To Whom It May Concern

Subject: Nomination of Chiperu Folkdance and Associated Practices to the List of ICH in Need of Urgent Safeguarding

I wish to confirm that Chobe District ICH Committee is fully aware and supports the nomination of Chiperu Folkdance and Associated Practices to the UNESCO List of ICH in Need of Urgent Safeguarding. The Multi – stakeholder Committee was formed to specifically oversee the implementation of the 2003 Convention for the Safeguarding of Intangible Cultural Heritage in the Chobe District.

The Committee has been at the forefront of safeguarding ICH in the district since its formation and has been engaged in the preparations for the nomination of Chiperu. The Committee set up a Task Team to deal with the corrections from UNESCO and conducted community consultations in all the six villages where the Veekuhane communities reside. We are of the view that inscription of the element will contribute positively to the viability of the element as well as promoting it.

It is for the above reasons that we unreservedly support this nomination.

Yours faithfully,

Kgosi Rebecca Banika

To Whom It May Concern

Cisiyankulu is an organization formed to promote and preserve the cultural practices of the Basubiya Community. It operates in the Chobe District of Botswana. The organization prepares and manages an annual festival called Cisiyankulu Cultural Festival, in which Chiperu is critical.

As Cisiyankulu Trust, we are excited that Chiperu is being considered for inscription in the UNESCO List of ICH in Need of Urgent Safeguarding. This will go a long way to answer some of the challenges experienced by the practitioners of the practice. Such challenges have been experienced during the Cisiyankulu Cultural Festival and leaders of different Chiperu groups have discussed them.

It is for this reason that we support the nomination of the element.
