

Submission #30

Personal information

Name Tom

Organisation eQualit.ie

Email address tom@equalit.ie

Country/region Australia

Gender Male

How would you define the stakeholder community or communities to which you belong? Internet technical and professional community

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	Privacy, anonymity
Openness	Openness of algorithms, access to non-tailored content, interoperability, open standards and compliance to open standards
Accessibility	open standards and compliance to them
Multistakeholder participation	Democratic and/or decentralised decision making
Cross-cutting indicators	Monopoly/concentration of services (eg google, apple, facebook are highly concentrated), participation,

2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights

Openness

IETF standards development protocol

Accessibility

IETF standards development protocol

Multistakeholder participation

Cross-cutting indicators

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights

there is a lack of understanding of the privacy implications of eg "the cloud"

Openness

Accessibility

Multistakeholder participation

Cross-cutting indicators

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

To observe and quantify the continuing takeover of the internet by large corporations and surveillance-mad governments

6. How do you think that other stakeholders might use the framework? To rail against the de-democratisation of the internet

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

8. Please upload any documents that you think will be helpful here.

Please indicate here if you do NOT want your contribution to be published on the UNESCO Internet Universality Indicators consultation platform.
