

Annex: Complementary data and information (sources and statistics)

1. Main sources and links

Additional information to the quadrennial periodic report on measures to protect and promote the diversity of cultural expressions in the framework of the 2005 UNESCO Convention submitted by Denmark is found in this annex.

The main source of the data in the annex is Danmarks Statistik (Statistics Denmark) <http://www.dst.dk/en>. In general all references and sources are inserted in direct continuation of the specific tables and figures.

Further links to relevant cultural institutions and homepages are made directly in the report.

2. Reporting on available statistics

<u>Language and literacy</u> Number of official languages	Danish is the official language. German is spoken by a minority in Southern Jutland (North Schleswig). The German minority's cultural and language rights are protected by the Copenhagen-Bonn Declarations of 1955 and the European Charter for Regional or Minority Languages (ECRML) of 1992.			
Source(s)	http://www.norden.org/en/the-nordic-region/language			
Number of languages spoken	Over 98% of the population speaks Danish . German is spoken by 23,000 people, about 0.4% of Danish population. Greenlandic, an Inuit language, is spoken by 0.1% of the population.			
Source(s)	http://www.bbc.co.uk/languages/european_languages/countries/denmark.shtml			
Literacy rates	According to UNESCO Institute for Statistics, national self-reported data, and the UNDP's global projection models Denmark is a high developed/income Country where literacy statistics were not collected and a literacy rate of 99% was assumed.			
2.2 Mobility of cultural goods and services				
<u>Total flows of cultural goods and services</u> Total export of cultural goods and services	The most recent report on Danish In/Export called "Insight" made by the Confederation of Danish Industry (2010) states that the calculation and estimations of cultural goods is hard to grasp and therefore is not incorporated in the overall picture of Danish In/Export. However, it is important to mention that the report does not neglect the fact that in/export of cultural goods may be a significant variable and have to be incorporated in future investigation and analyses.

2.6 Economy and finance	
<u>Contribution of Cultural activities to Gross Domestic Product in percentage</u>	Government expenditures for culture totaled just over 1.0% of the public budget in 2008 and government expenditures for culture totaled 0.33% of gross domestic product (GDP). Viewed against the government's firm objective to limit public expenditures, contributions are unlikely to increase in the future and have remained about \$1.2 billion for the last couple of years. Municipal and county governments assume a relatively large share of the costs for cultural activities in their respective districts, 57% to the government's 43%. Most support goes to libraries and archives, theater, museums, arts and crafts training, and films.
