

## **National HIV Strategic Plan 2016-21. Nepal HiVision 2020: Fast-tracking ending the AIDS epidemic as a public health threat, by 2030**

Kathmandu: Ministry of Health, 2016. 51 p.

### **Organizations:**

Nepal. Ministry of Health, National Centre of AIDS and STD Control

### **Edition:**

2nd edition, June 2017

### **Description:**

This National HIV Strategic Plan is an expression of Nepal's community engagement and community-led responses to tackle specific challenges in Fast-Tracking: engagement in advocacy and accountability for strategic investments; reaching and advocating for human rights of key populations; understanding social, cultural and other issues relevant to health and well-being; adherence support; demand creation; services delivery in the prevention-treatment continuum through community organizations and in-reach workers; navigators in health and other social services; and collaboration in relevant public-private partnerships through task-sharing. In short, the "identify, reach, recommend" paradigm of this National HIV Strategic Plan relies fully on us, the communities.
