How would you define the stakeholder community or communities to which you belong?

- Government
- Private sector
- Civil society
- Journalism/media

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	1
Openness	3
Accessibility	2
Multistakeholder participation	4
Cross-cutting indicators	5

2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights

Openness

Accessibility

Multistakeholder participation

Cross-cutting indicators

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights

Rights to know on rights (People do not aware of their Rights)

Openness

Accessibility

need to improve tools and content and we are working on it

Multistakeholder participation

More awarenes

Cross-cutting indicators

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

Internet Right to be safe should be addressed, Many do not know how they are been exposed.

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

At IGF Sri Lanka we could use

6. How do you think that other stakeholders might use the framework? First need to give awareness broadly

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

Actually this framework development is new to me and it is better you give us more details on web regarding your project.

8. Please upload any documents that you think will be helpful here.
