International AIDS 2020 Conference

When:

Monday, July 6, 2020 to Friday, July 10, 2020

Where:

San Francisco and Oakland, USA

The International AIDS Conference serves as a unique forum at the intersection of science, advocacy, and human rights.

The 23rd international AIDS conference in San Francisco and Oakland in 2020 will provide a powerful reminder not only of the extraordinary return on US investments in global AIDS programmes, but also an opportunity to strengthen HIV science, programmes, and policy, and advocate for an effective response.

In recent years, the profiles of the HIV epidemics in San Francisco and Oakland have become similar. Historically, the two cities had different HIV epidemics and different resources with which to address them.

More details on the [conference website](#). ^[1]
