UNESCO — *Convention on the Protection of the Underwater Cultural Heritage, 2001*

AIMA fully supports this Convention, which was adopted in 2001, and which enables States to better protect the underwater cultural heritage within their jurisdictions. The Convention promotes the preservation of underwater cultural heritage sites including scientific research and public access and is against the commercial exploitation of underwater cultural heritage. For more information about the Convention and its principles see:

www.unesco.org/new/en/culture/themes/underwater-cultural-heritage

Code of Ethics

Those interested in joining should read the AIMA Constitution and Code of Ethics before submitting an application for membership. All members must formally agree to adhere to both these documents, as well as any by-laws and regulations made under them. The Code of Ethics and Constitution are available on the AIMA website.
