIRECTOR-GENERAL ON THE IMPLEMENTATION OF THE PARTICIPATION PROGRAMME AND EMERGENCY ASSISTANCE

SUMMARY

The Director-General submits this document to the Executive Board in accordance with paragraph 2(c) of Part II of 33 C/Resolution 60 of the General Conference. The document contains a list of the requests approved as of 10 July 2007 and includes three annexes:

Annex I

A list of the projects approved for Member States and Associate Members under the Participation Programme and under emergency assistance, together with the amounts approved to finance them.

Annex II

A list of the projects approved for international non-governmental organizations (INGOs) maintaining official relations with UNESCO, together with the amounts approved to finance them.

Annex III

A list of the contributions collected from Member States, concerned Associate Members and various international non-governmental organizations.

1. In 33 C/Resolution 60, Part II, paragraph 2(c), the General Conference invited the Director-General "to provide to the Executive Board at every autumn session a report including the following information:

- (i) a list of applications for contributions from the Participation Programme received in the Secretariat;

- (ii) a list of the projects approved under the Participation Programme and those under emergency assistance, together with the amounts approved to finance them, and any other cost and support connected with them;
- (iii) a list of international non-governmental organizations along the same lines as that provided for countries in (ii) above”.

This document therefore takes into account the situation concerning the requests approved by the Director-General as of 10 July 2007, for Member States, Associate Members, other territories and international non-governmental organizations for the 2006-2007 biennium. Of the requests received during this biennium, only those relating to the priorities set by the Organization have been approved by the Director-General, following evaluation and recommendation by the Intersectoral Committee on the Participation Programme.

2. Under the Participation Programme, 1,732 requests representing a total of US \$40,226,017 have been received for the present biennium, of which 866 requests worth \$15,244,625 have been approved by the Director-General (excluding emergency assistance) and 64 requests have not been approved. This amount breaks down as follows:

- Member States and Associate Members: \$14,301,025 for 804 requests approved; 60 requests have not been approved
- International non-governmental organizations \$943,600 for 62 requests approved; four requests have not been approved

From January 2006 to the end of June 2007, 32 requests for emergency assistance, amounting to \$1,063,300 were approved.

3. Further to the Director-General's appeal for member countries of the Development Assistance Committee of the Organisation for Economic Co-operation and Development (OECD) to refrain from submitting project funding requests under the Participation Programme, the following Member States responded positively: Belgium, Canada, Finland, Greece, Ireland, Italy, Japan, Luxembourg, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom of Great Britain and Northern Ireland, and United States of America. India also heeded the call. This remarkable show of solidarity thus resulted in more funds being available for the countries most in need, particularly the least developed countries (LDCs).

4. Several Member States with outstanding financial and progress reports have not met their accountability obligations and so cannot be provided with the funds allocated for the current biennium. In addition, some Member States have been audited by the Internal Oversight Service (IOS) and must either submit to the Secretariat additional supporting documents that are lacking (invoices, receipts, contracts, etc.) or repay UNESCO. The Secretariat was thus able to secure the repayment to UNESCO via bank transfers or cheques of close to \$2,100,000 from audits and unexecuted projects or the remaining balance from partially executed projects as of 2003. The table presenting the amounts collected from Member States, concerned Associated Members and various international non-governmental organizations is shown in Annex III to this document.

5. As authorized under the resolution on the Participation Programme (33 C/Resolution 60, B, para. 14 (a)), in certain exceptional cases or in unavoidable circumstances, the Director-General decided on the most appropriate way to handle requests under this programme for Cambodia, Ghana (whose requests will be implemented by UNESCO Dakar), Ecuador and Fiji, and duly informed the Executive Board.

6. The tables presented below show the breakdown of requests according to programme sectors, regions, the four groups or regions mainstreamed throughout all UNESCO programmes,

which are: Africa, women, youth and the least developed countries (LDCs), and the situation concerning emergency assistance.
