Monitoring Lifelong Learning for a Sustainable Learning City

PART 3

Monitoring System

The diagram illustrates a three-tier monitoring system. At the top is the 'Monitoring System' title. Below it are three horizontal bars, each representing a different level. The top bar is orange and labeled 'City level'. The middle bar is blue and labeled 'District level'. The bottom bar is green and labeled 'Sub-district and town level'. Each bar has a colored trapezoidal segment on its left side, matching the bar's color.

District level

Sub-district and town level

Monitoring Learning city at municipal level

Shanghai and seven other cities in China participated in the Ministry of Education's pilot work on monitoring learning cities.

2018 We submitted the **City' s Monitoring Report** and **Data Report**.

**City' s
Monitoring
Report**

**Data
Report**

Monitoring Learning city at District level

Shanghai has started the research of "**Monitoring Indicators for Learning Districts**".

In 2019, **the pilot work** will be carried out.

Monitoring Learning city at Sub-district and town level

Issuing the Development Index of Learning Towns for three years to guide the balanced and characteristic development of community education in sub-districts and towns.

Monitoring Citizens ' Lifelong Learning Needs and Skills Project

Based on the experience of PIAAC in OECD, a Survey of lifelong learning needs and Skills for citizen aged 16-65 was conducted in Shanghai.

市民终身学习需求与能力 监测研究中心

Monitoring Center for
Lifelong Learning Needs and Skills

Shanghai Municipal Education Commission has set up special funds to guarantee the monitoring work of learning city for the sustainable development.

Our Vision

We will continue to explore the unique path of Shanghai towards the goal of building an excellent learning city for citizens ' well-being and the sustainable development of the city.

Thank you

**Welcome to the Magic City:
SHANGHAI!**
