Submission # 56

Organization: Latvian National Commission for UNESCO

Country/Region: Latvia

How would you define the stakeholder community or communities to which you belong?

Government

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

An indicator could be added, whether a country has any mechanisms in place to monitor and combat internet piracy.

Are there any suggestions that you wish to make in respect of the proposed themes, questions and indicators which are included in the framework as it stands?

B.5 indicator (Numbers of bloggers, microbloggers and users of social media services per hundred population and per hundred Internet users) should be optional or under category if applicable considering that, for example, in Latvia, there is no database of local bloggers.
