

Statistical tables¹

INTRODUCTION

FROM EDUCATION FOR ALL TO THE EDUCATION SUSTAINABLE DEVELOPMENT GOAL: NEW AGENDA, NEW STATISTICAL TABLES

With the adoption in September 2015 of the 2030 Agenda for Sustainable Development – which sets new development priorities, including for education through the fourth Sustainable Development Goal (SDG 4) – and, in November 2015, of the Education 2030 Framework for Action at the 38th session of the UNESCO General Conference, the Education for All (EFA) cycle came to an end. With this edition of the *Global Education Monitoring Report* (GEM Report), the statistical tables are evolving to reflect the new education agenda.

The tables have been reorganized to reflect and align with (a) the aspirational nature and great ambition of the Education 2030 agenda, which has at its core equity and inclusion and embraces a lifelong perspective; (b) the seven SDG 4 targets and three means of implementation, which are not only about access to, participation in and completion of education, but also have education quality at their core in terms of inputs, outputs, processes, learning outcomes and environments, and the skills youth and adults must be equipped with for decent work; and (c) a broad set of 43 internationally comparable thematic indicators, of which 11 are global indicators.²

Consequently, the statistical tables of the GEM Report aim to be more comprehensive than in earlier reports, while reflecting significant limitations in terms of data availability and country coverage, particularly regarding some indicators that still need to be defined and developed. Accordingly, placeholders or proxy indicators

are occasionally used. These statistical tables contain more indicators than in earlier reports, particularly on education quality, learning outcomes, youth and adult skills (including not only literacy and numeracy but also information and communications technology skills) and tertiary education. While aligned with the proposed thematic and global indicators, the statistical tables include additional indicators – such as repetition, dropout, and transition from primary to secondary education and from secondary to tertiary – which remain critical but were left out of the new indicator set.

In addition to administrative data provided to the UIS by education ministries worldwide, the statistical tables rely on data from other sources, including national, regional and international learning assessments; national and international household surveys, such as the Demographic and Health Surveys and UNICEF's Multiple Indicator Cluster Surveys; and bodies including the Joint United Nations Programme on HIV/AIDS (UNAIDS), the Organisation for Economic Co-operation and Development (OECD), UNICEF, the United Nations Population Division (UNPD), the World Bank and the World Health Organization (WHO).

The new statistical tables are organized by targets and means of implementation instead of by education level (from pre-primary to tertiary) as was formerly the case; this results in some seeming anomalies, such as early childhood care and education coming after primary and secondary education. As in the past, the tables include domestic education finance, which, though absent from the SDG 4 targets, is a key means of implementation and an enabling factor to achieve the targets. Because of the comprehensiveness of the new statistical tables and the size constraints of the GEM Report, they continue

to be presented in two versions: a shorter version in the printed report and a more complete version, containing all indicators to date, published on the GEM Report website (see footnote 1).

METHODOLOGICAL NOTES

While the statistical tables present data from multiple sources, most of the education data included are still provided by the UIS. The most recent data on pupils, students, teachers and education expenditure presented in the tables are for the school year or financial year ending in 2014.³ They are based on survey results reported to and processed by the UIS before the end of March 2016. A small number of countries⁴ submitted data for the school year ending in 2015, presented in bold in the tables. These statistics refer to all formal education, both public and private, by level of education.

The statistical tables list 209 countries and territories, all of which are UNESCO member states or associate members. Most of them report their data to the UIS using standard questionnaires issued by the institute itself. For some countries, however, education data are collected by the UIS via surveys carried out jointly by the UIS, OECD and the statistical office of the European Union through the UIS/OECD/Eurostat (UOE) questionnaires.⁵

POPULATION DATA USED AND ISCED CLASSIFICATION

The population-related indicators used in the statistical tables, including enrolment ratios, number of out-of-school children, adolescents and youth, and number of youth and adults, are based on the 2015 revision of population estimates produced by the UNPD. Because of possible differences between national population estimates and those of the United Nations, these indicators may differ from those published by individual countries or by other organizations.⁶

In the 2015 revision, the UNPD does not provide population data by single years of age for countries with total population of less than 90,000, including Andorra, Anguilla, Cayman Islands, Dominica, Monaco, Montserrat, Saint Martin, Sint Maarten and Turks and Caicos Islands. For Bermuda, Dominica, Marshall Islands and Turks and Caicos Islands, the UIS decided to use population data from the previous UNPD revision (2012). Where no UNPD population estimates exist, national population figures, when available, or UIS estimates

were used to calculate enrolment ratios. In the case of Brazil, due to inconsistencies between UNPD estimates and national enrolment data, the UIS has agreed with the country to temporarily use its national population estimates, derived from the PNAD household survey, until a solution is found.

Education data reported to the UIS are in conformity with the International Standard Classification of Education (ISCED), revised in 2011. Countries may have their own definitions of education levels that do not correspond to ISCED 2011. Differences between nationally and internationally reported education statistics may be due to the use of nationally defined education levels rather than the ISCED standard, in addition to the population issue raised above.

LITERACY DATA

The literacy statistics presented in the statistical tables are often based on a definition of literacy as the ability to read and write, with understanding, a short simple statement related to one's daily life⁷ and are largely based on data sources that use self-declaration or third party declaration methods, in which respondents are asked whether they and the members of their household are literate, as opposed to being asked a more comprehensive question or to demonstrate the skill.⁸ Some countries assume that anyone who completes a certain level of education is literate.⁹ As definitions and methodologies used for data collection differ by country, data need to be used with caution.

Literacy data presented in the statistical tables cover adults aged 15 and over as well as youth aged 15 to 24. They are for the 2005–2014 reference period, and include both national observed data from censuses and household surveys, indicated with an asterisk (*) and UIS estimates (**). The latter are for 2014 and are based on the most recent national observed data. They were produced using the Global Age-specific Literacy Projections (GALP) model.¹⁰ The reference years and literacy definitions for each country are presented in the table of metadata for literacy statistics posted on the GEM Report website (see footnote 1).

ESTIMATES AND MISSING DATA

Regarding UIS statistics provided by the UIS itself, both observed and estimated education data are presented throughout the statistical tables. Wherever possible, the

UIS encourages countries to make their own estimates, which are presented as national estimates and marked with one asterisk (*). Where this does not happen, the UIS may make its own estimates if sufficient supplementary information is available. These estimates are marked with two asterisks (**). Gaps in the tables may arise where data submitted by a country are found to be inconsistent. The UIS makes every attempt to resolve such problems with the countries concerned, but reserves the final decision on omitting data it regards as problematic.

If information for the year ending in 2014 are not available, data for earlier or later years are used. Such cases are indicated by footnotes.

REGIONAL AND OTHER COUNTRY GROUPING AVERAGES

Regional figures for literacy and education rates and ratios (gross intakes rates, gross, net and adjusted net enrolment ratios, dropout rates, etc.) are weighted averages, taking into account the relative size of the relevant population of each country in each region. The figures for countries with larger populations have a proportionately greater influence on the regional aggregates. The averages are derived from both published data and imputed values, for countries for which no recent data or reliable publishable data are

available. Weighted averages marked with two asterisks (**) in the tables are UIS partial imputations due to incomplete country coverage (between 33% and 60% of the population of a given region or country grouping). Where insufficient reliable data are available to produce an overall weighted mean, a median figure is calculated based only on countries with available data – at least half in a given region or country grouping.

INDICATORS PRESENTED IN THE STATISTICAL TABLES

In the longer version of the annex on the website, the GEM Report presents 16 statistical tables covering 283 distinct indicators (not counting gender breakdowns). Among these are the 43 thematic indicators, including the 11 global indicators and 32 others yet to be finalized at time of publication. In the meantime, some placeholders or proxy measures are presented to help keep attention on issues to be monitored and policy priorities across the SDG 4 targets, while highlighting areas for further work and indicator development.

Table 1 focuses on the thematic and global indicators included in the statistical tables. A number of them are new indicators. This table gives some assessment of data availability and country coverage, shows what is missing and indicates the placeholders used.

TABLE:
Proposed thematic and global indicators presented in the statistical tables

	SDG 4 targets and related indicators	Included in tables	Global indicators	Placeholders	Missing aspects	Sources of data
4.1 – By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes¹						
1	Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary, and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex	Yes	4.1		Comparable only across countries that took part in the same survey	Altinok (2013); Cheng and Omoeva (2014); education ministry national reports and websites; EGMA/EGRA; PASEC; PILNA; PIRLS; PISA; SACMEQ; TERCE; TIMSS; ASER; Uwezo
2	Administration of a nationally representative learning assessment (a) during primary (b) at the end of primary and (c) at the end of lower secondary education	Yes				Altinok (2013); Cheng and Omoeva (2014); education ministry national reports and websites; EGMA/EGRA; PASEC; PILNA; PIRLS; PISA; SACMEQ; TERCE; TIMSS; ASER; Uwezo
3	Gross intake ratio to the last grade (primary, lower secondary)	Yes				UIS database
4	Completion rate (primary, lower secondary, upper secondary)	Yes				GEM Report team calculations based on national and international household surveys (e.g. DHS, MICS)
5	Out-of-school rate (primary, lower secondary, upper secondary)	Yes				UIS database
6	Percentage of pupils over-age for grade (primary, lower secondary)	Yes				UIS database
7	Number of years of (a) free and (b) compulsory primary and secondary education guaranteed in legal frameworks	Yes				Eurydice (2014, 2015, 2016); UNESCO-IUBE (2012); national education ministry websites; UIS database

	SDG 4 targets and related indicators	Included in tables	Global indicators	Placeholders	Missing aspects	Sources of data
4.2 – By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education						
8	Proportion of children under 5 years of age who are developmentally on track in health, learning and psychosocial well-being, by sex	Yes	4.2.1	UNICEF MICS Early Childhood Development Index		UNICEF MICS 4/5 country reports
9	Percentage of children under 5 years of age experiencing positive and stimulating home learning environments	Yes				UNICEF MICS 4/5 country reports
10	Participation rate in organized learning (one year before the official primary entry age), by sex	Yes	4.2.2	Adjusted net enrolment ratio, one year before the official primary school entry age		UIS database
11	Pre-primary gross enrolment ratio	Yes				UIS database
12	Number of years of (a) free and (b) compulsory pre-primary education guaranteed in legal frameworks	Yes				Eurydice (2014, 2015, 2016); UNESCO-IBE (2012); national education ministry websites; UIS database
4.3 – By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university						
13	Gross enrolment ratio for tertiary education	Yes				UIS database
14	Participation rate in technical-vocational education programmes (15- to 24-year-olds)	No		Percentage of youth (15-24) enrolled in secondary technical and vocational education	Programmes at tertiary education level and outside education (work-based and other settings)	UIS database
15	Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex	Yes	4.3.1	Adults enrolled in formal education as a share of total enrolment by level	Youth participation rate	Eurostat Adult Education Survey 2011
4.4 – By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship						
16.1	Percentage of youth and adults who have achieved at least a minimum level of proficiency in digital literacy skills	No		Percentage of students at each proficiency level in digital literacy skills		IEA International Computer and Information Literacy Study
16.2	Proportion of youth and adults with information and communications technology (ICT) skills, by type of skill	Yes	4.4.1			Eurostat database; ITU World Telecommunication / ICT Indicators database
17	Youth/adult educational attainment rates by age group, economic activity status, levels of education and programme orientation	No, but placeholder presented		Percentage of adults aged 25 and over by minimum level of education attained	Educational attainment rate of youth (15-24)	UIS database
4.5 – By 2030, eliminate gender disparities in education and ensure equal access at all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations						
	Parity indices (female/male, rural/urban, bottom/top wealth quintile and others such as disability status, indigenous peoples and conflict-affected, as data become available) for all education indicators on this list that can be disaggregated	Yes	4.5.1		Data on people with disabilities, indigenous people	UIS database; GEM Report team calculations based on national and international household surveys (e.g. DHS, MICS)
18	Percentage of students in primary education whose first or home language is the language of instruction	No				
19	Extent to which explicit formula-based policies reallocate education resources to disadvantaged populations	No				
20	Education expenditure per student by level of education and source of funding	No, but placeholder presented		Government expenditure per pupil/student by level of education presented, in constant 2013 US\$; in constant 2013 PPPs; as % of GDP; as % of GDP per capita		UIS database
21	Percentage of total aid to education allocated to low income countries	Yes (aid tables)				OECD DAC
4.6 – By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy						
22	Percentage of population in a given age group achieving at least a fixed level of proficiency in functional (a) literacy and (b) numeracy skills, by sex	No, but placeholder presented	4.6.1	Percentage of youth and adults achieving at least a fixed level of proficiency in functional literacy skills and numeracy skills		OECD PIAAC
23	Youth/adult literacy rate	Yes				UIS database
24	Participation rate of youth/adults in literacy programmes	No, but placeholder presented		Participants in literacy programmes, expressed as percentage of the illiterate population		UIS database, regional survey for Latin America and the Caribbean

	SDG 4 targets and related indicators	Included in tables	Global indicators	Placeholders	Missing aspects	Sources of data
4.7 – By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable life-styles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development						
25	Extent to which (i) global citizenship education and (ii) education for sustainable development, including gender equality and human rights, are mainstreamed at all levels in (a) national education policies; (b) curricula; (c) teacher education and (d) student assessment	Yes	4.7.1	Inclusion in national curricula frameworks of issues relating to global citizenship and sustainable development: gender equality; human rights; sustainable development; and global citizenship	Inclusion of the given issues in national education policies, teacher education and student assessments	UNESCO IBE (2016)
26	Percentage of students by age group (or education level) showing adequate understanding of issues relating to global citizenship and sustainability	No, but placeholder presented		Percentage of youth with adequate understanding of issues relating to HIV/AIDS and sexuality education	Gender equality, human rights and global citizenship	UNAIDS (2011), 2015 UNAIDS AIDSInfo Online Database and DHS StatCompiler
27	Percentage of 15-year-old students showing proficiency in knowledge of environmental science and geoscience	No, but placeholder presented		Percentage of 15-year-old students performing at or above proficiency level 2 in science literacy as a proxy measure of environmental science and geoscience		GEM Report team calculations based on PISA 2012 data (OECD, 2013)
28	Percentage of schools that provide life skills-based HIV and sexuality education	Yes			Sexuality education	UNAIDS (2011), 2015 UNAIDS AIDSInfo Online Database and DHS StatCompiler
29	Extent to which the framework on the World Programme on Human Rights Education is implemented nationally (as per UNGA Resolution 59/113)	No				

4.a – Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all

30–32	Proportion of schools with access to (a) electricity; (b) the Internet for pedagogical purposes; (c) computers for pedagogical purposes; (d) adapted infrastructure and materials for students with disabilities; (e) basic drinking water; (f) single-sex basic sanitation facilities; and (g) basic handwashing facilities (as per the water, sanitation and hygiene indicator definitions)	Yes	4.a.1			UNICEF (2015); UIS database
33	Percentage of students experiencing bullying, corporal punishment, harassment, violence, sexual discrimination and abuse	Yes			Corporal punishment, harassment, sexual discrimination and abuse	Global School-based Student Health Survey
34	Number of attacks on students, personnel and institutions	No				

4.b – By 2030, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries

35	Number of higher education scholarships awarded, by beneficiary country	No				
36	Volume of official development assistance flows for scholarships by sector and type of study	No	4.b.1			

4.c – By 2030, substantially increase the supply of qualified teachers, including through international cooperation for teacher training in developing countries, especially least developed countries and small islands developing States

37	Percentage of teachers qualified according to national standards, by education level and type of institution	Yes			Information by type of institution	UIS database
38	Pupil/qualified teacher ratio, by education level	Yes				UIS database
39	Proportion of teachers in: (a) pre-primary, (b) primary, (c) lower secondary; and (d) upper secondary education who have received at least the minimum organized teacher training (e.g. pedagogical training) pre-service or in-service required for teaching at the relevant level in a given country	Yes	4.c.1			UIS database
40	Pupil/trained teacher ratio by education level	Yes				UIS database
41	Average teacher salary relative to other professions requiring a comparable level of education qualification	No				
42	Teacher attrition rate, by education level	Yes (long)				UIS database
43	Percentage of teachers who received in-service training in the last 12 months, by type of training	No

SYMBOLS USED IN THE STATISTICAL TABLES (PRINTED AND WEB VERSIONS)

- * National estimate
- ** UIS partial estimate
- ... No data available
- Magnitude nil or negligible
- . Category not applicable or does not exist

Footnotes to the tables, along with the glossary following the statistical tables, provide additional help in interpreting the data and information.

COMPOSITION OF REGIONS AND OTHER COUNTRY GROUPS

With the adoption of a new education agenda in the 2030 Agenda for Sustainable Development, the country classification in the statistical tables has shifted from the EFA regions to those used by the United Nations Statistical Division (UNSD) as of May 2015, with some adjustments. The UNSD classification includes all territories, whether independent national entities or parts of bigger entities; however, the list of countries presented in the statistical tables includes only full UNESCO member states and associate members, as well as Bermuda and Turks and Caicos Islands, non-member states that were included in the EFA statistical tables. To this list, a territory and a country, Hong Kong (China) and Liechtenstein, previously excluded, have been added. Other territories contained in the UNSD regional classification but not covered by UNESCO are still excluded: American Samoa, the Channel Islands, the Falkland Islands (Malvinas), French Guiana, French Polynesia, Greenland, Guadeloupe, Guam, the Isle of Man, Martinique, Mayotte, New Caledonia, the Northern Mariana Islands, Réunion, Puerto Rico, the US Virgin Islands and Western Sahara. The UIS does not collect data for most of these territories. Nor does it collect data for the Faroe Islands, so this territory is not included in the GEM Report despite its status as UNESCO associate member.

World classification¹¹

■ Countries in transition (17):

Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Croatia, Kazakhstan, Kyrgyzstan, Montenegro, Republic of Moldova, Russian Federation, Serbia, Tajikistan, The former Yugoslav Republic of Macedonia, Turkmenistan, Ukraine, Uzbekistan.

■ Developed countries (41):

Andorra, Australia, Austria, Belgium, Bermuda, Bulgaria, Canada, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, San Marino, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom, United States.

■ Developing countries (151):

Eastern and South-eastern Asia (except Japan); Latin America and the Caribbean (except Bermuda); Northern Africa and Western Asia (except Israel); Pacific (except Australia and New Zealand); Southern Asia; sub-Saharan Africa.

GEM Report regions

■ Caucasus and Central Asia (8 countries)

Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan.

■ Eastern and South-eastern Asia (18 countries/territories)

Brunei Darussalam, Cambodia, China, Democratic People's Republic of Korea, Hong Kong (China), Indonesia, Japan, Lao People's Democratic Republic, Macao (China), Malaysia, Mongolia, Myanmar, Philippines, Republic of Korea, Singapore, Thailand, Timor-Leste, Viet Nam.

■ Eastern Asia (7 countries/territories)

China, Democratic People's Republic of Korea, Hong Kong (China), Japan, Macao (China), Mongolia, Republic of Korea.

■ South-eastern Asia (11 countries)

Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, Philippines, Singapore, Thailand, Timor-Leste, Viet Nam.

■ Europe and Northern America (46 countries)

Albania, Andorra, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Republic of Moldova, Romania, Russian Federation, San Marino, Serbia, Slovakia, Slovenia, Spain, Sweden,

Switzerland, The former Yugoslav Republic of Macedonia, Ukraine, United Kingdom, United States.

■ Latin America and the Caribbean (43 countries/territories)

Anguilla, Antigua and Barbuda, Argentina, Aruba, Bahamas, Barbados, Belize, Bermuda, Plurinational State of Bolivia, Brazil, British Virgin Islands, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Curaçao, Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Montserrat, Nicaragua, Panama, Paraguay, Peru, Saint Kitts and Nevis, Saint Lucia, Saint Martin, Saint Vincent and the Grenadines, Sint Maarten, Suriname, Trinidad and Tobago, Turks and Caicos Islands, Uruguay, Bolivarian Republic of Venezuela.

■ Caribbean (24 countries/territories)

Anguilla, Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bermuda, British Virgin Islands, Cayman Islands, Curaçao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Martin, Saint Vincent and the Grenadines, Sint Maarten, Suriname, Trinidad and Tobago, Turks and Caicos Islands.

■ Latin America (19 countries)

Argentina, Plurinational State of Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Bolivarian Republic of Venezuela.

■ Northern Africa and Western Asia (20 countries/territories)

Algeria, Bahrain, Egypt, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine, Qatar, Saudi Arabia, Sudan, Syrian Arab Republic, Tunisia, Turkey, United Arab Emirates, Yemen.

■ Northern Africa (6 countries)

Algeria, Egypt, Libya, Morocco, Sudan, Tunisia.

■ Western Asia (14 countries and territories)

Bahrain, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Palestine, Qatar, Saudi Arabia, Syrian Arab Republic, Turkey, United Arab Emirates, Yemen.

■ Pacific (17 countries/territories)

Australia, Cook Islands, Fiji, Kiribati, Marshall Islands,

Micronesia (Federated States of), Nauru, New Zealand, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu, Vanuatu.

■ Southern Asia (9 countries)

Afghanistan, Bangladesh, Bhutan, India, Islamic Republic of Iran, Maldives, Nepal, Pakistan, Sri Lanka.

■ Sub-Saharan Africa (48 countries)

Angola, Benin, Botswana, Burkina Faso, Burundi, Cabo Verde, Cameroon, Central African Republic, Chad, Comoros, Congo, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mozambique, Namibia, Niger, Nigeria, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, South Sudan, Swaziland, Togo, Uganda, United Republic of Tanzania, Zambia, Zimbabwe.

Conflict-affected countries (31 as of 2013)

Afghanistan, Algeria, Burundi, Central African Republic, Chad, Colombia, Democratic Republic of the Congo, Ethiopia, India, Indonesia, Islamic Republic of Iran, Iraq, Libya, Mali, Myanmar, Nepal, Nigeria, Pakistan, Palestine, Philippines, Russian Federation, Rwanda, Somalia, South Sudan, Sri Lanka, Sudan, Syrian Arab Republic, Thailand, Turkey, Uganda and Yemen.

Income groups¹²

■ Low income (32 countries)

Afghanistan, Benin, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic People's Republic of Korea, Democratic Republic of the Congo, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Liberia, Madagascar, Malawi, Mali, Mozambique, Nepal, Niger, Rwanda, Sierra Leone, Somalia, South Sudan, Togo, Tokelau, Uganda, United Republic of Tanzania, Zimbabwe.

■ Lower middle income (50 countries)

Armenia, Bangladesh, Bhutan, Plurinational State of Bolivia, Cameroon, Cabo Verde, Congo, Côte d'Ivoire, Djibouti, Egypt, El Salvador, Georgia, Ghana, Guatemala, Guyana, Honduras, India, Indonesia, Kenya, Kiribati, Kyrgyzstan, Lao People's Democratic Republic, Lesotho, Mauritania, Micronesia (Federated States of), Morocco, Myanmar, Nicaragua, Nigeria, Pakistan, Palestine, Papua New Guinea, Philippines, Republic of Moldova, Samoa, Sao Tome and Principe,

Senegal, Solomon Islands, Sri Lanka, Sudan, Swaziland, Syrian Arab Republic, Tajikistan, Timor-Leste, Ukraine, Uzbekistan, Vanuatu, Viet Nam, Yemen, Zambia.

■ **Upper middle income (54 countries)**

Albania, Algeria, Angola, Azerbaijan, Belarus, Belize, Bosnia and Herzegovina, Botswana, Brazil, Bulgaria, China, Colombia, Costa Rica, Cuba, Dominica, Dominican Republic, Ecuador, Fiji, Gabon, Grenada, Islamic Republic of Iran, Iraq, Jamaica, Jordan, Kazakhstan, Lebanon, Libya, Malaysia, Maldives, Marshall Islands, Mauritius, Mexico, Mongolia, Montenegro, Montserrat, Namibia, Nauru, Palau, Panama, Paraguay, Peru, Romania, Saint Lucia, Saint Vincent and the Grenadines, Serbia, South Africa, Suriname, Thailand, The former Yugoslav Republic of Macedonia, Tonga, Tunisia, Turkey, Turkmenistan, Tuvalu.

■ **High income (73 countries/territories)**

Andorra, Anguilla, Antigua and Barbuda, Argentina, Aruba, Australia, Austria, Bahamas, Bahrain, Barbados, Belgium, Bermuda, British Virgin Islands, Brunei Darussalam, Canada, Cayman Islands, Chile, Cook Islands, Croatia, Curaçao, Cyprus, Czech Republic, Denmark, Equatorial Guinea, Estonia, Finland, France, Germany, Greece, Hong Kong (China), Hungary, Iceland, Ireland, Israel, Italy, Japan, Kuwait, Latvia, Liechtenstein, Lithuania, Luxembourg, Macao (China), Malta, Monaco, Netherlands, New Zealand, Niue, Norway, Oman, Poland, Portugal, Qatar, Republic of Korea, Russian Federation, Saint Kitts and Nevis, Saint Martin, San Marino, Saudi Arabia, Seychelles, Singapore, Sint Maarten, Slovakia, Slovenia, Spain, Sweden, Switzerland, Trinidad and Tobago, Turks and Caicos Islands, United Arab Emirates, United Kingdom, United States, Uruguay, Bolivarian Republic of Venezuela.

3. This means 2013/14 for countries with a school year that overlaps two calendar years, and 2014 for those with a calendar school year. The most recent reference year for education finance for the UOE countries (see below) is the year ending in 2013.
4. Djibouti, Ghana, Kazakhstan, Mauritania, Montenegro, Nepal, the Republic of Korea, São Tomé and Príncipe, Tajikistan and Turks and Caicos Islands.
5. The countries concerned are most European countries as well as Australia, Brazil, Canada, Chile, China, India, Indonesia, Israel, Japan, Jordan, Mexico, New Zealand, Republic of Korea, Turkey and United States.
6. Where obvious inconsistencies exist between enrolment reported by countries and the United Nations population data, the UIS may decide not to calculate or publish enrolment ratios. This is the case, for instance, with Armenia, Australia, Bahrain, the Plurinational State of Bolivia, Hong Kong (China), Jamaica, Kuwait, Macao (China), Malaysia, Maldives, Oman, Qatar, Saint Lucia, Singapore and the United Arab Emirates.
7. That is the definition long used by UNESCO, but a parallel definition arose with the introduction in 1978 of the notion of functional literacy, which emphasizes the use of literacy skills. That year the UNESCO General Conference approved defining as functionally literate those who can engage in all activities in which literacy is required for the effective functioning of their group and community and also for enabling them to continue to use reading, writing and calculation for their own and the community's development.
8. In the data released by the UIS, some literacy rates are based on direct tests rather than individuals' declarations. This is the case for Benin, Central African Republic, Congo, Côte d'Ivoire, the Democratic Republic of the Congo, Egypt, Gabon, Guyana, Haiti, Jordan, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mauritania, Niger, Nigeria, Rwanda, Swaziland and Zimbabwe. Care should therefore be taken when analysing trends over time and when interpreting these results.
9. For reliability and consistency reasons, the UIS does not publish literacy data based on educational attainment proxies. Only data reported by countries based on self-declaration or household declaration are included in the statistical tables. However, in the absence of such data, educational attainment proxies for some countries, particularly developed ones, are used to compute regional weighted averages.
10. For a description of the GALP methodology, see UNESCO (2005, p. 261) and UIS (2006).
11. This is a UNSD classification in three main country groupings as per the May 2015 version published online at <http://unstats.un.org/unsd/methods/m49/m49regin.htm>.

ENDNOTES

1. A full set of statistics and indicators related to this introduction is found in Excel tables on the GEM Report website at <http://en.unesco.org/gem-report>.
2. The thematic indicators were proposed by the Technical Advisory Group on post-2015 education indicators – now the Technical Cooperation Group, whose secretariat is based at the UNESCO Institute for Statistics (UIS) – to monitor progress towards the targets at the global, regional and national levels. The global indicators were approved at the 47th session of the UN Statistical Commission in March 2016. At time of publication, consultations were still under way on the other thematic indicators, which were to be officially adopted in October 2016.

TABLE 1

Background demographic statistics, legal guarantee of compulsory and free education and structure of national education system – part 1

Country or territory	Demography ¹		GDP and Poverty ²				Legal Guarantee of Compulsory and Free Education ⁴				
	Total population (000)	Average annual growth rate (%)	GDP per capita		Population living on less than PPP US\$1.90 a day (%)	2003–2013 ³	Pre-primary education		Primary and Secondary Education		
			Current US\$	Current PPP US\$			2014	2014	Compulsory education (age group)	Free education (years)	Compulsory education (age group)
2016	2016

Countries with high income	47,802	87,574	101,243	87,891	

Source: UIS database, except where noted.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. United Nations Population Division (UNPD) estimates, revision 2015 (United Nations, 2015), based on the median variant.

2. World Bank (2015); World Bank WDI database, December 2015 release.

3. Data are for the most recent year available during the period specified. For more details see World Bank (2015).

4. Euridyce (2014, 2015, 2016); UNESCO-IBE (2012); national education ministry websites; UIS database.

5. Data are for 2014 except for countries with a split calendar school year, in which case data are for 2013.

6. School-age population data are not presented for some or all levels of education due to inconsistencies in population data.

7. National population data are presented instead of UNPD populations estimates due to inconsistencies in, or lack of, UNPD population data.

8. School-age population data are not presented due to lack of United Nations population data by age.

9. For pre-primary education there is legal entitlement but it is not compulsory. Legal entitlement to early childhood care and education (ECCE) means providers have a statutory duty to ensure that publicly subsidized ECCE provision is available for all children living in a given catchment area whose parents, regardless of employment, socio-economic or family status, require a place for them. Children are entitled, but not obliged, to participate (Euridyce, 2014).

(-) The category is not applicable or does not exist.

(...) No data are available.

TABLE 2

SDG 4, Target 4.1 – Universal access, participation and completion, primary education – part 1

By 2030, ensure that all girls and boys complete free, equitable and quality primary education leading to relevant and effective learning outcomes

Source: UIS database, except where noted. GER and GIR to last grade are based on the United Nations Population Division estimates, revision 2015 (United Nations, 2015), median variant.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Over-age pupils are defined as those whose age is at least two years higher than the official age of entry in a given grade.

2. Data reflect the actual number of children not enrolled at all, derived from the age-specific or adjusted net enrolment ratio of primary school age children, which measures the proportion of those who are enrolled in either primary or secondary school.

3. GEM Report team calculations based on data from national and international household surveys.

4. Altinok (2013); Cheng and Ormeova (2014); education ministry national reports and websites; EGMA/EGRA; PASEC; PILNA; PIRLS 2011; SACMEQ; TERCE; TIMSS 2011; Uwezo. 'Nationally representative learning assessment' refers to national (N), regional (R) and international (I) formative learning assessments. Information and data need to be used and interpreted with caution since the different types of assessments are not necessarily comparable.

5. Data are for the most recent year available in the period specified. For details see relevant sources.

6. Refers to the percentage of pupils performing at or above level 1 of proficiency in reading and/or mathematics.

7. GIR, GER or NER were not calculated due to inconsistencies in the United Nations population data or lack of United Nations population by age.

8. In the absence of assessments conducted in the proposed indicator grade, surveys of student learning achievement in the grade below or above the proposed indicator grade are used as placeholders to report on learning assessments and/or learning outcomes in early grades and at the end of primary education.

9. National population data were used to calculate GIR, GER and NER due to inconsistencies in the United Nations population data or lack of United Nations population by age.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(x) Data are for the school year ending in 2011.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(-) Magnitude nil or negligible

(-) The category is not applicable or does not exist.

(...) No data are available.

Countries with high income	1,262	47 ^z	92	91	93	4,048	44	92	92	92	...	83	

Source: UIS database, except where noted. Enrolment ratios and gross intake rates to last grade are based on the United Nations Population Division estimates, revision 2015 (United Nations, 2015), median variant.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Over-age pupils are defined as those whose age is at least two years higher than the official age of entry in a given grade. The percentage is calculated as the sum of the numbers of pupils who are two or more years above the theoretical age of their grade divided by total enrolment in lower secondary education.

2. Data reflect the actual number of adolescents of lower secondary school age not enrolled at all, derived from the lower secondary ANER, which measures the proportion of lower secondary school age adolescents who are enrolled in primary, secondary, post-secondary or tertiary education.

3. Data reflect the actual number of adolescents and youth of upper secondary school age not enrolled at all, derived from the upper secondary ANER, which measures the proportion of upper secondary school age adolescents and youth who are enrolled in primary, secondary, post-secondary or tertiary education.

4. GEM Report team calculations based on data from national and international household surveys.

5. Data are for the most recent year available in the period specified. For details see relevant sources.

6. Altinok (2013); Cheng and Omeova (2014); Ministries of education national reports and websites; PISA 2012 (OECD, 2013), TIMSS 2011. 'Nationally representative learning assessment' refers to national (N) or international (I) formative learning assessments. Information and data need to be used and interpreted with caution since the different types of assessments are not necessarily comparable.

7. Refers to the percentage of pupils performing at or above level 1 of proficiency in reading and/or mathematics.

8. GER and GIR to last grade were not calculated due to inconsistencies in the United Nations population data or lack of United Nations population by age.

9. National population data were used to calculate GER and GIR to last grade due to inconsistencies in the United Nations population data or lack of United Nations population by age.

10. In the absence of assessments conducted in the proposed indicator grade, surveys of student learning achievement in the grade below or above the proposed indicator grade are used as placeholders to report on learning assessments and/or learning outcomes at the end of secondary education.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(-) Magnitude nil or negligible

(.) The category is not applicable or does not exist.

(...) No data are available.

TABLE 4

SDG 4, Target 4.2 – Universal access to early childhood development, care and pre-primary education

By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education

Country or territory	CHILD MORTALITY ¹ AND MALNUTRITION ²		PARTICIPATION IN PRE-PRIMARY EDUCATION									SCHOOL READINESS ⁵

Source: UIS database, except where noted. Enrolment ratios are based on the United Nations Population Division estimates, revision 2015 (United Nations, 2015), median variant.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Under-5 mortality rates are the updated estimates generated by the UN Inter-agency Group for Child Mortality Estimation in September 2015. They are based on the median variant.

2. UNICEF, WHO and World Bank (2015).

3. Data are for the most recent year available during the period specified.

4. ANER one year before the official primary school entry age is the percentage of children at the intended age a year before entry into primary education who are enrolled in either pre-primary or primary education.

5. UNICEF-MICS 4 and 5, country reports.

6. Data refer to the MICS indicator "Adult support for learning", which is the percentage of children 36 to 59 months old with whom an adult has engaged in four or more of the following activities to promote learning and school readiness in the previous 3 days: (a) reading books to the child, (b) telling stories to the child, (c) singing songs to the child, (d) taking the child outside the home, (e) playing with the child, and (f) spending time with the child naming, counting or drawing things.

7. Data refer to the MICS indicator "Early Child Development Index", which is the percentage of children who are developmentally on track in at least three of the following domains: (a) literacy-numeracy, (b) physical development, (c)

social-emotional development, and (d) learning (ability to follow simple instructions, ability to occupy herself/himself independently).

8. National population data were used to calculate enrolment ratios due to inconsistencies in the United Nations population data or lack of United Nations population by age.

9. Enrolment ratios was not calculated due to inconsistencies in the United Nations population data or lack of United Nations population by age.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(-) Magnitude nil or negligible

(.) The category is not applicable or does not exist.

(...) No data are available.

TABLE 5

SDG 4, Target 4.3 – Universal access to technical, vocational and tertiary education

By 2030, ensure equal access for all women and men to affordable quality technical, vocational and tertiary education, including university – part 1

Countries with high income	65,441	54	74	66	83	

Source: UIS database, except where noted. GIR and GER are based on the United Nations Population Division estimates, revision 2015 (United Nations, 2015), median variant.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Data are from 2011 Eurostat Adult Education Survey, which focuses on people aged 25 to 64 living in private households.

2. National population data were used to calculate GIR and GER due to inconsistencies in the United Nations population data or lack of United Nations population by age.

3. GIR and GER were not calculated due to inconsistencies in the United Nations population data or lack of United Nations population by age.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(-) Magnitude nil or negligible

(-) The category is not applicable or does not exist.

(...) No data are available.

TABLE 6

SDG 4, Target 4.4 – Youth and adult skills for employment, decent jobs and entrepreneurship

By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship

Country or territory	ICT SKILLS ACQUISITION						ADULT EDUCATIONAL ATTAINMENT											
	Percentage of adults (15 and over) with ICT skills by type of skills (%) ¹			Percentage of adults (25 and over) (%) who have attained at least:

2. Data are for the most recent year available during the period specified.

(...) No data are available.

TABLE 7

SDG 4, Target 4.5 – Gender – Eliminating gender disparity in education

By 2030, eliminate gender disparities in education and ensure equal access at all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations

Country or territory	Gender Disparity in Participation in Education				Gender Disparity in School Completion ¹				Gender Disparity in Learning Outcomes ²				Gender Disparity in Literacy		Gender Disparity in Adult Literacy and Numeracy Skills ³

Source: UIS database, except where noted. Data presented in the present table come from previous and subsequent statistical tables in the longer and/or the printed version where they are broken-down by gender (total, male, female). Gender parity indices in the table are based on those gender break-downs and are the ratio of female to male rates.

Note A: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

Note B: See previous and subsequent statistical tables for sources of data and detailed country notes.

1. Global Education Monitoring Report team calculations, based on data from national and international household surveys compiled in the World Inequality Database in Education (WIDE).

2. Altinok (2013); Cheng and Omeova (2014); ministries of education's national reports and websites; EGMA/EGRA; PASEC; PILNA; PIRLS 2011; PISA 2012; SACMEQ; TERCE; TIMSS 2011; Uwezo. Data on learning outcomes are from nationally representative national (N), regional (R) and international (I) formative learning assessments. Information and data need to be used and interpreted with caution since the different types of assessments are not necessarily comparable.

3. PIACC 2012 (OECD, 2013).

4. Data are for the most recent year available in the period specified. For details see relevant sources.

5. National population data were used to calculate enrolment ratios due to inconsistencies in the United Nations population data or lack of United Nations population by age.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(...) No data are available.

TABLE 8

SDG 4, Target 4.5 – Gender – Achieving gender equality in education

By 2030, ensure “substantive gender equality in education through gender-sensitive school and learning processes and environments, education content and teacher training, and challenging gender discrimination and unequal social norms in education”

Country or territory	GENDER EQUALITY IN EDUCATION																		
	Female presence in teaching staff				Gender-sensitive national curriculum frameworks and learning environments ¹								Gender discrimination and unequal social norms		Child domestic work ⁷

Source: UIS database, except where noted.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. UNESCO-IBE (2016); UNICEF-WASH-Report (2015); Global School-based Student Health Survey.

2. Key terms included are a) gender equality, b) gender equity, c) empowerment of girls/women, d) gender sensitive(ity) and e) gender parity. The degree of inclusion of the issue in curricula is assessed as LOW if 1 or 2 of the 5 items are covered, MEDIUM if 3 are covered and HIGH if 4 or 5 are covered; 0 indicates no inclusion of any items.

3. Curricula referred to are for primary education, lower secondary education or both.

4. Data are for the most recent year available in the period specified. For details see relevant sources.

5. United Nations, Department of Economic and Social Affairs, Population Division: World Marriage Data 2015 (POP/DB/Marr/Rev2015); GEM Report team calculations for total values and weighted averages.

6. The fertility indicators are from the United Nations Population Division estimates, revision 2015 (United Nations, 2015). They are based on the median variant.

7. UNICEF-MICS 4 and 5, country reports. Child domestic work refers to household chores such as cooking, cleaning and caring for children, as well as collecting firewood and fetching water.

a. Includes consensual unions

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(-) Magnitude nil or negligible

(.) The category is not applicable or does not exist.

(...) No data are available.

TABLE 9

SDG 4, Target 4.5 - Equity - Equal completion of school for vulnerable groups

By 2030, eliminate gender disparities in education and ensure equal access at all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations

Sources: GEM Report team calculations, based on data from national and international and household surveys compiled in the World Inequality Database in Education (WIDE).

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. National averages of completion rates are presented in Statistical Tables 2 (primary) and 3 (lower and upper secondary)

2. Location parity index is the ratio of completion rate of students living in rural areas to that of their urban counterparts.

3. Wealth parity index is the ratio of completion rate of students living in the poorest households to that of their richest counterparts.

4. All regional values shown are medians.

(...) No data are available.

TABLE 10

SDG 4, Target 4.6 – Youth and adult literacy and numeracy

By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy

Upper middle	99**	5,854**	53**	94	114,350	67
Countries with high income

Sources: UIS database, except where noted.

Note A: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

Note B: For countries indicated with (*), national observed literacy data are used. For all others, UIS literacy estimates are used (**). The estimates were generated using the UIS Global Age-specific Literacy Projections model. Those in the most recent period are for 2014 and are based on the most recent observed data available for each country.

Note C: The population used to generate the number of illiterates is from the United Nations Population Division estimates, revision 2015 (United Nations, 2015). It is based on the median variant. For countries with national observed literacy data, the population corresponding to the year of the census or survey was used. For countries with UIS estimates, populations used are for 2014.

1. Literacy data presented in these columns are based on conventional assessment methods – either self- and third-party declarations or educational attainment proxies – and thus should be interpreted with caution; they are not based on any test and may overestimate actual literacy levels.

2. Data are for the most recent year available during the period specified. For literacy data, see the introduction to the statistical tables and the table of metadata on literacy statistics (published on the GEM Report Website) for a broader explanation of national literacy definitions, assessment methods, and sources and years of data.

3. Data on basic skills acquisition are from Survey of Adult Skills (PIAAC 2012–2015) (OECD, 2013, 2016).

(a) Literacy data are based on direct reading tests in national and international household surveys.

(*) For country level data: national estimate.

(**) For country level data: UIS estimate/projection; for regional and other country-grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of population for the region or other country grouping).

(...) No data are available.

TABLE 11

SDG 4, Target 4.7 – Education for sustainable development and global citizenship

By 2030, ensure all learners acquire knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development

Countries with high income	84	83	84

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Source: UNESCO-IBE (2016).

2. Curricula referred to are for primary education, lower secondary education or both.

3. Key terms included are a) gender equality, b) gender equity, c) empowerment of girls/women, d) gender sensitive(ity) and e) gender parity. The degree of inclusion of the issue in curricula is assessed as LOW if 1 or 2 of the 5 items are covered, MEDIUM if 3 are covered and HIGH if 4 or 5 are covered; 0 indicates no inclusion of any items.

4. Key terms included are a) human rights, rights and responsibilities (children's rights, cultural rights, indigenous rights, women's rights, disability rights); b) freedom (of expression, of speech, of press, of association or organization) and civil liberties; c) social justice; d) democracy/democratic rule, democratic values/principles; e) human rights education. The degree of inclusion of the issue in curricula is assessed as LOW if 1 or 2 of the 5 items are covered, MEDIUM if 3 are covered and HIGH if 4 or 5 are covered; 0 indicates no inclusion of any items.

5. Key terms included are a) sustainable, sustainability, sustainable development; b) economic sustainability, sustainable growth, sustainable production/consumption, green economy; c) social sustainability (social cohesion and sustainability); d) environmental sustainability/environmentally sustainable; e) climate change/variability (global warming, carbon emissions/footprint); f) renewable energy/fuels, alternative energy sources (solar, tidal, wind, wave, geothermal, biomass); g) ecosystems, ecology (biodiversity, biosphere, biomes, loss of diversity); h) waste management, recycling; i) education for sustainable development, sustainability education, education for sustainability; j) environmental education/studies, education for the environment, education for environmental sustainability. The degree of inclusion of the issue in curricula is assessed as LOW if 1 to 4 of the 10 items are covered, MEDIUM if 5 to 7 items are covered and HIGH if 8 to 10 items are covered; 0 indicates no inclusion of any items.

6. Key terms are a) globalization; b) global citizen(ship)/culture/identity/community; c) global-local thinking, local-global (think global[ly] act local[ly], glocal); d) multiculturalism/interculturalism (and hyphenated forms); e) migration, immigration, mobility, movement of people; f) global competition/competitiveness, globally competitive, international competitiveness; g) global inequality(ies)/disparity(ies); h) national/local citizenship/culture/identity(ies)/culture(s)/heritage, global citizenship education; i) education for global citizenship. The degree of inclusion of the issue in curricula is assessed as LOW if 1 to 4 of these items are covered, MEDIUM if 5 to 7 are covered and HIGH if 8 or 9 are covered; 0 indicates no inclusion of any items.

7. Data are from UNAIDS (2011), 2015 UNAIDS AIDSInfo Online Database and DHS StatCompiler. For more detailed country notes see these sources.

8. Data are for the most recent year available in the period specified. For details see relevant sources.

9. Source: GEM Report team calculations (2016) based on PISA 2012 data (OECD, 2013). PISA defines scientific literacy as a) scientific knowledge and its use to identify questions, acquire new knowledge, explain scientific phenomena and draw evidence-based conclusions about science-related issues; b) understanding of the characteristic features of science as a form of human knowledge and enquiry; c) awareness of how science and technology shape the material, intellectual and cultural environments; and d) willingness to engage in science-related issues, and with the ideas of science, as a reflective citizen. Science literacy is used in this table as a proxy measure of knowledge of environmental science, and geoscience and of sustainable development/sustainability more broadly, given the correlation between the two.

(...) No data are available.

TABLE 12

SDG 4, Means of implementation 4.a and 4.b – Education facilities, learning environments and internationally inbound and outbound tertiary students by 2030, build and upgrade education facilities that are child, disability and gender sensitive and provide effective learning environments; enhance student international mobility

Sources: UIS database; Global Education Monitoring Report team calculations for pupil/qualified and pupil/trained teacher ratios.

Note: The country groupings by level of income are as defined by the World Bank but include only countries listed in the table. They are based on the list of countries by income group as revised in July 2015.

1. Qualified teachers are defined according to national standards.

2. Trained teachers are defined as those who have received at least the minimum organized and recognized pre-service and in-service pedagogical training required to teach at a given level of education. Data on trained classroom teachers are not collected for countries whose education statistics are gathered through the OECD, Eurostat or the World Education Indicators questionnaires.

3. Based on headcounts of pupils and teachers.

Data in bold are for the school year ending in 2015.

(z) Data are for the school year ending in 2013.

(y) Data are for the school year ending in 2012.

(*) National estimate.

(**) For country level data: UIS partial estimate; for regional and other country grouping sums and weighted averages: partial imputation due to incomplete country coverage (between 33% and 60% of the population of the region or other country grouping).

(-) Magnitude nil or negligible

(.) The category is not applicable or does not exist.

(...) No data are available.

Aid tables

INTRODUCTION¹

The data on aid used in this Report are derived from the Organisation for Economic Co-operation and Development (OECD) International Development Statistics (IDS) databases, which record information provided annually by all member countries of the OECD Development Assistance Committee (DAC), as well as a growing number of donors that are not members of the committee. In this Report, total figures for net official development assistance (ODA) comes from the DAC database while those for gross ODA, sector-allocable aid and aid to education come from the Creditor Reporter System (CRS). Both are available at www.oecd.org/dac/stats/idsonline.

ODA is public funds provided to developing countries to promote their economic and social development. It is concessional; that is, it takes the form of either a grant or a loan carrying a lower rate of interest than is available on the market and, usually, a longer repayment period.

A more extensive version of the aid tables including ODA per recipient is available on the Report's website, www.unesco.org/gemreport.

AID RECIPIENTS AND DONORS

Developing countries are those in Part 1 of the DAC List of Aid Recipients: all low and middle income countries except twelve Central and Eastern European countries and a few more advanced developing countries.

Bilateral donors are countries that provide development assistance directly to recipient countries. Most are members of the DAC, a forum of major bilateral donors

established to promote aid and its effectiveness. Bilateral donors also contribute substantially to the financing of multilateral donors through contributions recorded as multilateral ODA.

Multilateral donors are international institutions with government membership that conduct all or a significant part of their activities in favour of developing countries. They include multilateral development banks (e.g. the World Bank and Inter-American Development Bank), United Nations agencies and regional groupings (e.g. the European Commission). The development banks also make non-concessional loans to several middle and higher income countries; these are not counted as part of ODA.

TYPES OF AID

Total ODA: bilateral and multilateral aid for all sectors, as well as aid that is not allocable by sector, such as general budget support and debt relief. In Table 1, total ODA from bilateral donors is bilateral aid only, while aid as a percentage of gross national income (GNI) is bilateral and multilateral ODA.

Sector-allocable ODA: aid allocated to a specific sector, such as education or health. It does not include aid for general development purposes (e.g. general budget support), balance-of-payments support, debt relief or emergency assistance.

Debt relief: includes debt forgiveness, i.e. the extinction of a loan by agreement between the creditor (donor) and debtor (aid recipient), and other action on debt, including debt swaps, buy-backs and refinancing. In the DAC database, debt forgiveness is reported as a grant and therefore counts as ODA.

Country programmable aid: defined by subtracting from total gross ODA aid that:

- is unpredictable by nature (humanitarian aid and debt relief);
- entails no cross-border flows (administrative costs, imputed student costs, and costs related to promotion of development awareness, research in donor countries);
- is not part of cooperation agreements between governments (food aid and aid from local governments);
- is not country programmable by donor (core funding of non-governmental organization).

Country programmable aid is not included in the aid tables, but is used in a few places in the Report.

EDUCATION AID

Direct aid to education: aid to education reported in the CRS database as direct allocations to the education sector. It is the total of direct aid, as defined by the DAC, to:

- basic education, defined by the DAC as covering primary education, basic life skills for youth and adults, and early childhood education;
- secondary education, both general secondary education and vocational training;
- post-secondary education, including advanced technical and managerial training;
- education, 'level unspecified', which refers to any activity that cannot be attributed solely to the development of a particular level of education, such as education research and teacher training. General education programme support is often reported within this subcategory.

Total aid to education: direct aid to education plus 20% of general budget support (aid provided to governments without being earmarked for specific projects or sectors) to represent the estimated 15% to 25% of budget support that typically benefits the education sector.

Total aid to basic education: direct aid to basic education, plus 10% of general budget support, plus 50% of education, 'level unspecified'.

Commitments and disbursements: A commitment is a firm obligation by a donor, expressed in writing and backed by necessary funds to provide specified assistance to a country or a multilateral organization. Disbursements record the actual international transfer of financial resources or of goods and services. Starting with the 2011 Report, disbursement figures are used in the text and tables, while in previous years commitments were reported. As the aid committed in a given year can be disbursed later, sometimes over several years, the annual aid figures based on commitments cannot be directly compared to disbursements. Reliable figures on aid disbursements have only been available since 2002, which consequently is used as the base year.

Current and constant prices: Aid figures in the DAC databases are expressed in US dollars. When comparing aid figures between years, adjustment is required to compensate for inflation and changes in exchange rates. Such adjustments result in aid being expressed in constant dollars, i.e. in dollars fixed at the value they held in a given reference year, including their external value in terms of other currencies. This Report presents most aid data in constant 2014 US dollars.

Source: OECD-DAC, DAC and CRS databases (2015).

*Preliminary data.

**Kuwait and the United Arab Emirates are not part of the Development Assistance Committee (DAC) but are included in its Creditor Reporting System (CRS) database. Iceland became a member of the DAC in 2012 and now reports to the CRS. The Czech Republic, Poland, the Slovak Republic and Slovenia became members of the DAC in 2013.

***The Asian Development Fund is a donor to education but does not report to the OECD on disbursements.

**** The total includes ODA from other bilaterals and multilaterals not listed above.

(...) indicates that data are not available, (-) represents a nil value

Total ODA data represent net disbursements. Sector-allocable ODA and debt relief and other actions relating to debt represent gross disbursements

Total ODA from DAC donors is bilateral ODA only, while ODA as % of GNI includes multilateral ODA.

Source: OECD-DAC, CRS database (2015).

* Estonia, Hungary, Kazakhstan, Kuwait, Lithuania, Romania and the United Arab Emirates are not part of the DAC but are included in its CRS database. Iceland became a member of the DAC in 2012 and now reports to the CRS. The Czech Republic, Poland, the Slovak Republic and Slovenia became members of the DAC in 2013.

** The Asian Development Fund is a donor to education but does not report to the OECD on disbursements.

Aid from France, the United Kingdom and New Zealand includes funds disbursed to overseas territories (see Table 3).

(...) indicates that data are not available, (-) represents a nil value

All data represent gross disbursements. The share of ODA disbursed to the education sector is as a percentage of gross ODA disbursements as reported in the CRS statistical tables. Total ODA figures in Table 1 represent net disbursements as reported in the DAC statistical tables.

Source: OECD-DAC CRS database (2014).

* Aid disbursement figures for 2002–2003 refer to the former Sudan, before the separation of the South in 2011. Aid disbursements for 2011 onwards have been separated out by the OECD and refer to Sudan and South Sudan.

** As defined on the OECD-DAC list of ODA recipients.

(...) indicates that data are not available, (-) represents a nil value

The share of education in total ODA does not match that in Table 2 because the DAC database is used for donors and the CRS database for recipients in total ODA figures.

Malta and Slovenia are not listed in the table because they were removed from the OECD-DAC list of ODA recipients in 2005. However, the aid they received in 2002–2003 is included in the totals.

The classification by income is based on the World Bank list as of July 2014.

All data represent gross disbursements.

Source: OECD-DAC CRS database (2014).

* Aid disbursement figures for 2002–2003 refer to the former Sudan, before the separation of the South in 2011. Aid disbursements for 2011 onwards have been separated out by the OECD and refer to Sudan and South Sudan.

** As defined on the OECD-DAC list of ODA recipients.

(...) indicates that data are not available, (-) represents a nil value

The share of education in total ODA does not match that in Table 2 because the DAC database is used for donors and the CRS database for recipients in total ODA figures.

Malta and Slovenia are not listed in the table because they were removed from the OECD-DAC list of ODA recipients in 2005. However, the aid they received in 2002–2003 is included in the totals.

The classification by income is based on the World Bank list as of July 2014.

All data represent gross disbursements.
