Políticas educativas: Conjunto de acciones ejecutadas jurídicamente, motivando la polémica y un orden vinculante de la convivencia, que se orientan a generar el bien público a través de transmitir institucionalmente las habilidades y conocimientos necesarios a las generaciones más jóvenes con el fin de que éstas sobrevivan, se adapten y aporten a la sociedad, utilizando lo aprendido.

Communicate effectively

Fake News / 2018 Elections

- This year Mexico elected a new president, society had to be well informed, so librarians work hand in hand with news spaces to validate: phrases, data, information that presidential candidates declared in each debate.

- It was an incredible opportunity, we managed to position the name of the libraries and librarians as reliable monitors in front of the citizenship.

Other activities

- **Editatón:** Edition marathon focus on Social Movements, especially on drug trafficking.

New challenges / New realities

1. Focusing on public libraries to improve their services and bring citizens closer to the libraries to create strong communities.
2. Having a strategic plan for border libraries or that respond to Central America migrants, libraries should be institutions that help eliminate inequalities in our region.
3. Developing a map of the key cities to provide timely information on the rights of migrants and be a secure point against discrimination, all aid to migrants is valuable at times like the one we are living in Mexico.

¡Thank you!
