Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in reading, by sex Country (a) in Grade 2 or 3 (c) at the end of lower (b) at the end of primary What is this? What is this? The bars represent the percentage of students in each level achieving minimum proficiency level in reading and mathematics. Minimum proficiency level (MPL) is the benchmark of basic knowledge in a domain (mathematics, reading, etc.) measured through learning assessments. Currently, there are no common standards validated by the international community or countries. The MPL used for this chart was set by each of the projects providing the data. education secondary education Data for the country is not available 0 47.5 47.0 55.0 Indicator 4.1.1 - Proportion of children and young people achieving at least a minimum proficiency level in mathematics, by sex Data sources (a) in Grade 2 or 3 (b) at the end of primary (c) at the end of lower secondary education Various cross-national learning assessments including: Programme d'analyse des systèmes éducatifs de la CONFEMEN (PASEC), Progress in International Reading Literacy Study (PRLS), Programme for International Student Assessment (PISA), Southern and Eastern Africa Consortium for Monitoring Educational Quality (SACMEQ), Tercere Estudio Regional Comparativo y Explicativo (TERCE) and Trends in International Mathematics and Science Study (TIMSS). education Data for the country is not available 48.5
