

Submission #104

Personal information

Name Raymond Matlala

Organisation South African Youth for International Diplomacy

Email address srmatlala@gmail.com

Country/region South Africa

Gender Male

How would you define the stakeholder community or communities to which you belong? Civil society

Questions

1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?

Rights

Openness

Accessibility

Multistakeholder
participation

Cross-cutting indicators	existence of conventions, recommendations or other international documents and mechanisms to ensure the safe operation of the Internet; - level of users' trust in the Internet (confidentiality, personal data security, security of various transactions, trust to information published on the Internet).
--------------------------	--

2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?

Rights

Openness

Accessibility

Multistakeholder participation

Cross-cutting indicators

3. What do you think are the most important gaps in data/evidence required for monitoring Internet Universality and the ROAM principles? What approaches do you think could help to address these in your country, region or area of work?

Rights

Openness

Accessibility

Multistakeholder participation

Cross-cutting indicators

4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?

5. How do you think you might use the indicator framework for Internet Universality once it has been developed?

6. How do you think that other stakeholders might use the framework?

7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.

The four principles of Internet functioning adopted by UNESCO should be supplemented with one more key principle "Security" (R-O-A-M-S). This principle should be characterized by indicators reflecting the level of users' trust in the Internet and public safety from criminal, terrorist and other illegal manifestations in the Internet space.

It's needed to be filled asap today, please let me know, if you are on it!;)

8. Please upload any documents that you think will be helpful here.
