

# Submission #105

## Personal information

**Name** Farhad

**Organisation** Article Information agency

**Email address** farxadibragimov@yandex.ru

**Country/region**

**Gender**

**How would you define the stakeholder community or communities to which you belong?** Journalism/media

## Questions

**1. What are your priorities for issues that should be addressed through the Internet Universality framework in each of these five categories?**

---

**Rights** - national and international norms for the protection of human rights in the virtual sphere; - enforcement of human rights online at the same level and in the same amount as offline; - enforcement of human rights to open, unhindered, safe and non-discriminatory access to the Internet; - enforcement of human rights in the Internet space; - protection of personal and other data in the context of their transboundary transfer; - protection of children and adolescents in the Internet space.

---

**Openness**

---

**Accessibility**

---

**Multistakeholder participation**

---

**Cross-cutting indicators**

**2. Are there any existing indicators with which you are familiar that you think it would be useful to include in the ROAM indicators framework?**

---

Rights

- existence of a legislative framework, law enforcement and judicial practice for the protection of human rights in the Internet; - existence of special legislative regulations that deal with human right protection in the Internet; - availability of national and international regulation to protect human rights to open, unhindered, secure and non-discriminatory access to the Internet; - existence of a legislative framework to regulate the interaction of the state with transnational IT companies in order to protect citizens in the Internet; - a number of cases that record the leaks of personal data and their illegal use, including in the context of cross-border data transmission; - level of awareness of parents and teachers on the risks of using the Internet by children and adolescents, the existence of parental control programs for the activity of children in the Internet; - availability of mechanisms to restrict access to illegal information on the Internet; - availability of mecha

Cross-cutting indicators

---

**4. What experience or views do you have of indicators relating to the Internet which are concerned with gender and with children and young people?**

---

**5. How do you think you might use the indicator framework for Internet Universality once it has been developed?**

In case an unbiased network of Internet universality indicators is agreed upon within the framework of the working and governing bodies of UNESCO, such a system can be internationally recognized and widely used at the national level, which includes self-assessment, the provision of the society with valuable lessons and further improvement of national legislation and practices of its implementation.

**6. How do you think that other stakeholders might use the framework?**

**7. Please add any other comments that you think will be helpful to UNESCO in developing the indicators framework.**

**8. Please upload any documents that you think will be helpful here.**

Please indicate here if you do NOT want your contribution to be published on the UNESCO Internet Universality Indicators consultation platform.
