Submission #94

Personal information

Name Jimson Olufuye

Organisation Africa ICT Alliance - AfICTA

Email address jolufuye@aficta.org

Country/region Africa

Gender Male

How would you define the stakeholder community or communities to which you belong? Private sector

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights	To what extent are people's right on the Internet protected? Even people's right to affordable Internet
Openness	To what extent is government procurement process open to all.
Accessibility	Access to Broadband and information by all groups including the handicapped.
Multistakeholder participation	Are all stakeholders involved in addressing internet governance issues?
Cross-cutting indicators	Existence of Policy frameworks, laws; monitoring and evaluation and measuring of progress viz SDGs

2. Are there are any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights	UN Human Rights Council
Openness	Open Data Initiative
Accessibility	
Multistakeholder participation	ICANN Multistakeholder Approach. Ditto: IGF
Cross-cutting indicators	Boston Consulting Group eFriction report

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights	Liaising with Bureau of Statistics
Openness	Liaising with Bureau of Statistics
Accessibility	Liaising with Bureau of Statistics
Multistakeholder participation	Liaising with Bureau of Statistics
Cross-cutting indicators	Liaising with Bureau of Statistics

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

Age: what is the average exposure age for youths. This is not available. It would be good to know the effect of early access to the Internet for youth behavioral stability.
Type of service accessed on the internet with knowledge of impact on all round development
Safeguards used e.g. Internet security apps

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

Measure progress on the realization of vision, mission and objectives.

6. How do you think that other stakeholders might use the framework? To enhance the realization of the objectives.

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

Effective consultation with World Economic Forum, WiTSA, the Economists and national statistical bureaus should be beneficial.

8. Please upload any documents that you think will be helpful here.
