Keeping Education Running: Group Handwashing in Schools

Mar 23, 2020

FRESH School Health and Nutrition Webinar: Keeping Education Running: Group Handwashing in Schools

- What are the barriers to sustained behavior change with handwashing?
- What tools and systems need to be in place in order to adopt the desired behavior at scale?

This webinar discusses the importance of handwashing in disease prevention in response to the recent COVID-19 pandemic. It presents technical solutions, material and supply, budget requirements, and management tools to support Ministries of Education integrate daily group handwashing activities into the routine of public schools.

Featured Speaker: Bella Monse, Senior Advisor, Fit for School Programme, GIZ
