

1. Patrimonita lifts off into space, starting a new adventure. (Rocket blasts off)

2. The Great Barrier Reef is the only living organism collective, visible from Earth's orbit! (Zoom in on Earth)

3. The Great Barrier Reef, off the east coast of Australia. (Zoom in on Australia, Great Barrier Reef)

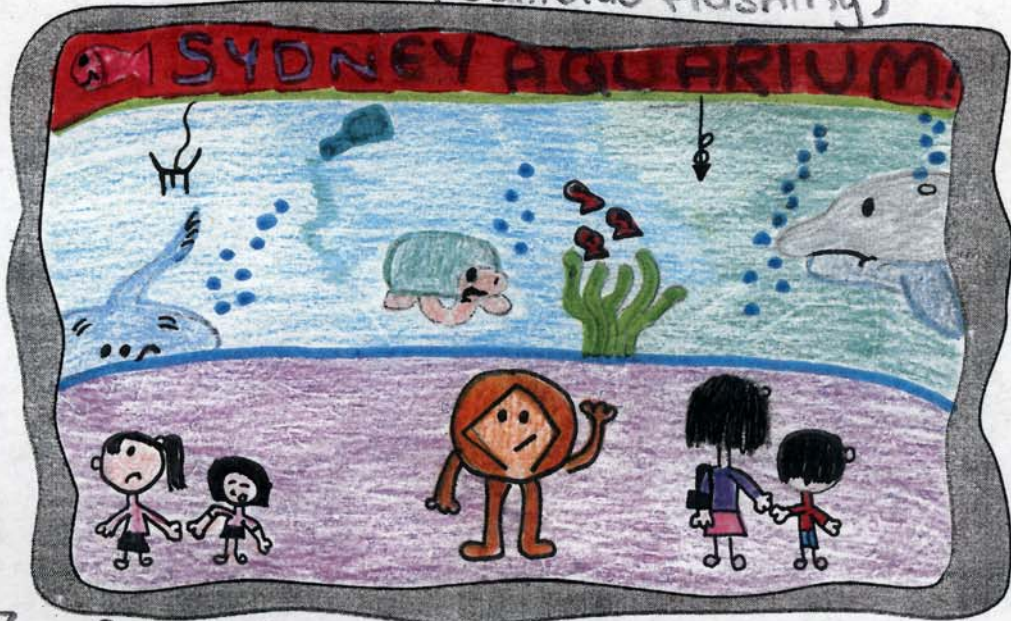

4. A hot spot for tourist attractions. (Zoom in on Patrimonita)

5. The coral is so beautiful and healthy it attracts many scuba-divers (cameras flashing)

6. The Great Barrier Reef is home to many species of coral and marine life.

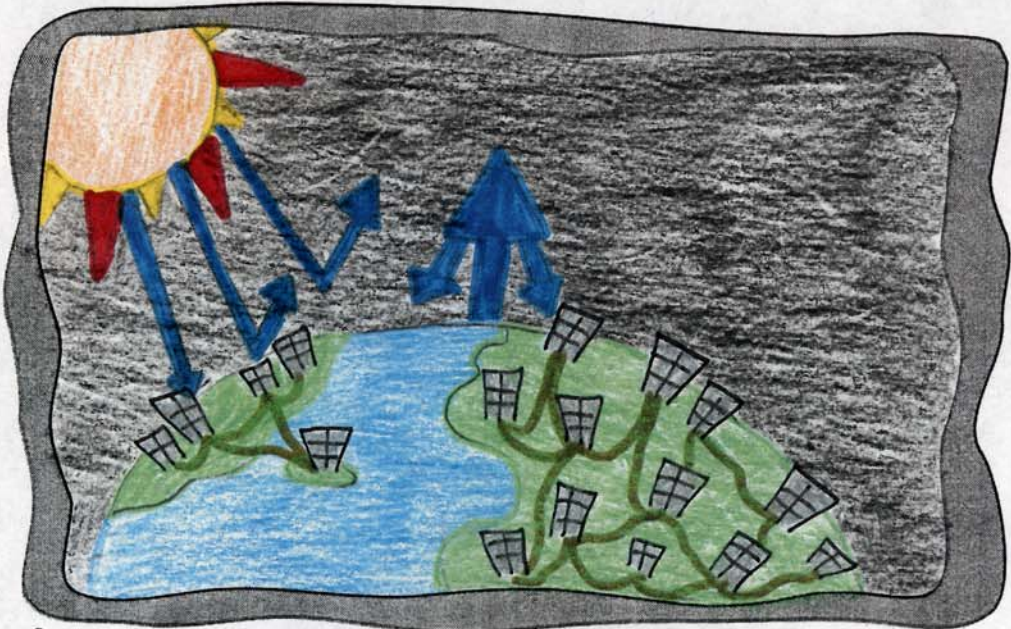

7. But this is rapidly changing. The reef is suffering from coral bleaching and other negative impacts

8. POLLUTION

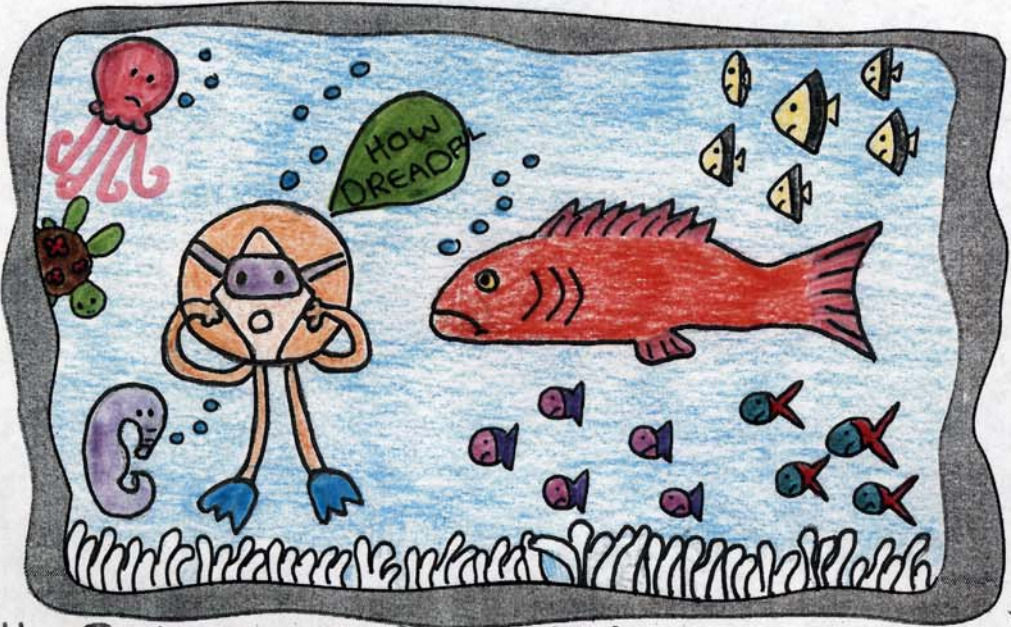

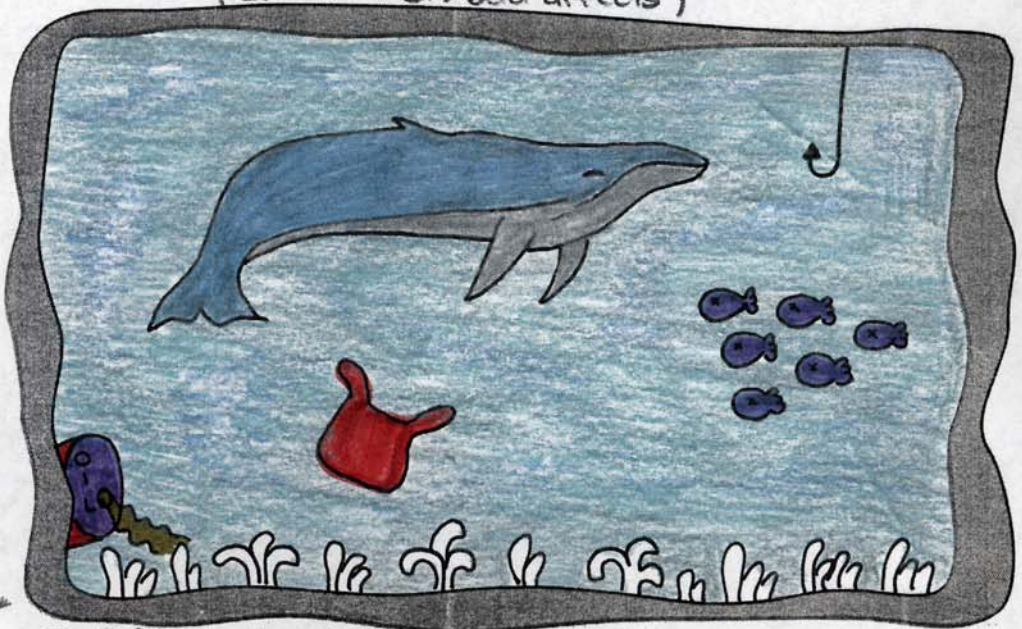

9. GLOBAL WARMING

10. Did you ever realise that some things that you do at home can affect the Great Barrier Reef?
(zoom in on bad affects)

11. In the meantime Patrimonito finds that the fish are also suffering from coral bleaching, their main source of food is coral (Patrimonito talks to the ...)

12. If we don't do SOMETHING SOON the reef may end up this. (whale moaning)

3. We need to think of a plan to save the reef. We have to act NOW! (Patrimonito thinks)

14. The number one solution is to reduce POLLUTION!
(Patrimonito gets an idea! Light bulb Po)

15. Every little thing you do counts! So get out there and help save the reef.

16. If we all make a change we can prevent coral bleaching and save them for future generations.
