

Reproductive health national strategy and action plan 2010-2015

2010. 58 p.

Authors:

Sorbye, Ingvil
Leigh, Bailah

Description:

The strategy presented in this document is intended for a broad audience of governmental actors, professional associations, institutions, non-governmental organizations, donors and other stakeholders within reproductive health. As a strategy it has been designed to be as clear and brief as possible. It does not provide an exhaustive list of reproductive health issues faced by the Somali people, but seeks to identify key priority areas (i.e. important, and where real gains can be made) within the overall reproductive health agenda, to guide concerted intervention and efforts by all stakeholders over the next five years.
