## Questions

**1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?**

Rights	To have the devices and electric power to run an internet node
Openness	The governance of internet spectrum need to be local or territorial based, and not national wide based.
Accessibility	We need laws to protect the distributed model of the Internet
Multistakeholder participation	For true participation, we need easy and secure identification
Cross-cutting indicators	Internet capacity is to be fully used.

**2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?**
