Education System

4.1 - Free, equitable and quality primary and secondary education

4.2 - Quality early childhood development, care and pre-primary education

Indicator 4.2.1 - Proportion of children under 5 years of age who are developmentally on track in health, learning and psychosocial well-being, by sex

Year: 2014
 Source: Early Childhood Development Index from UNICEF's Multiple Indicator Cluster Surveys (MICS) and USAID's Demographic and Health Surveys (DHS)

Country

What is this?

The slices represent the percentage of children aged 36-59 months who are developmentally on-track in at least three of the following four domains: literacy-numeracy – to identify at least 10 letters of the alphabet, read 4 simple words and recognise and name all numbers from 1 to 10; physical – to pick up small objects easily and are generally well enough to play; socio-emotional – to undertake simple activities independently, get along with other children and do not usually kick, bite or hit other children or adults; and learning – participate in any type of organized learning including early childhood education, kindergarten or community care.

Indicator 4.2.2 - Participation rate in organized learning (one year before the official primary entry age), by sex

Country
Region

What is this?

The lines represent the percentage of children in the given age range who participate in one or more organized learning programmes, including programmes which offer a combination of education and care. Participation in early childhood education and in primary education are both included. The age range will vary by country depending on the official age for entry to primary education.

4.3 - Quality TVET and tertiary education

Indicator 4.3.1 - Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex

Sources: Eurostat's Adult Education Survey (AES) and OECD's Survey of Adult Skills (PIAAC)

Country

What is this?

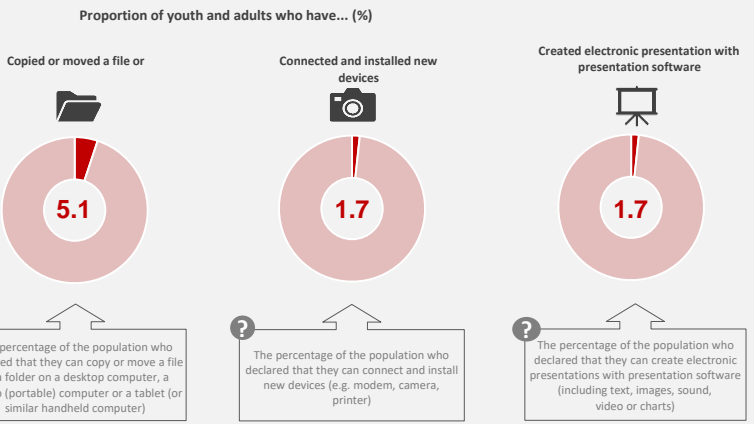

The percentage of youth and adults who have participated in a formal or non-formal education and training programme in the previous 12 months.

Data sources

Source: National household surveys coordinated by the EU Adult Education Survey (AES, target population 25-64 years) and OECD Survey of Adult Skills (PIAAC, target population 16-65 years).

4.4 - Technical and vocational skills

Indicator 4.4.1 - Proportion of youth and adults with information and communications technology (ICT) skills, by type of skill

? The percentage of the population who declared that they can copy or move a file or a folder on a desktop computer, a laptop (portable) computer or a tablet (or similar handheld computer)

? The percentage of the population who declared that they can connect and install new devices (e.g. modem, camera, printer)

? The percentage of the population who declared that they can create electronic presentations with presentation software (including text, images, sound, video or charts)
