**Subject: UNESCO/Israel Co-Sponsored Fellowships for  
Post Doctoral Studies - 2009 Cycle**

---

Madam/Sir,

On behalf of the Director-General and the Government of Israel, I have pleasure in informing you that, within the framework of UNESCO's Co-Sponsored Fellowships Scheme, Israel has generously offered 10 fellowships to be awarded to post-doctoral candidates from developing countries interested in undertaking research in universities/institutions in Israel. It is hoped that in this manner impetus can be given to research in all fields of study and to promoting the active involvement of deserving young candidates in research that can contribute to the solution of the problems of contemporary society.

Aware of your Government's interest in the strengthening and the enhancement of the role of the academic community, we are confident that it will attach great importance to these fellowships and will be in a position to disseminate this offer widely. It would be appreciated if you could transmit this offer to interested governmental and non-governmental bodies. In particular, scientific research institutes and institutes of higher education should be encouraged to nominate meritorious candidates through your National Commission.

The target group, eligibility criteria, conditions for application, application procedures and terms of the fellowships are detailed in Annex I. Please refer to Annex II for the list of the Universities/Institutes hosting these fellowships in Israel.

This programme is offered in open competition. The number of fellowships put at the disposal of UNESCO under this programme being

limited, only candidates with the necessary qualifications will have a chance to be selected. It should be emphasized that the research fellowships are intended for persons who demonstrate outstanding intellectual promise, imagination and personal commitment, and who may be expected to make significant contribution to their country. Special attention will be paid to applications on behalf of young women and to candidatures from the least developed countries.

Owing to the fact that English will be the medium of communication in the host institutions in Israel, this letter is available in English ONLY. Please note that all applications should be addressed to the chosen university (see Annex III). Only applicants approved by the Israeli universities concerned are required to submit their dossiers to UNESCO. As the deadline set for this submission is **30 October 2009**, potential candidates are encouraged to send their application files to the chosen university as soon as possible (i.e., at least one month before this date).

I am confident that this joint UNESCO/Israel venture will serve to strengthen UNESCO's efforts to encourage the participation of young professionals in global development issues.

Please accept, Madam/Sir, the assurances of my highest consideration.
