

**PERIODIC REPORTING EXERCISE
ON THE APPLICATION OF THE WORLD
HERITAGE CONVENTION**

SECTION II

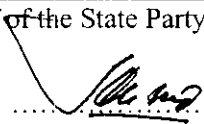

State of Convention of specific World Heritage properties

State Party : Republic of Indonesia

Property Name : Prambanan Temple Compound

Periodic Reporting Exercise on the Application of the World Heritage Convention
Section II: State of conservation of specific World Heritage properties

II.1. Introduction

a.	Country (and State Party if different): The Republic of Indonesia	001
b.	Name of World Heritage property: Prambanan Temple Compound	002
c.	<p>In order to locate the property precisely, please attach a topographic map showing scale, orientation, projection, datum, site name, date and graticule. The map should be an original print and not be trimmed. The site boundaries should be shown on the map. In addition they can be submitted in a detailed description, indicating topographic and other legally defined national, regional, or international boundaries followed by the site boundaries.</p> <p>The State Parties are encouraged to submit the geographic information in digital form so that it can be integrated into a Geographic Information System (GIS).</p> <p>On this questionnaire indicate the geographical co-ordinates to the nearest second (in the case of large sites, towns, areas etc., give at least 3 sets of geographical co-ordinates):</p> <p>Centre point: 7°44'54'' Southern Latitude and 110°29'07'' Eastern Longitude</p> <p>North-west corner: 7°47'02'' Southern Latitude and 110°30'43'' Eastern Longitude</p> <p>South-east corner: 7°45'07'' Southern Latitude and 110°29'25'' Eastern Longitude</p>	003
d.	<p>Give the date of inscription on the World Heritage List and subsequent extension (if applicable):</p> <p>13 December 1991</p>	004
e.	<p>Organisation(s) or entity(ies) responsible for the preparation of this report.</p> <p>Organisation(s) / entity(ies): Development of Culture and Tourism Board. Deputy of Development and Preservation of Culture.</p> <p>Person(s) responsible: Dr. I Gusti Ngurah Anom</p> <p>Address: 4th floor, E Building, Komp. Depdiknas . Jl. Jend. Sudirman. Senajan</p> <p>City and post code: Jakarta 10270</p> <p>Telephone: 062 21 5725035</p> <p>Fax: 062 21 5725578</p> <p>E-mail: anom@depbudpar.go.id</p>	005
f.	<p>Date of preparation of the report:</p> <p>2 October 2002</p>	006
g.	<p>Signature on behalf of the State Party</p> <p>Signature: </p> <p>Name: Dr. I Gusti Ngurah Anom</p> <p>Function: Deputy for Development and Preservation of Culture</p>	007

If the space on the Questionere is not sufficient, please continue on a separate page, Clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

II.2. Statement of significance

<p>At the time of inscribing a property on the World Heritage List, the World Heritage Committee indicates its outstanding universal value(s), or World Heritage value(s), by deciding on the criteria for which the property deserved to be included on the World Heritage List. Circle the criteria retained for the inscription: Cultural criteria: (i) - ii - iii - (iv) - v - vi Natural criteria: i - ii - iii - iv</p>	008
<p>Were new criteria added by re-nominating and/or extending the property after the original inscription? YES / NO</p>	009
<p>If YES, please explain: -</p>	010
<p>Please quote observations concerning the property made by the Advisory Body(ies) during the evaluation of the nomination: -</p>	011
<p>Quote the decisions and observations / recommendations, if appropriate, made by the World Heritage Committee at the time of inscription and extension (if applicable): -</p>	012
<p>Identify the actions taken as follow-up to these observations and/or decisions: -</p>	013

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
Section II: State of conservation of specific World Heritage properties

II.2. continued

Please propose a statement of significance by providing a description of the World Heritage value(s) for which the property was inscribed on the World Heritage List. This description should reflect the criterion (criteria) on the basis of which the Committee inscribed the property on the World Heritage List and it should also detail what the property represents, what makes it outstanding, what the specific values are that distinguish the property as well as what its relationship with its setting is, etc.:

014

Prambanan temple compound consist of Prambanan Temple (candi Lorojonggrang), Sewu Temple, Bubrah Temple, and Lumbung Temple. Prambanan Temple itself is a complex consisting of 240 temples. In the first temple yard, on the innermost part there are main temple complex consisting of Siwa Temple, Brahma Temple, Wisnu Temple, 3 Temples of Wahana, 2 Temples of Apit, 4 Temples of Kelir and 4 Temples of Sudut. On the second yard there are 224 perwara temples. The third yard, until now has not been completely excavated, however, it appears that there is no evidence for the existence of a temple.

Lorojonggrang Temple was constructed during the first part of the ninth century. It is largest ninth century Siva ensemble in Indonesia; the height of the main temple being 47 meter. Its temples are extensively adorned with reliefs illustrating the life of thirth century Hindu hero Rama, of which up to now the relief scene is still performed into a ballet dance.

In the first yard of Sewu Temple Complex which is located in northern park of Prambanan Temple Complex, only one main temple is there, where is in the second yard there are 240 perwara temples and 4 pairs of Dwarapala giant statues. Defferent to Lorojonggrang temple complex which is a Hindu, the Sewu temple complex is a Buddhist temple. It is a manifestation indeed, that in ancient fine two different religion could stand and tolerated each other.

Lumbung temple is located in between the above two temples complex, consisting of 17 temples. Bubrah temple, which is located in the southern part, is an integral part of Sewu temple. All the above mentioned temples are inside the compound and are located inside of the Prambanan Archaeological Park (Zone II).

Prambanan Temple Complex is under the long restoration process, as it has some 500 temples the restoration has been started as early as 1937, after successful result of anastylosis technique applied since the beginning of the twentieth century.

For the extension of a property or the inclusion of additional criteria a re-submission of the property may be considered. This might be regarded as necessary in order to recognize cultural values of a natural World Heritage property, or vice-versa, become desirable following the substantive revision of the criteria by the World Heritage Committee or due to better identification or knowledge of specific outstanding universal values of the property. Should a re-nomination of the property be considered? YES/ NO

015

If YES, please explain:

The criteria for border determination of Prambanan Temple should be revised, because Prambanan and Sewu Temple are the only two temples that stated in World Heritage List. In fact, there are many temples and sites surround it which have bounding space as well as historical value relationship, knowledge and cultural. The criteria that suggested determining the border delineation of Prambanan cultural heritage is the area that contains cultural preserve properties and sites, have a bounding space and have historical, knowledge and cultural value as well.

016

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
Section II: State of conservation of specific World Heritage properties

<p>With those criteria "Prambanan Temple Compounds" will cover all temples and sites around Prambanan area, which describes Prambanan as the capitol of Ancient Mataram Kingdom (VIII - XM century), including other temples such as Gana, Plaosan, Ijo, Barong, Banyunibo, Sojiwan Temple and Ratu Boko Palace.</p>	
<p>Are the borders of the World Heritage property and its buffer zone (still) adequate to ensure the protection and conservation of the property's World Heritage values: YES / <input checked="" type="radio"/> NO</p>	017
<p>If NO, please explain why not, and indicate what changes should be made to the boundaries of the property and / or its buffer zone (please indicate these changes also on a map to be attached to this report):</p> <p>Zone I should be revised because it doesn't cover all distribution of archaeological surround the Prambanan and Sewu Temple. Zone II should be free from any based of Archaeological left, but what happen now is the temples such as Prambanan, Sewu Temple, Bubrah and Lumbung being inside that zone.</p>	018

II.2. continued

<p>Is the State Party actively considering a revision of the property boundaries or the buffer zone? YES / <input checked="" type="radio"/> NO</p>	019
<p>If YES, indicate what is being done to that end:</p>	020

II.3. Statement of authenticity / integrity

<p>Have the World Heritage values identified above been maintained since the property's inscription? YES / <input checked="" type="radio"/> NO</p>	021
<p>If NO, please describe the changes and name the causes:</p>	022

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

What was the evaluation of the authenticity / integrity of the property at the time of inscription? (Please quote from the ICOMOS / IUCN evaluation):	023
-	

II.3. continued

Have there been changes in the authenticity / integrity since inscription? YES / <input checked="" type="radio"/> NO	024
If YES, please describe the changes to the authenticity / integrity and name the main causes?	025
Are there (further) changes foreseeable to the authenticity / integrity of the property in the near future? YES / <input checked="" type="radio"/> NO	026
If YES, please explain and indicate how these changes might affect the World Heritage values of the property:	027
-	

II.4. Management

How could the arrangements for the protection and the management of the property best be defined (more than one indication possible)?	028
Legal (<input checked="" type="checkbox"/>) Contractual () Traditional ()	

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
Section II: State of conservation of specific World Heritage properties

II.4. continued

<p>Please describe and assess the implementation and effectiveness of these arrangements for the preservation of the values described under item II.2 at the national, provincial and/or municipal level:</p> <p>The implementation of Preservation policy can be done effectively in general because the management control has been arranged in accordance with job the authority either in national and regional level. However, the coordination in Preservation planning and developing is still being improved so that the plan be organized more comprehensive. By taking participation from the society actively</p>	029
<p>In general terms, can this legislative, contractual and/or traditional protection be considered sufficient? YES /</p> <p>NO</p>	030
<p>Please explain:</p> <p>Some regulations that should be revised are:</p> <ul style="list-style-type: none"> - President Decree number 1 year 1992 about The Management PT. Taman Wisata Candi Borobudur, Prambanan & Ratu Boko that in fact it involves 2 regional governments. - The Authority distribution and contribution among PT. Taman Wisata Candi Borobudur, Prambanan & Ratu Boko, provincial and regional government and other institutions are not balance. - Badan Pengembangan Kebudayaan dan Pariwisata (The Body of Developing Culture and Tourism) is still responsible for preservation efforts until this present day. 	031
<p>Provide a list and summaries of laws and regulations concerning cultural and natural properties protection and management (including extracts of relevant articles from the Constitution, Criminal Law, Law/Regulations on Land-use, Environment Law and Forestry Law, amongst others). Please also attach any documentation available concerning these points:</p> <ol style="list-style-type: none"> 1. Indonesian Constitution Year 1945 chapter 32 2. If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

	<p>If NO, describe what is being done – and by whom – to counteract the dangers that threaten or may threaten the property:</p> <p style="text-align: center;">-</p>	079
	<p>Indicate areas where improvement would be desirable and/or towards which the State Party is working:</p> <p style="text-align: center;">-</p>	080

II.5. continued

	<p>Give an indication if the impact of the factors affecting the property is increasing or decreasing:</p> <p>The evaluation reports that collected each month show that the problems are increasing. The indications are:</p> <ul style="list-style-type: none"> - The peddlers penetrate into zone II - The vandalism on the temple structure - The visitors who urinate in the temple, therefore it should be set up a wooden door to prevent them particularly in Apit temple - The measuring result in 2002 shows that stone stairs has been worn-out - The observing and monitoring result in 1992 and 2002 shows that there is stone cracked caused by the using of iron hoe, and the worn-out relieves are increasing 	081
	<p>What actions have been effectively taken, or are planned for the future, to address the factors affecting the property?</p> <p>Monitoring toward all the problems that come out and handled it for example by empowering the security guards to watch visitors' attitude very closely.</p> <p>Cooperation with Balai Study dan Konservasi Borobudur (Borobudur Study and Conservation Institute) in doing research of stone obsolete.</p>	082

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

II.6. Monitoring

<p>If applicable, give details (e.g. dates, results, indicators chosen) of any previous periodic or reactive monitoring exercises of the property:</p> <p>Monitoring result in 1998</p>	083
<p>Is there a formal monitoring system established for the site? YES <input checked="" type="radio"/> NO</p>	084
<p>If YES, please give details of its organisation:</p>	085

II.6. continued

<p>If not already in place, is the establishment of a formal monitoring system planned? YES / <input checked="" type="radio"/> NO</p>	086
<p>If YES, please outline the functioning of that system, taking into consideration the key indicators you will be asked to define below (see 089 / 090):</p>	087

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

<p>Are there any indicators established for monitoring the state of conservation of the property? <input checked="" type="radio"/> YES / NO</p>	088
<p>If YES, please provide up-to-date information with respect to each of the key indicators established and/or used. Care should be taken to ensure that this information is as accurate and reliable as possible, for example by carrying out observations in the same way, using similar equipment and methods at the same time of the year and day. Name and describe the key indicators for measuring the state of conservation of this property:</p> <p>Indicator which is used:</p> <ul style="list-style-type: none"> - Stability of the temple, result of the first measurement: <ul style="list-style-type: none"> o Siwa temple in 1984 o Brahma and Wisnu temple in 1996 o Wahana temple in 2001 - Indicator for Measuring Hard Level is the observation result that is implemented to Brahma temple in 2000 and Wisnu temple in 2001 - Indicator for Measuring Stair's Obsolete, observation result in 2002 - Indicator for Measuring of Stone Temple Peel Off to the under side of temple's structure. Evaluation result in 1992 and strengthened by observation result in 2002. 	089
<p>If NO indicators have been identified and / or used so far, please define key indicators for future use in monitoring:</p>	090

II.6. continued

<p>Indicate which partners, if any, are involved or will be involved in the regular monitoring exercise:</p> <p>For monitoring the stone obsolete, Suaka Peninggalan Sejarah dan Purbakala cooperates with Balai Study dan Konservasi Borobudur. Another cooperation with other institution is also expected such as:</p> <ul style="list-style-type: none"> - Faculty of Geography, Gajah Mada University, for Temple Stability Monitoring - Institute of Environment Health Engineering, for Monitoring the Air Pollution Impact Toward the Temple. 	091

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

Please summarise the main conclusions regarding the management and factors affecting the property (see items II.4. and II.5. above):

096

Management organization of Prambanan temple and surround it is still undertaken by several institutions such as Suaka Peninggalan Sejarah Purbakala Yogyakarta and Central Java, PT. Taman Wisata Candi Borobudur, Prambanan & Ratu Boko and the regional government. The authority of each institution is determined by zone borders that is stated in President Decree number 1 year 1992 about The Management of PT. Taman Wisata Candi Borobudur, Prambanan & Ratu Boko and the controlling of its area.

In the case of Prambanan Temple preservation, it needs to revise that President Decree so that 20% of selling tickets should contribute to preserve and develop the potential of Prambanan and surround it. The management that has been done during this time undertaken by two roofs. They are Badan Pengembangan Kebudayaan dan Pariwisata (SPSP Yogyakarta and SPSP Central Java) and own-state enterprises (PT. Taman Wisata Candi Borobudur, Prambanan & Ratu Boko) that should change to be one roof undertaken by Badan Pengembangan Kebudayaan dan Pariwisata. As a result the coordination preservation and development can be done easier and unneeded complicated procedures.

Give an overview over proposed future action / actions:

097

Management development strategy

The management of Prambanan temples area needs to be widened to the cultural heritage that located in the hills (Ratu Boko, Ijo, and its surround). Cultural assets that spread in a large should be managed in synergic ways (government, society, academic community and the privates) and their participation as well.

To improve the human resources and the socialisation of preservation concern and its natural environment is really need a cooperation of related institution. That partnership can be shaped to be an organization for planning and controlling management entirely comprehensive, continuing as well as becoming a part of environment control.

In preservation planning the characters of each object need to be obvious. Prambanan temple and its area located becomes an urban area therefore it needs an approach and a different attention with Ratu Boko Palace. Ijo temple surrounds it that is laid on hills with the country situation and a unique nature.

Environmental impact control is implemented with tight management control and supported by related institution (BAPELDA, Konservasi Sumber Daya Alam, Dinas Tata Kota etc).

Community resources should need to be improving in order to take active participation for environmental management. The existence of cultural preserve community established by regional government rules should be improved their rules so that they have a function as a communication media and socialisation of cultural preserve and its environment as well.

In order to balancing the management of tourism object, it needs to touch all of objects so that can be known widely and giving another visits alternative to the tourists. Therefore the promotion effort to introduce the potency and characters differences of each objects need the planning very much, so it is able to cover all desired targets and effectives.

If the space on the Questionnaire is not sufficient, please continue on a separate page, clearly labelling the answer with the corresponding number of the question (e.g. 006).

Periodic Reporting Exercise on the Application of the World Heritage Convention
 Section II: State of conservation of specific World Heritage properties

Name the agency responsible for implementation of these actions (if different from 005): - Kementrian Kebudayaan dan Pariwisata	098
Give a timeframe for the implementation of the actions described above: -	099

II.7. continued

Indicate for which of the planned activities International Assistance from the World Heritage Fund may be needed (if any): Equipments assistance are: <ul style="list-style-type: none"> - Tools for stone cracked injection - Hydrolic leader to climb on the temples roof - Steam cleaner - Tools for measuring the rain water pouch on the stone temple - Tools for monitoring the air pollution - Tools for measuring the stone axle - Tools for monitoring the humidity and the air temperature at the temples environment - Tools for monitoring the area quake - Tools for measuring the vertical/horizontal deformation of the temples structure - Tools for illustrating the structure - The multifunction hydraulic pulley car - Stereo/mono microscope - Thunder protector for radius 200 meter 	100
--	-----

Are there any contacts with management units of other properties within or outside your country? NO	101 YES
--	------------
