### LUNCH

Day 3 draws on the lessons learnt from the previous days to focus on the future. What do we need to ensure that young people have access to spaces that are engaging and effective and do no harm? Participants will have the opportunity to engage in a series of skills building sessions and action-oriented discussions, enabling them to improve their work developing digital platforms for young people. Industry representatives and social justice actors will help the group understand how platforms can evolve to reflect the changing tech industry and advance the needs of diverse communities around the world.
