Description:

The core aim of Comprehensive Sexuality Education (CSE) and the new structured lesson plans is to help learners build an understanding of concepts, content, values and attitudes around sexuality, sexual behaviour as well as leading safe and healthy lives. The educator's guide is intended to assist educators with the provision of content, effective teaching methods and tools for measuring what learners have absorbed. The scripted lesson plans in the learner's book provide learning opportunities and activities to engage with peers on how to build and manage healthy relationships and how to manage own choices towards a healthy and safe life.
