

## Submission #54

## Personal information

Name Daniel Chong

**Organisation** none

Email address d3kcy1@gmail.com

Country/region Malaysia

Gender Male

How would you define the stakeholder community or communities to which you belong?

- · Internet technical and professional community
- Academic
- · Individual capacity

## Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	Freedom of choice
Openness	Net Neutrality
Accessibility	Elderly, lower income, working class, rural population
Multistakeholder participation	User friendly government websites
Cross-cutting indicators	Data Cost, connectivity

2. Are there are any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights	unknown
Openness	unknown
Accessibility	unknown
Multistakeholder participation	unknown
Cross-cutting indicators	unknown

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights	unknown
Openness	unknown
Accessibility	unknown
Multistakeholder participation	unknown
Cross-cutting indicators	unknown

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

I teach modules related to Internet Cultures to college students.

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

This is a very vague survey. It should be sent to targeted groups and individuals with clear guidelines.

- 6. How do you think that other stakeholders might use the framework?
- 7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.
- 8. Please upload any documents that you think will be helpful here.
