1.1.1. Enter the official definition of ALE here:	Nicaragua, como país miembro participante de CONFINTEA, define oficialmente el aprendizaje y educación de adultos contemplados en la constitución política de la república, el plan de desarrollo humano, la ley general de educación, el plan estratégico educativo nacional y en los marcos curriculares de las direcciones generales y direcciones específicas. Recientemente los conceptos se han venido renovando a partir del proceso participativo de la educación y de la asistencia técnica brindada a la educación de jóvenes y adultos por organismos internacionales y grupos de consultores nacionales y extranjeros.
1.2. Has the official definition of ALE changed since 2009?	Yes, a lot
1.2.1. What were the reasons for this change?	En general, en nuestro país el proceso de educación de jóvenes adultos se ha venido transformando, tomando en cuenta las opiniones de los actores de esta educación; las razones esenciales del cambio se produjeron ante la necesidad de garantizar procesos masivos de alfabetización, enfrentar la batalla por el sexto y noveno grado y dar atención prioritaria al sector rural, en correspondencia con las necesidades de las personas jóvenes y adultas, los planes de gobierno y de desarrollo humano.

<p>1.3.1. Describe here the key points of your country's policy approach to literacy and basic skills.</p>	<p>La alfabetización es una prioridad en la agenda del gobierno de Nicaragua, el Ministerio de Educación y la población. La prueba contundente es que Nicaragua se declaró territorio libre de analfabetismo con el 3.6% en julio de 2009, lo cual fue posible a través de la participación de más de 50,000 alfabetizadores y la implementación de los programas Yo, sí puedo, método mixto y el método alfa radio presencial, con los cuales continuamos alfabetizando personas que aún se encuentran en condición de analfabetismo en áreas geográficamente dispersas en la zona rural para, de acuerdo a la política pública de estado, reducir el analfabetismo a su mínima expresión. Dentro de su plan estratégico, el Ministerio de Educación concibe tres grandes ejes: cobertura-equidad, calidad y fortalecimiento institucional. Desde sus niveles y modalidades, alfabetización, primaria, secundaria y habilitación laboral, de forma paulatina y permanente estamos fortaleciendo la habilidades y competencia básicas: lectoescritura, cálculo matemático, cuidado y protección de la salud, participación de desarrollo comunitario, cuidado y protección del medio ambiente y la madre tierra, complementando con habilidades básicas para el trabajo productivo, siempre en la búsqueda de la calidad de la educación de jóvenes y adultos.</p>
