Submission #91

Personal information

Name Kochegurov Dmitry

Organisation INION RAN

Email address Kocheg.dima007@yandex.ru

Country/region Russia/Moscow

Gender Male

How would you define the stakeholder community or communities to which you belong? Academic

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	
Openness	
Accessibility	- fair distribution of critical Internet resources; - access to Internet services throughout the territory, including remote and hard-to-reach areas; - speed and quality of data transmission; - level of information literacy, skills of using the Internet; - linguistic diversity in the Internet.
Multistakeholder participation	
Cross-cutting indicators	

2. Are there are any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights	
Openness	
Accessibility	- state regulation of the global Internet network; - percentage of the population with access to the Internet; - level of penetration of Internet services in the population, households, fixed and mobile access; - level of penetration of Internet services in remote and hard-to-reach areas; - speed and quality of data transmission; - level of information literacy and skills of using the Internet; - availability of general and specialized programs on training of the use of the Internet; - level of representation of information on the Internet in national languages, including small nations.
Multistakeholder participation	
Cross-cutting indicators	

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights
Openness
Accessibility
Multistakeholder participation
Cross-cutting indicators

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

6. How do you think that other stakeholders might use the framework?

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

8. Please upload any documents that you think will be helpful here.
