Foreword

Development, if it is to be successful and sustainable, must be people-centred. Since its inception, UNESCO is contributing to such endogenous development by helping develop the talents and skills of students and researchers whose ingenuity and capacity for innovation have allowed advances and breakthroughs in all the fields of competence of the Organization.

UNESCO's Fellowships Programme has up to date enabled 50,000 fellows from around the world to study in different countries, thereby forging strong intellectual and scientific links among peoples, and contributing to international cooperation and understanding. The programme facilitates the transfer and genuine sharing of knowledge and expertise in which each party, be it teacher or student, gives and learns.

The Directory of UNESCO Fellows lists fellowships awarded by the Fellowships Programme Section in the 2004-2005 period within the framework of both Regular and Extra-budgetary Programmes. It reflects UNESCO's continuing commitment to the development of human capacities and international cooperation. It also testifies to the generous support this programme has received in the biennium. Convinced that a strategy of alliance building is essential to attaining the development goals, we welcome your ideas, active partnership and co-operation in making the UNESCO Fellowships Programme successful.

Avant-propos

Le présent Répertoire des boursiers de l'UNESCO présente la liste des bourses octroyées en 2004-2005 et administrées par la Section des bourses dans le cadre des programmes ordinaire et extra-budgétaire. Cette liste est la preuve tangible de l'importance que l'UNESCO attache à la mise en valeur des ressources humaines. Les Nations Unies et ses agences spécialisées ont affirmé depuis un certain temps déjà que la condition sine qua non du succès est qu'il soit **centré sur l'individu**. Les services de formation et de bourse constituent donc, pour l'Organisation, l'un des moyens les plus efficaces pour développer les capacités individuelles et atteindre l'objectif d'un développement humain durable **centré sur les personnes**.

L'UNESCO a pour but d'élever les défenses de la paix dans l'esprit des hommes par la coopération dans les domaines de l'éducation, de la science, de la culture et de la communication. Les bourses, allocations pour voyages d'étude et allocations de voyage contribuent dans une large mesure à la promotion de la compréhension internationale par les échanges interculturels entre les peuples. Elles visent aussi à favoriser un véritable partage où chacun, enseignant ou élève, donne et apprend.

Etant convaincus qu'une stratégie d'alliance est essentielle pour la réalisation de tout objectif de développement, nous serions heureux d'accueillir vos idées et/ou vos propositions de coopération ou de partenariat susceptible de contribuer au plein succès de ces programmes.

Prefacio

El Desarrollo, para que sea sostenible y exitoso, debe enfocarse en las personas. Desde su creación, la UNESCO contribuye a consolidar los esfuerzos encaminados al desarrollo endógeno, impulsando y fortaleciendo los talentos y habilidades de los estudiantes e investigadores, cuya originalidad y capacidad para la innovación han permitido alcanzar logros significativos en las áreas de competencia de la Organización.

Hasta la fecha, el Programa de Becas de la UNESCO ha otorgado 50,000 becas a estudiantes provenientes de todas partes del mundo para estudiar en diferentes países, forjando así sólidos lazos intelectuales y científicos entre los pueblos, promoviendo el entendimiento y la cooperación internacional. El programa facilita el intercambio y la transferencia genuina de conocimientos y experiencias, permitiendo así que tanto el profesor como el estudiante, den y aprendan.

En el directorio de los becados de la UNESCO, figura la lista de becas atribuidas por la Sección del Programa de becas durante el bienio 2004-2005, tanto en el marco del Programa Regular como en el marco de los programas extra-presupuestarios. El directorio refleja la continuidad de la UNESCO en su compromiso de impulsar y fortalecer las capacidades humanas y la cooperación internacional. También es testimonio del generoso apoyo que ha recibido este programa en el bienio. Convencidos en que una estrategia basada en la construcción de alianzas es necesaria para alcanzar las metas del desarrollo, damos la bienvenida a sus ideas, a su activa participación y cooperación para lograr que este programa sea exitoso.
