MOUTYA

1. To me Moutya is fun dance, this dance we can also express our emotion. Moutya is also my favourite dance because out of all the dances that I've danced I don't feel the same way when I dance Moutya and when I dance Moutya I feel free and I have so much joy in me.
2. Moutya is important because it is our traditional dance and Moutya is also important because it reminds us how the slaves expressed their feelings and how they were being treated.
3. IF Moutya is recognised by the world it would mean that our traditional dance Moutya is being valued by others and it means so much to me that people pay attention to our fun dance Moutya.

1) What does moutya mean to you?

Moutya is a traditional dance similar to sega. The rhythm for moutya is formed by a drum made with dried goat skin which needs to be heated before the drumming starts. The drum in creole is called 'tanbour moutya'. Moutya was danced by the slaves for them to express their emotion.

2) Why is it important?

It is important because it is our traditional dance and we have to keep dancing it to understand our culture.

3) If moutya is recognised by the world what will it mean to you?

I will feel so excited and proudly to dance it in front of the people. I will think that it will become well known.

1) To me moutya is a dance that was created hundreds of years ago by the slaves. Moutya is also a traditional dance for us Seychellois. And one of the most popular dance in the Indian ocean.

2) It is important because it's Seychelles cultural dance.

3) It means that moutya is getting more popular than it was some years ago and other countries are dancing moutya.

Moutya

- 1) For me moutya is a traditional African dance similar to the Sega, but the movement is different. Female and male dancers move rhythm to the beat of the often single drum made of dried goatskin and lightly heated up by a bonfire prior to the start of the dance and regular during the evening. Also our young people in nowadays should join in the dance moutya.
- 2) A very important feature of the Seychellois cultures, during the colonial and plantation labour era the dance was an integral part of the communities' forum for freedom of speech and tool for survival in an environment where they were oppressed.
- 3) If moutya is recognised by the world for me is good. That the other people in another world will know how to dance our dance moutya.

1. moutya is a traditional dance from africa similar to Sega, but with often more pronounced suggestive movements. female and male dancers more made of dried goat skin and lightly heated up by a bonfire prior to the start of the dance.

2. Although today moutya is a popular dance from and a very important feature of the Seychelles culture of the things during the colonial and plantation labour ear the dance was an integral part of the community and UNESCO people

3. It will mean a lot to me because other people from other country will know our traditional dance and the story of moutya when you go to other country it's fun when you are dancing with other people.
