Predmet: Pismo potpore

Poštovani,

Dajemo punu potporu na pridruživanje multinacionalnoj nominaciji "Sokolarstvo: živuća baština čovječanstva" koja je već upisana na UNESCO-ov Reprezentativni popis nematerijalne kulturne baštine čovječanstva.

Razlog tome je što sokolarenje ima dugu i neprekinutu tradiciju koja se stoljećima prenosi na nove zaljubljenike u ovu tradicionalnu disciplinu na prostoru Hrvatske.

Kako je u Republici Hrvatskoj sokolarstvo potpuno zakonski regulirano i živi kao tradicija među ljudima, u budućnosti kao i do sada cilja nam je pridobiti što veći broj novih sokolara, nastaviti organizirati domaće i međunarodne sokolarske skupove, pisati članke, raditi radionice od vrtičke dobi preko osnovnih i srednjih škola pa sve do veleučilišta i fakulteta te nastaviti tradiciju sokolarenja.

We hereby express our full support for the multinational "Falconry, a living human heritage" nomination, as inscribed on UNESCO's Representative List of the Intangible Cultural Heritage of Humanity.

Falconry has had a long and continuous presence that has been passed on to new lovers of this traditional discipline on the territory of present-day Croatia.

In the Republic of Croatia, falconry has been completely regulated by law and has been a living tradition among people. In the future, it will remain our aim to attract as many new falconers as possible, to continue organising national and international gatherings of falconers, to write articles, to organise workshops for children and young people of all ages, from pre-school and school to college and university students, and to continue our falconry tradition.

On the territory of present-day Croatia, falconry has had a long and continuous presence that has been passed on to new lovers of this traditional discipline.

In addition, the “Falconry Centre” organisation of Šibenik was the first in the Republic of Croatia to start formal falconry training, and in the meantime has developed into a centre that actively deals with the protection of birds of prey by using the falconry techniques that best serve this purpose.
