## CONFERENCE OF PARTIES TO THE CONVENTION ON THE PROTECTION AND PROMOTION OF THE DIVERSITY OF CULTURAL EXPRESSIONS

**Seventh session**  
**Paris, UNESCO Headquarters, Room II**  
**4-7 June 2019**

### INFORMATION DOCUMENT

This document presents the results of the satisfaction survey on the preparation and organization of the twelfth session of the Intergovernmental Committee for the Protection and Promotion of the Diversity of Cultural Expressions.

1. In order to evaluate the preparation and organization of statutory meetings of the governing bodies of the Convention on the Protection and Promotion of the Diversity of Cultural Expressions (hereinafter referred to as the “Convention”) and to contribute to the efficiency of future meetings in accordance with [Decision 191 EX/15 \(I\) Part C/5](#) of the Executive Board, the Secretariat of the Convention started conducting satisfaction surveys in 2013. As such, survey results have been collected for nine sessions of the governing bodies: three sessions of the Conference of Parties (fourth, fifth and sixth sessions, June 2013, 2015 and 2017) and six sessions of the Intergovernmental Committee for the Protection and Promotion of the Diversity of Cultural Expressions (hereinafter referred to as the “Committee”) (seventh, eighth, ninth, tenth, eleventh sessions and twelfth sessions, December 2013, 2014, 2015, 2016, 2017 and 2018).
2. The satisfaction survey is designed to assess a range of issues, from the quality of working and information documents to time management, translation and interpretation services as well as communication with the Secretariat. For each session, the same electronic survey was sent by the Secretariat to all participants immediately following the closing of the session, and reminders were sent in order to receive as many responses as possible. From the fourth session of the Conference of Parties, questions specific to the exchange sessions were added. Since the tenth session of the Committee, questions were also added concerning the duration of sessions and the quality of the support given to civil society by the Secretariat, thereby reflecting the governing bodies’ current priorities on its working methods.
3. The satisfaction survey is distributed in French and in English and contains 14 questions on the preparation and organization of the session. Respondents are asked to rate the Secretariat’s services as “excellent” (4 points), “good” (3 points), “adequate” (2 points), or “poor” (1 point) with respect to each item, and to provide comments and suggestions for improvement.
4. The responses are submitted by the participants through an online form and respondents are not required to identify themselves by name or country/organization. The results are combined and the average scores are calculated for each question and session. Qualitative comments are collected and analyzed in relation to the quantitative responses.
5. As shown in the table below, the response rate for the eight surveys organized since 2013 is on average 17%. The highest participation rate was achieved for the tenth session of the Committee, with a 25% response rate. This rate has significantly decreased, with the lowest number of responses at 7.4% for the twelfth session of the Committee. Regrettably, this low participation is not sufficiently representative, nor statistically significant, making it impossible to draw any meaningful conclusions from the data.

6. The Annex presents a table with the average score for each of the 14 questions across the previous seven statutory meetings, a total average score for each statutory meeting and a total average score for all seven meetings. Meaningful calculations could not be made for the eleventh and twelfth sessions of the Committee due to the overall low response rate and the fact that many questions were left unanswered or considered non-applicable by the respondents.
7. Unedited, qualitative comments received through the satisfaction survey for the previous sessions are available in Documents [CE/13/7.IGC/INF.3](#), [CE/15/9.IGC/INF.3](#), [CE/14/8.IGC/INF.7](#), [CE/15/5.CP/INF.6](#), [DCE/16/10.IGC/INF.6](#), [DCE/17/6.CP/INF.5](#), [DCE/17/11.IGC/INF.3](#) and [DCE/18/12.IGC/INF.3](#) respectively. These documents also include a number of actions taken by the Secretariat to respond to the comments received.
8. Written comments are very important to have more specific feedback from Parties and observers on the working methods of the Secretariat. Unfortunately, the number of qualitative responses is in decline each year, with the lowest number recorded for the twelfth session of the Committee. This prevents the Secretariat from making a full qualitative analysis or a meaningful action plan to address calls for improvement to specific working methods that are based on a critical mass of voices, as it has done in the past.
