Report

The **2030 Agenda for Sustainable Development** commits us to leave no one behind

“**Refugees and internally displaced persons and migrants**

are among those

who are vulnerable

[and] must be empowered”

1 in 8 are internal migrants

1 in 30 are international migrants

1 in 80 are displaced

One of their vulnerabilities
but also one of their strengths
is **education**

MIGRATION and DISPLACEMENT ► EDUCATION

Internal migration leads to:

CHILDREN LEFT BEHIND

- One in three in rural China

International migration leads to:

BRAIN DRAIN

- At least 1 in 5 skilled people emigrate from 27% of countries

Displacement leads to:

EMERGENCIES

- Half of refugees are under 18

MIGRATION and DISPLACEMENT ► EDUCATION

Internal migration leads to:

EDUCATION OPPORTUNITIES

- Migrants from rural Indonesia had 3 more years of education

International migration leads to:
EDUCATION OPPORTUNITIES

- Children of Colombian migrants in USA had 2 years of education more than children of non-migrants

EXCHANGE AND MOBILITY

- In half of countries at least 6% of students emigrate

Displacement leads to:

REFUGE

- There were 12,700 attacks on schools in conflict-affected countries

EDUCATION ► MIGRATION

The more educated...

Compared with primary education graduates, tertiary education graduates are

2x as likely to migrate **internally**

5x as likely to migrate **internationally**

EDUCATION

▼

MIGRATION and DISPLACEMENT

Inclusive education for migrant and displaced populations:

- addresses causes of tension
- helps realise their potential
- supports communities back home

Lowering the cost for migrants
to send money home
from **7%** to **3%**
would provide **US\$1 billion**
for education

Two new **global compacts**
on migrants and refugees
will be signed this year
with education commitments

**How should countries
achieve these commitments?**

1 Protect their rights

- Don't let ID documents or residence status block enrolment
- Make education and immigration laws consistent
- Do not let school leaders add extra barriers
- Put formal processes in place to respond to rights' violations

In just 2 years since the
New York Declaration...

...refugees have missed
1.5 billion days of school

“Jordan started allowing children to enter public schools without identification cards in 2016”

2 Include them in national systems

Refugees should:

- spend minimal time in schools not following national curricula

Immigrants should:

- not be segregated
- spend as little time as possible in preparatory classes
- not be separated into slower school tracks

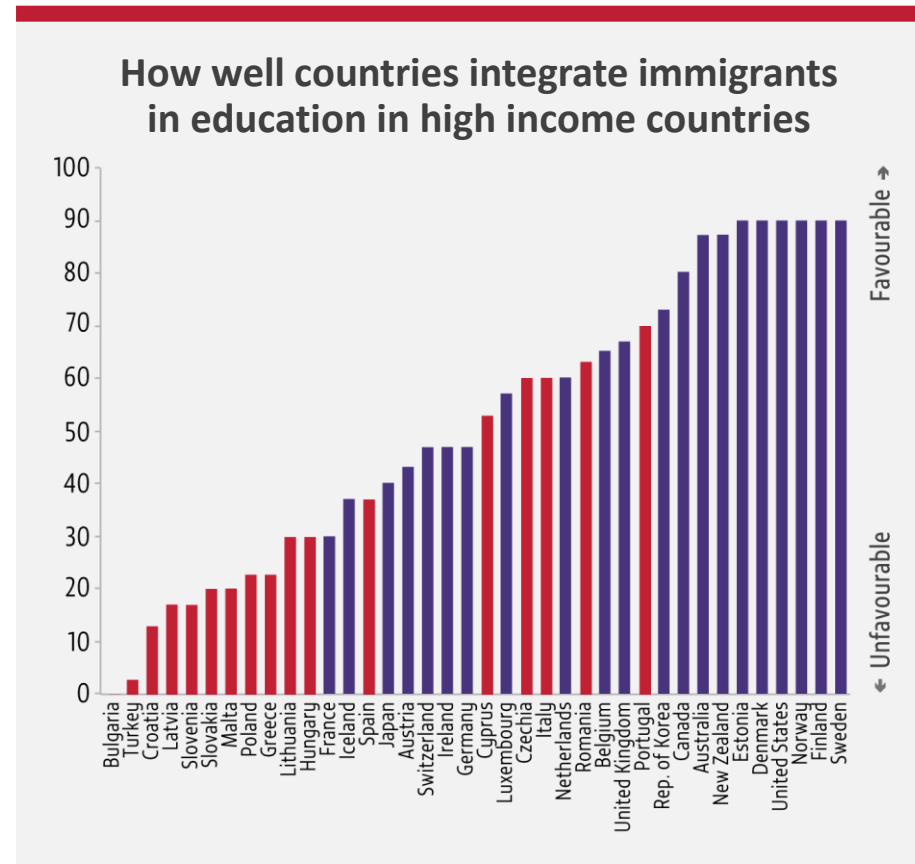

Turkey has committed to include all Syrian refugees to its national education system by 2020

“8 of the top 10 refugee hosting countries include them in national education systems including Chad, Ethiopia, Lebanon and Uganda”

3 Respond to their needs

- Provide language and other facilitating programmes
- Provide alternative, preparatory and accelerated education programmes
- Help overcome cost barriers
- Provide financial education programmes

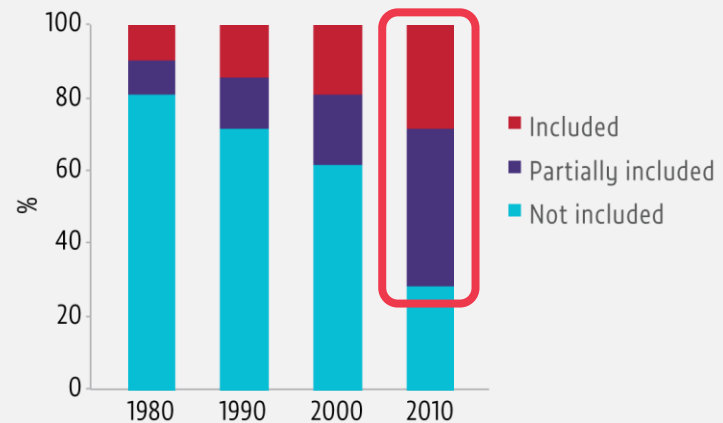

“A cash transfer in Lebanon increased refugee school attendance by 20%”

4 Recognize their histories

Adapt curricula and re-think textbooks so that they:

- respect past history and current diversity
- recognize contributions of immigrants and refugees
- promote openness to multiple perspectives

Two thirds of 21 high income countries have introduced multicultural education at least partially

“81% of those who took part in the Eurobarometer survey agreed that school materials should include information on ethnic diversity”

5 Prepare their teachers

Train teachers to:

- deal with diversity
- confront stereotypes and discrimination
- recognize stress and trauma and refer those in need

Relieve teachers from conditions of extreme hardship

In the Syrian Arab Republic

73% of teachers had no training on how to provide **psychosocial support**

“ In Iraq, the Education Cluster brought partners together to coordinate incentives for internally displaced teachers ”

6 Harness their potential

- Reform institutions to accept qualifications earned all over the world
- Streamline and simplify systems for certifying skills

Among those with tertiary education
in richer countries...

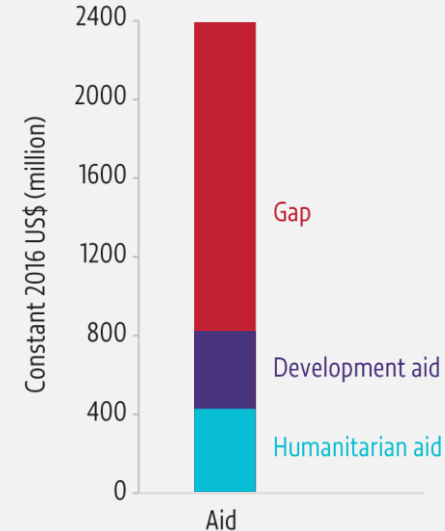

over **1/3** of immigrants but **1/4** of natives
are overqualified for their jobs

“Germany offers opportunities to identify and evaluate undocumented occupational competences”

7 Reform humanitarian/development aid

- Humanitarian and development actors must co-ordinate to provide predictable, multi-year funding
- Multisector humanitarian plans should include education

Only a third of the funding gap for refugee education has been filled

“Uganda brought together humanitarian and aid partners to prepare its education response plan”
