HSR 2018: 5th Global Symposium on Health Systems Research

Quando:

Segunda-feira, Outubro 8, 2018 - Sexta-feira, Outubro 12, 2018

Onde:

Liverpool, UK

Advancing health systems for all in the SDG era

The Alma Ata vision of 'Health for All' remains as compelling today as it was in 1978, as reflected in goal 3 of the Sustainable Development Goals (SDGs). But the world has changed in forty years. Despite improved health outcomes, there remain extraordinary challenges for health equity and social inclusion, such as demographic and disease transitions, conflicts and their subsequent migrations, pluralistic health systems and markets, and climate change. Political systems still marginalize those most in need. Yet there are new opportunities for health systems to achieve universal coverage. The Fifth Global Symposium will advance conversations and collaborations on new ways of financing health; delivering services; and engaging the health workforce, new social and political alliances, and new applications of technologies to promote health for all.
